in which debts or dues, accruing to the United States, may be paid.'

In this form the resolution was ordered to be engrossed for a third reading by the following votes:

YEAS—Messrs. Bayard, Buchanan, Clay, of Alabama, Clay, of Kentucky, Clayton, Crittenden, Cuthbert, Davis, Grundy, King, Lumpkin, Lyon, McKean, Merrick, Nicholas, Norvall, Prentiss, Preston, Rives, Robbins, Robinson, Ruggles, Sevier, Smith, of Indiana, Southard, Spence, Swift, Tallmadge, Tipton, Trotter, Webster, White, Williams, Young—34.

NAYS—Messrs. Allen, Benton, Brown, Calhoun, Hubbard, Linn, Morris, Niles, Smith, of Connecticut, Strange—10.

Mr. Webster now moved an adjournment, (with the view of making some remarks on the subject on Tuesday,) but withdrew the motion with a view to take up the general orders.

☞ A GREAT DAY'S WORK—Was done in the House of Representatives on Saturday last. Between two and three hundred bills for the relief of individuals, after undergoing consideration in committee of the whole, (Mr. McKennon being in the chair, and discharging the duties of presiding officer with great prompitude and efficiency,) were ordered to a third reading, and were severally read a third time passed, and ordered to be sent up to the Senate for concurrence. These bills were all relative to individual cases of applications for Revolutionary and invalid Pensions, which had been the subject of laborious examination before the Standing Committees of the House, and were therefore, scarcely susceptible of objection. The day moreover had, by a previous order of the House, been specially set apart for this class of bills, and the members of the House attending during the day, in more than usual number, with an ardent determination to transact the business before them. Nevertheless, it was a great day's work. Half a dozen days of similar devotion to business would go far towards clearing the docket of bills in the House of Representatives, though it is unprecedentedly heavy.

EASTON, (MD.)

SATURDAY MORNING, JUNE 2, 1838.

Messrs. Prentiss and Word arrived in Washington just in time to record their votes in favor of the repeal of the Specie Circular.

The Van Buren Convention, which met in the Universalist Church in Baltimore on Thursday morning last, nominated William Grason, Esq. of Queen Ann's county as their candidate for Governor.—The Chronicle states, that their resolutions among other errors, declared that Mr. Grason had signalized his advocacy of the principles of the Loco Focos by his uniform attachment to the 'Democratic' party!!!

REPEAL OF THE TREASURY CIRCULAR.

The following is the resolution to repeal the Treasury circular which passed the House of Representatives on Wednesday, having the day previous, received the sanction of the Senate:

"Resolved by the Senate and House of Representatives; &c. That it shall not be lawful for the Secretary of the Treasury to make, or to continue in force any general order which shall create any difference between the different branches of revenue, as to the money or medium of payment in which debts or dues accruing to the United States may be paid."

On its final passage in the House the yeas and nays were called, and were as follows:—Yeas 154—Nays 29.

Yell, the Member of Congress from Arkansas, declines a re-election. And Prentice says 'any well behaved dog will go quietly out of doors when he sees preparations made for kicking him down stairs.'

THE LATE FORGERY.—The Princess Anne (Md.) Herald, states that it is ascertained, that among the forgeries committed by Mr. Wm. Bromwell, were notes upon the following persons in Somerset county: On Samuel W. Jones of Princess Anne, two notes each $1,200; Marcellus Jones of White Haven, $1.000; Wm. Toadvine, of Saulisbury, $$900; and on Messrs Freeny & Parsons of Salisbury, Wm. & John Gunby of Forktown, Levin Conner of Annamessex, and others for sums not ascertained—the whole amounting to upwards of $10,000 in the county.

ARREST OF WM. BROMWELL. A slip from the office of the Mobile Examiner, dated May 24, states that Wm. Bromwell, who lately decamped from this city, charged with forgery, was arrested in that place on the morning of the 24th, by Marshal Cocke. He arrived there in the steamboat Arkansas, under the assumed name of *Brown*. Since his arrest, it is said, he has declared that his place of destination was Texas.—[Balt. Whig.

STATES EVIDENCE.—The Frederick Times, a Van Buren paper of the Conservative order, bestows the following notice, (which we have deprived of its *italic* stings) upon the letter copied yesterday from the Baltimore Republican. suggesting Mr. *Francis Thomas* as a proper person for a cabinet minister, in case of any vacancies about those days. The Times was formerly hand in glove with Mr. Thomas and the Republican; and is even now a professed supporter of the same master—Van Buren. It should therefore know something about the constituents of the party, and the merits and usages of its great men—How these brethren love one another!—*Balt. Pat.*

From the Frederick Times, a Van Buren paper.

