POETRY.

THE CHILD AT PRAYER,

'Twas summer's eve—the rosy light
Had faded from the sky,
And stars came twinkling pure and bright
Through the blue arch on high;
And the western breezes softly stole,
To kiss the weeping flower,
And nature wore her sweetest smile,
To bless the twilight hour.

There sat within a curtained room,
A mother young and fair—
What voice comes softly through the gloom?
'Tis childhood's voice in prayer!
A cherub boy is kneeling now,
Beside that mother's knee—
She who had taught him when to bow
Before the Deity.

A father on the distant deep,
A sister slumbering near,
A babe upon the mother's breast,
And that kind mother dear;
For every living thing he loves,
His pray'r ascends to heaven,
And for himself he humbly asks
Each sin may be forgiven.

And in after years, when grief
Shall bow his spirit down,
And the world, the cold and bitter world,
Shall meet him with a frown—
And when allured from virtue's path
He treads a dangerous way—
Oh! he will turn to the blest hour
When first he knelt to pray.

And the kind hand which then was laid
Upon his silken hair—
And the soft voice which taught him first
His simple words of prayer—
Will come again with thrilling power
To still his pulses wild
And lure him back in that dark hour
As sinless as a child.

The pray'r is o'er—the last fond kiss
By that kind mother given;
But rises not from scene like this
That childish prayer to heaven?
It does, it does—an angel's wing
Has borne its tone with joy,
And the earnest blessings which it sought
Comes on the sleeping boy.

Farmer's Bank of Maryland.

BRANCH BANK AT EASTON, July 24, 1838.

Notice is hereby given to the Stockholders in the institution, that an election will be held at the Banking house in Easton, on the first Monday of August next between the hours of 10 o'clock, A. M. and 3 o'clock, P. M. for the purpose of choosing from among the Stockholders, eleven Directors, for the Branch Bank for the ensuing year, agreeable to the charter,

By order,
JOHN GOLDSBOROUGH, Cashier.
July 28, 1838.

TO BE RENTED

For one or more years, that large and commodious

Brick Tavern.

And its appurtenances, well known by the name of the

EASTON HOTEL.

situate in the town of Easton, on the Eastern Shore of Maryland, at present occupied by William H. Curtis. This establishment is universally admitted to be the largest and most convenient for a Public House, of any on the Peninsula, and to a man well calculated to conduct it, an opportunity will be offered for doing a very extensive and profitable business, more especially if he has a sufficient capital to carry it on advantageously

Easton is known as a town of considerable trade, and the Steam Boat Maryland, which plies twice a week between Baltimore, Annapolis, and this place considerably increases the business, and of course adds very much to the value of this establishment, by the constant intercourse of travellers from the different counties on the Western and Eastern Shores and elsewhere with these places.

Possession will be given on the first day of January next. Persons wishing to rent are invited to come and view the premises. The terms which will be moderate, will be made known by application to the subscriber.

MR. AND MRS. HAMILTON'S

Boarding and Day School for Young Ladies,
Corner of Courtland and Saratoga Streets
Baltimore.

Will be reopened on Monday the 4th September next. This institution having received extensive improvements and additions, the Principals feel a confidence in saying, they believe it to be now superior to any similar establishment ever offered to public patronage both in the Day School and Boarding departments.

A prospectus of the school may be obtained by addressing (post paid) William Hamilton Baltimore.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of

The British College of
HEALTH, LONDON.

Manufactured in this country in their original purity by H. SHEPHEARD MOAT eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the Liver, Yellow Fever, Gout, Rheumatism, Lumbago, Tic Doloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy, Paralysis, Palsy, Green Sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; Small Pox, Measels, Whooping Cough, Scarlet Fever, Asthma, Jaundice, Gravel, Stone, and all Urinary Obstructions, Fistula, Piles, Structures, Ruptures, and Syphilies in all its stages; Constipated Bowels, Worms, Scurvy, Itching of the Skin, Kings Evil and all Cutaneous Disorders; in short, every Complaint to which the human frame is so direfully subject, under all their varied forms and names, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE, that is, in the IMPURITY OF THE BLOOD, from which springs every Complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its vicious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man, and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain, exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different, from their accustomed habits.

