EASTON GAZETTE.

EASTON, (MD.)

SATURDAY MORNING, AUGUST 4, 1838.

WHIG NOMINATION,

For Governor of the State of Maryland.

JOHN N. STEELE,

OF DORCHESTER COUNTY.

Election to be held on Wednesday, the 3d day of October.

WHIGS ATTEND!

You are aware that the elections to take place on the first Wednesday of October next, being the third day of the month, will be full of importance to the Whig cause, that is to say the cause of our beloved country —When an appeal is made to love of country, every Whig, if he be true to his own name, and the sacred principles which that name imports, will be always prompt to perform the duty which that love of country assigns him.

With a view to give ample time to reflect upon proper candidates to be presented to the consideration of the people of Talbot county, the old back-bone of Whig principles, as their fathers of the Revolution were, we respectfully recommend that Saturday the twenty-fifth day of August, be the day on which our fellow citizens meet in each election district at the usual places of holding elections at 3 o'clock P. M. precisely, to appoint from each district five delegates to meet in general committee in Easton, at 12 o'clock M. on the following Tuesday being the 28th day of August to nominate and recommend to the citizens of Talbot, a candidate for the Senate of Maryland, and three delegates to the General Assembly of Maryland.

We hope that every Whig and every true friend of his country, will bear this notice in mind to communicate to our friends the importance we ascribe to these elections we shall weekly renew this publication—We flatter ourselves that even without this every whig of Talbot, is prepared to do his duty, and anxious for the time to come when he may evince his patriotism—We have every inducement to press forward in the discharge of the high and holy duty which our much injured and bleeding country requires at our hands—Whigs be ye ready one and all, to come forth on Saturday in your election districts, the day above mentioned, and send your delegates on the succeeding Tuesday that we of Talbot, may have some honour in the rescue of our country—We say again Whigs attend.

In the above call on the Whigs of Talbot, we have omitted to state, that the term of service of the Commissioner of District No. 4. will expire this fall and that it therefore will be necessary to nominate a candidate for the place, at the time, and in the mode above stated.—Our apology for this omission is, that until recently, we were wholly unapprized of this circumstance.

We have received the first No. of the "American Silk Grower and Farmers' Manuel," the Prospectus of which will be found in our advertising columns. It is neatly printed on fine paper, and its articles are very well selected.

MELANCHOLY OCCURRENCE.

We learn that a party of sixteen persons while on a sailing excursion, on Sunday last in a small schooner, on Chester River, near Love Point, were capsized by a squall of wind, and melancholy to relate, seven of the sixteen were drowned.—The names of the lost were Mrs. Richardson, and her three daughters, of Kent Island, Capt. Denny, of the schooner, whose wife was one of the three ladies mentioned above, and a colored man and woman. The rest saved their lives by clinging to the vessel, while the unfortunates in endeavoring to avail themselves of a batteau were drowned.

WILLIAM BROMWELL, reached this city yesterday from New York, where he arrived in the Brig William Ridgaway from Mobile. He came in custody of an officer, and, after an examination before the Judges of Baltimore City Court, was committed to jail, to await the time when he will be arraigned for trial.

[Balt. Chron.

The U. S. frigate Constitution, Commodore Elliot, arrived at Hampton Roads, on Tuesday from the Mediterranean, and 28 days from Madeira.

THE BONDS OF THE BANK OF THE U. STATES.—In the National Gazette of Monday evening appeared the following paragraph:—

"It is rumored that the Bonds of the Bank of the United States, due in 1839, for two millions of dollars, has been sold by the Treasury Department, at par, to Charles Macalester, Esq. of this city."

On which the United States Gazette of yesterday remarks:—

"The above rumor, we are happy to say, is well founded. The same offer was made for the Bond due in 1840, for a like amount, but declined, the Secretary of the Treasury not having decided that the public exigencies will require its sale.

The purchase, we understand, is for account of the United States Bank. We also understand that Mr. Macalester has effected a negotiation by which the third Bond for two millions of dollars, will be liquidated in a manner equally acceptable to the government and the bank.

We are truly gratified to hear of these arrangements. We hope, and, indeed, cannot doubt, that they are indicative of a better understanding between the contracting parties: and we congratulate the country upon this event, which we consider as equally creditable to the administration and to the bank, and which cannot fail to have a beneficial influence upon all the business relations of the union.

MR. CLAY IN MAINE.

The Whig Convention in Maine which lately nominated Geo. Evans for Congress, unanimously recommended Mr. Clay as the candidate for the Presidency. It would, perhaps, be wise to refrain from such expressions of preference, but it a question whether it is not very well that the public sentiment, every where, should be unequivocally manifested, before the meeting of the convention.—[Chron.

[From the Maysville Eagle.]

MR CLAY.—AN INCIDENT.