THE TOAD SWELLING.—Some ignoramus, in a letter to the Baltimore Republican, suggests Frank Thomas as a proper person to be placed in the Cabinet, in case any resignations should be handed in!!! We cannot believe that there is a single individual on the face of the earth stupid enough to harbor such an idea except Thomas himself, and hence we conclude that he wrote the letter. If the day ever arrives, when Mr. Van Buren shall think of Frank Thomas for a member of the Cabinet, we should say he was a fit subject for a lunatic asylum.

Last end of the wicked.—The Louisville (Ky.) Journal thus notices the unhappy career and miserable death of *Amos Kendall's paper*, the Frankfort Argus. The Journal says:—'There is no longer a Van Buren paper at the capital of Kentucky. The Frankfort Argus has groaned and kicked and died. It lived a miserable life, and died a miserable death.'

REDEMPTION OF CORPORATION NOTES.

We publish in another column of today's *American* the Ordinance just passed by the City Council for the redemption of the small note issue. The law provides, as was stated some days since, for the issue by the Register of certificates of City Stock bearing six per cent. interest, for all amounts over one hundred dollars that may be presented to him by any person or body corporate, the same to be redeemable at the pleasure of the Corporation.

In conformity, therefore, with the understanding had between the Banks of this city and the Commissioners authorized to issue small notes, the redemption of the corporation notes under the denomination of one dollar, will be commenced by the Banks on Friday next, the 1st of June.

Credit is due to the City Authorities and the Banks for their exertions to promote public convenience by putting samll coin into circulation, and it will remain for the public to sustain them in this praiseworthy measure, by keeping this desirable currency in active use. It is hoped that, inasmuch as the measure has been adopted for the benefit of our citizens generally, no portion of them will permit themselves to make the silver change thus thrown into circulation the subject of traffic, for the sake of any small profit that might possibly be made upon it. It is understood that the redemption of the small certificates may be effected by the payment of coin or of the notes of the Banks, at their option—an arrangement caiculated to protect the Banks, and in no way injurious to the public.

TEXAS.—The Senate of Texas has rejected the resolution of the House of Representatives proposing to withdraw the proposition for the annexation of Texas to the United States. The ground of exception was, that the proposition was made by the vote of the people. It was said, that President Houston would himself take the responsibility of recalling it.

The Loan Bill as amended unanimously passed the Senate, April 30. By one of the provisions of this bill it provided that the 'money raised upon the bonds must be deposited in the United States Bank at Philadelphia, the Manhatten Bank at New York, or the Union Bank of Louisville, subject to the orders of the Government."

In the steamboat *Columbia*, from Norfolk, came passenger Major General *Jesup* and his aids from Florida; and also several French officers from the squadron lying in Hampton Roads.—[Nat. Intelligencer.

Death of Lieut. Col. Shellman.—A slip from the Savannah Georgian, announces the death of this patriot of the Revolution. Full of years and the patriarch of a numerous household, he departed this life on the 12th inst. and was buried with appropriate honors.

THE CROPS.—The Upper Marlborough Gazette of Thursday says: "We are sorry to learn from almost every part of the county, unfavorable accounts of the Tobacco plants. The fly has made the most destructive havoc among them, and in some sections the Planters will be compelled to abandon the growth of it entirely this year. In the Forest, where the largest quantity of tobacco is usually raised, the loss of plants will be most severely felt. The prospect of small grain is very flattering. Wheat looks better than it has for several years past. The Rye and Oat crops also look flourishing."

LOUISIANA ELECTION.

The withdrawal of H. Johnson from the Gubernatorial contest has given new life to the Whigs of Louisiana, and they have set themselves to work to carry the state throughout. The election of Mr. Roman, as Governor, is beyond all question, and Gen. White, who is a candidate for Congress in the first district, will succeed by an overwhelming majority, whilst Judge Chinn, all account concurs in saying, will be elected in the second district over T. Lawson, the Loco Foco candidate—Rice Garland, the present able Representative, will have no opposition in the third district.

The New Orleans American assures us that the state Senate will be renovated and improved, and in the House of Representatives, the Whigs have every right to calculate on two thirds.

