THE HARRISONIAN.

It is proposed to publish in the course of the ensuing Spring, either in this city or New York, a NEW WEEKLY PAPER, on an imperial sheet, by the above title, at the price of $2 per annum, payable in advance.

The object of this publication is to bring forward the claims of WILLIAM HENRY HARRISON to the next Presidency, subject to the sanction of the People. As the State of New York was sufficiently patriotic to hold two conventions for the purpose of giving him its support at the recent Presidential Election, and as it was universally admitted that his claims were second to none others that times, there is no good reason why he should now be driven from the field, by the headstrong measures, or the secret intrigues of self constituted leaders, when a cordial union in his favour will insure us a glorious victory over our political oppressors.

☞ Editors of papers please publish this notice. Corresponding Committees appointed at the Harrison State Convention, will please act in behalf of the Proprietors, to whom all letters may be addressed, on the subject. Prospectuses will be forwarded in a few days.

Albany, Jan. 13th, 1838.—3t

MARL FOR SALE.

The subscriber having made arrangements for disposing of the valuable shell marl, which exists on his estate in Talbot County, informs the Agricultural community, that he is now ready to deliver, of the above article, any quantity that may be required, by giving him timely notice.

The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertalzing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposite it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl——Those wishing to purchase will please address William B. Smyth, Easton, Md. Vessels going for it will pass up the Great Choptank until the Dover Bridge appears in sight—they will then come to Barker's landing where they will find the lands of the undersigned on the west bank of the river.

WILLIAM B. SMYTH.

April 7, 1838

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

"But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col Smyth and Mr Atkinson These beds are in contiguous strata, apparently successive and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop and upp rmost principally of scollop. Excavation was made to bring these beds to notice, with a view of enlisting them into public service, by giving to their proprietors who were formed proper directions for extracting the materials, and salutary advice as to a just estimate of its value in order to secure a constant and permanent disposal of it. The object is now in progress of experiment. South of these banks on the Choptank, no other deposite of marl is known to occur."

The Cambridge Chronicle, Centreville Times, Kent Bugle, and Delaware Journal will copy the above, 3 times and send their accounts to this office for collection.