When Mr. Clay reached this city on Saturday evening last, as he stepped off the steamboat Buffalo, which was crowded with passengers from every section of the country, he was greeted with *three cheers for Henry Clay our next President!* in tones that rent the very Heavens, and made earth tremble to its centre. It was a feeling tribute to talents and moral worth, virtue and patriotism, from men from every State in the Union; from strangers who knew him only as Henry Clay, the patriot and statesman, and it came gushing warm and involuntary from their hearts; and when he raised his hat and waived, 'a farewell hand' to his numerous fellow travellers, we saw a tear trickling down his furrowed cheek, which spoke the feelings of his heart more eloquently than could the most courtly language. It was the homage of the heart to talents and virtue, and it brought with it a *feeling* which gold cannot bring, which power and patronage can never buy.

Extract from a Letter, dated

ST. LOUIS, Missouri, July 9th, 1838.

'Since the receipt of your letter I have been to Galena & Dubuque & had a pleasant trip of it. I have seen some more of the beauties of the West. In that trip, and during my stay at a little town called Hannibal, I saw Tom Benton (in effigy) carried through the streets, suspended by the neck, and finally burnt and torn by the dogs. All this was the finale to an illumination in honor of the repeal of the Specie Circular; and the facts against Benton arose from his being considered the author of that humbug measure. The Whigs have become aroused from their lethargy in this State, and the first Monday of August next will be a woful day for the Loco Focos. We are confident that Tom Benton cannot be re-elected to the United States Senate.'

A PREDICTION.—Who is to be the next President cannot at this time be distinctly known, but it is certain that it will *not be* Mr Van Buren, and here ends all contention about the matter. New York, has been called a changeable State in its political policy—it is said to get spasm once in seven years, and to fall back on new men and new principles. This opinion is not sustained by facts. The last election in this State was not a mere change—it was a complete revolution—a political tornado brought about by a change in Mr Van Buren, and this change was a very simple one—he ruined his own friends by experimenting upon the currency and ruined the trade, commerce and prosperity of the State by his war on credit; his hard money system, and his general destruction of confidence. The people voted against him last fall, and there is nothing to change their opinion at the next election. The whigs in the country have the cards in their own hands, they will elect their State officers by 20,000 majority, and carry no less than thirty members of the next Congress, together with majorities in the State Legislature.—[N. Y. Star.

NORTH CAROLINA ELECTION.—The following slip was received yesterday, and comprises all the intelligence which we have of the election in North Carolina for Governor and members of the Legislature held Thursday 26th July.

OFFICE OF THE OBSERVER,
Fayettevilie, Saturday, July 28.

NORTH CAROLINA ELECTION—GOOD NEWS FROM PITT COUNTY.—A passenger in the stage from Tarborough informs us that the entire Whig Ticket for the Legislature is elected in Pitt. Last year one Whig and two Vans.

Also, that in Edgecombe, the vote was not fully ascertained, but the majority for Branch was only about 3 to 1. Heretofore the Van Buren majority in that county has been 15 to 1.

This is an auspicious beginning.

These two counties are in Mr. Stanley's district. Pitt county, in August, 1836, elected one Whig and two Van Burenites to the Legislature, and also gave a majority against the Whigs for Governor. At the election for President, which took place in November following, the Whigs had a majority of 9 votes, and last August the county gave Mr. Stanley a majority of 203. Having fully established its Whig character, Pitt county has continued on in the good work, and elected an entire Whig delegation to the Legislature. Edgecombe county sends three delegates to the Legislature, and is decidedly the most Loco Foco county in the whole State. In all previous contests the vote has been about 1179 Van Buren to 75 Whigs—not quite one Whig to fifteen Loco Focos! Ten righteous men were sufficient to save an ancient city from destruction, and who can say that these seventy-five good and true Whigs will not ultimately work out the regeneration of even Edgecombe county? They started two years ago, with more than fifteen to one against them, and even now have reduced that odds to three to one. If this paragraph should fall under the eye of Mr. Woodbury, when he has pen and paper near him, he will oblige the public by making an estimate of what will be the Whig majority in the State at a similar rate of gain in the rest of the counties.

P. S. Since the above was in type the Norfolk Herald, of Monday, has been received by the steamboat Kentucky, which gives us the returns from Washington county—Two Whigs are elected to the Legislature, and the vote for Governor stands Dudly 362—Branch 25—At the Presidential election it was Whig 193—Van Buren 48.—[Balt. Chron.

We find the following card in the last Cambridge Chronicle. We are entirely unaware of the reasons which have induced Mr. Goldsborough to decline the nomination of his friends, but take it for granted that they are not of such a character as to prevent him from serving should he be nominated by the convention.—*Ib.*

Messrs. Editors—I observed that I have been announced in the Cambridge Chronicle as a candidate to represent Dorchester county in the next Senate of Maryland—I am much indebted to my friends in all parts of the county for their kind partiality to me, and tender to them my sincere thanks for the manner in which they have voluntarily offered me their support—But, sirs, circumstances have arisen which make it right and proper for me to withdraw from the canvass and I therefore beg leave respectfully to decline the nomination.

