ture of $20,000,000 been unnecessary? Were not representations made to those two high functionaries, by inhabitants of Florida, and by their delegate in Congress of the defenceless situation of that country, and of the hostile feelings of the Indians? If troops had been sent there, when they requested that they might be sent, would not all the blood that has been shed, all the hardships that have been undergone, all the care and anxiety that have been suffered, all the property that has been devastated, and all the money that has been expended, been spared and saved? Would not much valuable time have been saved, if the intrigue of Gen. Jessup, with F. P. Blair, had not been successful in displacing Gen. Scott, whose plan of operations, notwithstanding the complaints urged against it by Gen. Jessup, was finally found to be the only practicable system of warfare in that country? Would not the expenses incurred by the removal and trial of Gen. Scott been avoided, if political motives had not guided the prime mover in the affair? Has not the mal-management of the former and present administrations been the primary and sole cause of the resignation of the most valuable officers in the army; they looking upon the administrators of the laws with disgust, and fearing, lest their reputation, like that of Gen. Scott, would be jeopardized at the nod of any whipper-in of the party who would and could be impelled by motives equally dishonorable as those of Gen. Jessup or F. P. Blair? Has not an increased expenditure of public money been the necessary consequence of these resignations? Answers to these questions are respectfully solicited from any candid Van Buren man. From such a one, nothing will be elicited but what can be supported by truth. There will be no equivocations, no evasions, no false statements, but every sentence will bear evidence on its face that truth is the object aimed at. That such a one may undertake an inquiry into the documents relating to the subject now brought forward, is the sincere desire of one who wishes the truth made known, that the people may judge how far professions that are admirable and worthy of every persons's approval are supported by the test of principles and practice. That a wide discrepancy will be found to exist, is an undoubted fact, and that such a difference will have its just effect, of displacing from their high places, those who have manifested such an utter disregard of former principle, and whose acts and practices, are found at entire variance with the people's expectations, wishes and will, is the hope, built upon the late unparalleled triumphs of the Whig cause, of

ONE OF THE PEOPLE.

We have heretofore expressed the opinion that the governor of Maryland, not having any legislative power, can exercise no influence on the question of reform. The present Reform was effected by two successive Whig Legislatures. The Van Buren party boasts of having originated the Reform in the new constitution, and claim Mr. Grason as an unwavering friend of the Reform in the constitution.

We have before us the journal of proceedings of the house of Delegates in 1829, at which time Mr. Grason was the unflinching enemy of all reform.

A proposition was made in the House of Delegates to elect a Governor by the people every three years—the resolution was rejected—Mr. Grason voting against the proprosition. [Jour. H. of Del. Feb. 16, 1829, page 438.]

A proposition was made to have Registers of Wills and Clerks of Courts elected every seven years—precisely like the present Reform Bill—Mr. Grason voted in the negative. [Same Journal, page 413.]

So then it appears that Mr. Grason has only recently adopted his ultra reform notions. It is a little curious to look at the votes in relation to giving the election of Governor to the people. More than two-thirds of the Jackson party of that day voted against such a proposition!!!!!!!!!!!!—*Balt. Whig.*

The Van Buren young men of Oswego county have had a solemn meeting and resolved that Mr. Nicholas Biddle is 'no gentleman.' He will, therefore, please to consider himself in that category—these Oswego youths being, of course, first rate judges of the 'article.'—They breed monstrous great cheeses in that county, and by analogy there must be a great crop of (Loco foco) gentlemen growing upon that ground. It doesn't take much manure to cultivate a rank growth of Henbane.—[N. Y. Gaz.

MR. Sully, of Philadelphia—as all the world knows—has painted a portrait of Queen Victoria. The most remarkable fact is that the Philadelphians have not yet extorted a pun out of this circumstance. We have been expecting for a long time to hear some of them say that the Queen must have a dirty face since it was *sullied*.

