POETRY.

For the Easton Gazttee.

THE MUSICAL SOCIETY.

We'll meet my loving friends of art,
In concert let us sing;
Each bear with me his vocal part,
In tuneful voices ring.
Each join with me his well tuned harp,
In concert sweet I say;
We'll set our key on either sharp,
And sing, sol la me fa.

Let Will and John the tennor sound,
And sing melodiously;
While Ben and Jo the bass do ground,
To make sweet harmony.
Let Pol and Sal sing trebble sweet,
In cords as sweetly play;
To move all parts soft and complete,
We'll sing, sol la me fa.

Within the temple, Solomon
In music took delight;
And voices had to join as one
Two hundred eighty-eight.
Then may we ever take delight
In music's art alway,
And we'll unite both day and night
To sing, sol la me fa.

Remember holy David well
In music s art was versed;
His voice and harp could spirits quell,
For Saul he dispossessed.
Each join with me, his well tuned harp,
In concert sweet I say
We'll set our key on either sharp,
And sing, sol la me fa.

MARL FOR SALE.

The subscriber having made arrangements for disposing of the valuable shell marl, which exists on his estate in Talbot County, informs the Agricultural community, that he is now ready to deliver, of the above article, any quantity that may be required, by giving him timely notice.

The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertalizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposite it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl.—Those wishing to purchase will please address William B. Smyth, Easton, Md. Vessels going for it will pass up the Great Choptank until the Dover Bridge appears in sight—they will then come to Barker's landing where they will find the lands of the undersigned on the west bank of the river.

WILLIAM B. SMYTH.

April 7, 1838

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

'But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceeding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr. Atkinson. These beds are in contiguous strata, apparently successive and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop, and uppermost principally of scollop. Endeavor was made to bring these beds into notice, with a view of enlisting them into public service, by giving to their proprietors what was deemed proper directions for extracting the materials, and salutary advice as to a just estimate of its value in order to secure a constant and permanent disposal of it. The subject is now in progress of experiment. South of these banks on the Choptank, no other deposite of marl is known to occur.'

The Cambridge Chronicle, Centreville Times, Kent Bugle, and Delaware Journal will copy the above, 5 times and send their accounts to this office for collection.