These Pills cure in all cases, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild Medicine, which conveys immediate conviction of its utility, from the first dose is as beneficial to the mind as the body; first calming then curing all Mental derangements, Eccentricities, Nervous Affections, Irritability and Restlessness, from whatever source; complaints which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind, discovered a cheap and universal mode of purifying, curing, and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The litesary and sedentary of both sexes, whose pursuit so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No 1, and No 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No 2 Pills carry off those and the serious acid and putrid humors, incidental to the body; and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimoni phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The Powder in boxes 37½ cents.

CAUTION—Medicines of such great virtue as these, have been, and will be most certainly counterfeited.—To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:
Morrisonian, 2 vols. 8vo—price $2.75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37½ cents. And just published.
The Mother's Book of Hygeian Midwifery, by H. Shepheard Moat, of New York.

☞ Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No 8½ SOUTH SEVENTH STREET, three doors below Market street Philadelphia—and at No 10 North street Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.

MARL FOR SALE.

The subscriber having made arrangements for disposing of the valuable shell marl, which exists on his estate in Talbot County, in forms the Agricultural community, that he is now ready to deliver, of the above article, any quantity that may be required, by giving him timely notice.

The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertalizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposite it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl.—Those wishing to purchase will please address William B. Smyth, Easton, Md. Vessels going for it will pass up the Great Choptank until the Dover Bridge appears in sight—they will then come to Barker's landing where they will find the lands of the undersigned on the west bank of the river.

WILLIAM B. SMYTH.

April 7, 1838.

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

'But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceeding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr. Atkinson. These beds are in contiguous strata, apparently successive and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop, and uppermost principally of scollop. Endeavor was made to bring these beds into notice, with a view of enlisting them into public service, by giving to their proprietors what was deemed proper directions for extracting the materials, and salutary advice as to a just estimate of its value, in order to secure a constant and permanent disposal of it. The subject is now in progress of experiment. South of these banks on the Choptank, no other deposite of marl is known to occur.'

The Cambridge Chronicle, Centreville Times, Kent Bugle, and Delaware Journal will copy the above, 3 times and send their accounts to this office for collection.

NOTICE.

The subscriber again takes the opportunity of announcing to the public that he still carries on the

A NEW AND IMPROVED

PORTABLE HORSE POWER,
AND THRESHING MACHINE.

Having obtained Letters Patent, bearing date Feb. 6th, 1838, for an improvement of a PORTABLE HORSE POWER, for propelling Threshing Machines, Clover Mill Small Grist Mills, &c.

The subscriber takes this method of informing the public, that he will be prepared to supply all ordets at the shortest notice. The superiority over other machines, consist in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse Power and Thresher, the bearings been surrounded with oil cups, which retain oil sufficient for one day; without replenishing, supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect, and hazardous to those who may superintend them, consequently produced by applying oil, during the operation or from a neglect of its mechanical construction. The vertical and horizontal bearings are supplied with oil by nutrition and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery. The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain, it also answers the purpose of cleansing clover seed, and with my late improvement is far superior to my former machines.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase, will call and examine for themselves. The subscriber has constantly on hand the above described machines, at his manufactory, north of Brandywine village, Del. where orders will be received and the machines sent to any part of the neighboring states. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Delaware, Chester and Lancaster, Pa.; New Castle, Kent, and Sussex, Del.; and Cecil, Kent and Harford, Md.; Salem, Cumberland, Gloucester, and Burlington, N. J., where these machines have been justly celebrated and given entire satisfaction.

Notice.

The Subscriber will sell at Private Sale, all his real estate in Talbot County; Md. consisting of one farm handsomely situate on Bullingbrook Creek, upon which Risdon Fountain now lives,—Fish, Oysters, and Wild Ducks, and all other luxuries that the salt water affords are to be had—there are one other luxury superior yet, (that of health.) Also the farm upon which *Henry* Harrison now lives, situate on the main road leading to Dover Bridge, and contiguous to two good Grist Mills, and one Saw Mill, all within one mile of a body of heavy Oak timber. Also the farm in Tuckahoe Neck, upon which John Smith now lives, lying immediately on the Choptank River, and bounded on the west by Turkey Creek with endless beds of first rate shell marl, as well as an inexhaustable body of choice *Hickory* and Oak Timber, convenient to the River navigation, he deems it unnecessary to say anything more of the intrinsic value of these farms on account of their location and soils, as persons will doubtless view the property before purchasing. Terms made known upon application to the subscriber, at Easton, who will remain but a few weeks or to Samuel Mackey, at Easton.