☞ The above unkind cut is from the Boston Transcript, whose Editor is the most noted punster of the Tribe. We did indeed think about the Queen's face being *sullied*—but we recollected that it would, under any circumstance, be made to look well, when it was *painted*!

COUNTERFEIT NOTES.

The public are cautioned by Mr. Bicknell against receiving spurious notes purporting to be on the Harrisburg Bank, Pa., of the denomination of Ten Dollars, a large number of which were successfully passed in this city on Friday morning. They are signed H. Walters, Cashier, and Thos. Elder, President. Paper thin and flimsy. The vignette of the spurious notes is that of a steamboat, rail road cars, &c. The genuine ten dollar notes on this Bank have a vignette of the Goddess of Liberty, and a distant view of the capital of the State. By noticing this fact the counterfeits can readily be detected.—*Phil. Nat. Gaz.*

EASTON GAZETTE.

EASTON, (MD.)

SATURDAY MORNING, AUGUST 18, 1838.

WHIG NOMINATION,

For Governor of the State of Maryland.

JOHN N. STEELE,

OF DORCHESTER COUNTY.

Election to be held on Wednesday, the 3d day of October.

To Correspondents.—Communications received this week cannot be attended to, as the Editor is absent.

WHIGS ATTEND!

You are aware that the elections to take place on the first Wednesday of October next, being the third day of the month, will be full of importance to the Whig cause, that is to say the cause of our beloved country—When an appeal is made to love of country, every Whig, if he be true to his own name, and the sacred principles which that name imports, will be always prompt to perform the duty which that love of country assigns him.

With a view to give ample time to reflect upon proper candidates to be presented to the consideration of the people of Talbot county, the old back-bone of Whig principles, as their fathers of the Revolution were, we respectfully recommend that Saturday the twenty-fifth day of August, be the day on which our fellow citizens meet in each election district at the usual places of holding elections at 3 o'clock P. M. precisely, to appoint from each district five delegates to meet in general committee in Easton, at 12 o'clock M. on the following Tuesday being the 28th day of August to nominate and recommend to the citizens of Talbot, a candidate for the Senate of Maryland, and three delegates to the General Assembly of Maryland.

We hope that every Whig and every true friend of his country, will bear this notice in mind to communicate to our friends the importance we ascribe to these elections we shall weekly renew this publication—We flatter ourselves that even without this every whig of Talbot, is prepared to do his duty, and anxious for the tide to come when he may evince his patriotism—We have every inducement to press forward in the discharge of the high and holy duty which our much injured and bleeding country requires at our hands—Whigs be ye ready one and all, to come forth on Saturday in your election districts, the day above mentioned, and send your delegates on the succeeding Tuesday that we of Talbot, may have some honour in the rescue of our country—We say again Whigs attend.

In the above call on the Whigs of Talbot, we have omitted to state, that the term of service of the Commissioner of District No. 4. will expire this fall and that it therefore will be necessary to nominate a candidate for the place, at the time, and in the mode above stated.—Our apology for this omission is, that until recently, we were wholly unapprized of this circumstance.

NORTH CAROLINA ELECTION.—We have accounts of the vote for Governor, from 23 counties of North Carolina—they give an aggregate majority of 8 572 for Dudley, the whig candidate. This is rather more than double the majority obtained by Governor D. at the last election, and it will be yet farther increased by the returns yet to come in.

For members of the Legislature, the National Intelligencer of this morning says, "we have returns from 35 counties, giving the following aggregates: Whigs elected, 61: Administration, 37: being, so far, a Whig gain of seven.

VIRGINIA SPECIAL ELECTION.—In consequence of the acceptance of a challenge from Mr. Segar, the delegate elect—W. L. Savage—from Northampton county resigned his seat, and on Monday last the election of his successor took place, and resulted as follows:

G. T. Yerby, (Whig)	166
S. Nottingham, (Loco Foco)	81
Maj.	85

It is said that Nottingham's vote was much larger than it would have been, except for his extensive family connection and great personal popularity.