The election in Louisiana for members of Congress, is the opening of the campaign for the 26th Congress, and there the first blow will be struck for the independence of the House of Representatives.—[Balt. Chron.

Morison's Pills.

General Agent for Pennsylvania, Maryland, Delaware, &c. No. 34 south st. three doors below Market st., Philadelphia, and No. 10 North st. Baltimore, near the Post Office.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES.

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of

The British College of HEALTH, LONDON.

Manufactured in this country in their original purity by H. SHEPHEARD MOAT, eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the Liver, Yellow Fever, Gout, Rheumatism, Lumbago, Tic Doloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy, Paralysis, Palsy, Green Sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; Small Pox, Measels, Whooping Cough, Scarlet Fever, Asthma, Jaundice, Gravel, Stone, and all Urinary Obstructions, Fistula, Piles, Structures, Ruptures, and Syphilies in all its stages; Constipated Bowels, Worms, Scurvy, Itching of the Skin, Kings Evil and all Cutaneous Disorders; in short, every Complaint to which the human frame is so direfully subject, under all their varied forms and names, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE, that is, in the IMPURITY OF THE BLOOD, from which springs every Complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its vicious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man, and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different, from their accustomed habits.

These Pills cure in all cases, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild Medicine, which conveys immediate conviction of its utility, from the first dose is as beneficial to the mind as the body; first calming then curing all Mental derangements, Eccentricities, Nervous Affections, Irritability and Restlessness, from whatever source, complaints which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind, discovered a cheap and universal mode of purifying, curing, and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No 1, and No 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No 2 Pills carry off those and the serious acid and putrid humors, incidental to the body; and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimoni phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The Powder in boxes 37½ cents.

CAUTION—Medicines of such great virtue as these, have been, and will be most certainly counterfeited.—To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morrisonian, 2 vols. 8vo—price $2,75 per vol.
The Family Adviser, 3 vols. 8vo—$1 per vol.
Practical Proof, containing many attested cures, price 37½ cents. And just published
The Mother's Book of Hygeian Midwifery, by H. Shepheard Moat, of New York.

☞ Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No 34 SOUTH SEVENTH STREET, three doors below Market street, Philadelphia—and at No 10 North street, Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.

IMPORTANT TO

FARMERS.

A NEW AND IMPROVED

PORTABLE HORSE POWER,

AND THRESHING MACHINE.

Having obtained Letters Patent, bearing date Feb. 6th, 1838, for an improvement on a PORTABLE HORSE POWER, for propelling Threshing Machines, Clover Mill, Small Grist Mills, &c.

The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consist in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse Power and Thresher, the bearings been surrounded with oil cups, which retain oil sufficient for one day, without replenishing, supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect, and hazardous to those who may superintend them, consequently produced by applying oil, during the operation or from a neglect of its mechanical construction. The vertical and horizontal bearings are supplied with oil by nutrition and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery. The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain, it also answers the purpose of cleaning clover seed, and with my late improvement is far superior to my former machines.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase, will call and examine for themselves. The subscriber has constantly on hand the above described machines, at his manufactory, north of Brandywine village, Del. where orders will be received and the machines, sent to any part of the neighboring states. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Delaware, Chester and Lancaster, Pa.; New Castle Kent, and Sussex, Del; and Cecil, Kent and Harford, Md; Salem Cumberland, Gloucester, and Burlington, N. J, where these machines have been justly celebrated and given entire satisfaction.

Notice.

The Subscriber will sell at Private Sale, all his real estate in Talbot County; Md. consisting of one farm handsomely situate on Bullingbrook Creek, upon which Risden Fountain now lives,—Fish, Oysters, and Wild Ducks, and all other luxuries that the salt water affords are to be had—there are one other luxury superior yet, (that of health.) Also the farm upon which *Henry Harrison* now lives, situate on the main road leading to Dover Bridge, and contiguous to two good Grist Mills, and one Saw Mill, all within one mile of a body of heavy Oak timber. Also the farm in Tuckahoe Neck, upon which John Smith now lives, lying immediately on the Choptank River, and bounded on the west by Turkey Creek with endless beds of first rate shell marl, as well as an inexhaustable body of choice *Hickory* and Oak Timber, convenient to the River navigation, he deems it unnecessary to say anything more of the intrinsic value of these farms on account of their location and soils, as persons will doubtless view the property before purchasing. Terms made known upon application to the subscriber, at Easton, who will remain but a few weeks or to Samuel Mackey, at Easton.