Very truly yours,
WILLIAM T. GOLDSBOROUGH.

The philosophers of New Haven, Connecticut, predict that there will be another shower of meteors on the night of the 9th inst.—

DORCHESTER COUNTY, Aug. 2nd, 1838.

The Agent of the "Maryland State Bible Society," for the Eastern Shore of Maryland, most respectfully informs the Citizens of Easton, that on Monday and Tuesday next he will wait on them *indiscriminately*, soliciting contributions.

The society has distributed (with the exception of a small part of Worcester county, yet to be supplied) the Scriptures to all the destitute families throughout the State.

By this distribution, the Society has become indebted to the American Bible Society of New York (of whom they obtained the Bibles and Testaments for distribution) in the sum of *nineteen hundred dollars.*

The Protestant Episcopal, Presbyterian, Methodist Episcopal and Methodist Protestant Churches unite in this Society—and we are looking to these Churches, as well as a generous public, to aid us in the liquidation of our debt.

The Agent has visited the villages of Snow Hill—Berlin—Princess Anne—Salisbury and Vienna, whose Citizens have liberally contributed. He expects to meet with the same encouragement at Cambridge—and Easton he hopes, will evince a similar philanthropic disposition.

WORCESTER COUNTY.—The Whigs of Worcester, have nominated the following ticket.

AND PUBLISHED BY

CHARLES ALEXANDER, Philadelphia.

The First Number of this highly important and Valuable Work, is now ready for delivery to subscribers. We beg leave respectfully to call the attention of our citizens to the praiseworthy objects it has in view, and for the promotion of which it has been put into operation.

There has not probably heretofore been a time when the attention of the people of this country was as much engaged on the subject of the Silk Culture as at present nor a time when those who have already embarked in this business felt such entire confidence, not only that liberal profits may be derived from it, but also in their ability to produce as good Silk as can be procured in any part of the world.—It is believed that all that is now wanting to fully establish this great interest in this country, with all its vast advantages, is but the dissemination of plain practical information concerning it; and to convince our citizens of what we know to be true, viz: that there is no more difficulty about raising a crop of silk, than there is in procuring a crop of grain. The capital thus bestowed yields a far greater return than can be obtained from any other branch of husbandry. The editors have long been engaged in the silk culture, and intend hereafter to give it their entire attention. They have made extensive arrangements for feeding the silk-worm, and cultivating that invaluable species of mulberry tree, the Morus Multicaulis. And, from their long experience in the occupation and extensive correspondence with silk growers, they believe they may say without ostentation, that they shall be able to make the AMERICAN SILK GROWER, useful and entertaining, and to communicate through its pages information as valuable respecting every branch of the silk business, as can be elsewhere obtained in the United States. A portion of the work will be devoted to noting the modern improvements of Agriculture, and such matters as are generally useful to the cultivators of the soil

The Proprietors respectfully solicit contributions on Agricultural subjects generally—and also the Silk Growing Business in particular. Address the Editors, WARD CHENEY, AND BROTHERS, Burlington, N. J

The work will be published monthly—every number comprising twenty-four large octavo pages, with the addition of a cover for advertisements, &c. and at the end of each volume a complete table of contents will be furnished to subscribers. Terms one dollar a year, payable in advance, for single subscribers. Twenty subscriptions will be supplied for a whole year by forwarding a current ten dollar bill, free of postage.

All orders for the work, postage paid, will be promptly attended to, if addressed to the Publisher, C. ALEXANDER, Athenian Buildings, Franklin Place, Philadelphia.

Citizens, Silk Growers, Agriculturalists, and others, who wish to procure this work from the present time will please forward their names and the amount of subscription immediately.

LIBERAL PREMIUM.

Any Agent forwarding 100 subscribers for one year, and a $50 current bank bill, will be entitled to TEN THOUSAND SILK WORM EGGS, SELECTED FROM THE MOST APPROVED VARIETIES—which can be forwarded by mail to any part of the United States, at a trifling expense, and which if properly attended to according to the instructions which are promulgated in the work, WILL YIELD A PROFIT CONSIDERABLY EXCEEDING THE AMOUNT OF THE PRICE OF SUBSCRIPTION FOR ONE HUNDRED COPIES.

☞ Editors of papers who are desirous of encouraging the Growth of Silk in this country, will please copy this advertisement a few times, and we will furnish them with an Exchange, and also occasional samples of the silk, which is manufactured at the editors' extensive establishment in Burlington, N. J.