Our attention has been called to the account of the proceedings of the Whig committees of Queen Ann's county published in the Centreville Times of the 7th inst. at which time the nomination of the Senator, &c. took place. From reading the proceedings it would appear that Maj. Thos. Wright and Jno. Brewn, Esq. were both put in nomination at the same moment as candidates for Senator. This is not so. When Maj. Wright's name was offered to the meeting Mr. Thomas C. Browne rose and stated that Major Wright COULD NOT SERVE as Senator. After which Mr. John Brown was brought before the committee and unanimously nominated.

Had Mr. Brown's name been mentioned before the determination of Major Wright not to serve was made known, it was the instruction of one of the committee from Mr. Brown's district to withdraw it, as Mr. Brown WOULD NOT permit his name to be put in nomination provided Major Wright would consent to serve as the Senator from Queen Ann's county.—*Centreville Times.*

The Whig Convention of Cecil county, nominated on the 15th inst. the following highly respectable ticket:

FOR SENATE.
Dr. CHARLES W. PARKER.
FOR HOUSE OF DELEGATES,
JAMES FORD,
JOHNSON SIMPERS,
JAMES LEIPER MAXWELL.

The Norfolk Herald of Wednesday says: 'Incredible as it may seem, we can vouch for the fact, that the Exploring Squadron is ready for sea, and will depart with the first fair wind—to-day, if it should offer.'

THE RESUMPTION.—All the Banks in Maryland yesterday resumed the payment of their obligations in specie. The demand for coin upon those in the city, was so trifling as to deserve no notice, and fully evinces the perfect confidence of the whole community in their solvency and soundness. There are now within the borders of Maryland no paper issues that are not redeemible, except those of the Government of the United States. *Balt. Chron.*

RESUMPTION IN GEORGIA.—The Banks of Savannah, at a meeting on the 26th inst., resolved to resume specie payments on the first of October next. The Savannah Georgian states that they would have resumed instantly, but that it was deemed an act of courtesy, and sheer justice, to give timely notice to the Banks in the interior, of their contemplated movements.

Some individual, said to be named Albro, of Buffalo, lately forged a circumstantial account of the death of Henry Clay, who was said to have died on his way home from Washington, by drinking immoderately of cold water, at some place where the stage stopped.—There was of course, no foundation for the malicious fiction, and we have only to say of it, that no substantial injustice would be done in the premises, if this Albro were to receive the punishment of a real murderer, and take a turn upon the gallows. He murdered a man constructively, and employed forgery in the process. He ought at least to be hanged for a little while, and expiate the balance of his offence in the cells of the penitentiary.

The Corn crop in the lower counties of the Western Shore of Maryland is said to be promising, the rains there having been quite abundant.

DEPARTURE OF THE ROYAL WILLIAM.

The steamship Royal William went off in fine style on Saturday afternoon, a great crowd witnessing her departure She has probably taken out more letters than any vessel preceding her. Form the Merchant's Exchange Reading Room alone, upwards of two thousand letters, in addition to a large number of papers and packages were taken. The postage must have amounted to fifteen or sixteen hundred dollars. The Royal William takes out 33 cabin passengers.—[N. Y. Cour. & Enq. of Aug. 6.

EXCEEDINGLY NEAT.—There was a specimen of the ready politeness of Frenchmen, on board the Hercules during the recent *fete*, while that ship lay at Newport, which is worth recording.

One of the American guests gave as a toast—'The three days of July,' referring, of course, to the revolution which placed Louis Philipe on the throne. An officer of the ship immediately gave—'AND THE FOURTH!' A happier instance of impromptu politeness never occurred.—

GO TO CHURCH.—There is no one thing which helps to establish a man's character & standing in society more than a steady attendance at church, & a proper regard for the first day of the week. Every head of a family should go to church as an example to its members, and every branch of a family should go to church in imitation of the example of parents who have loved them and watched over their best interests. Lounging in streets and bar-rooms on the Sabbath is abominable, and deserves censure, because, it lays the foundation of habits which ruin one, body and soul. Many a young man can date the commencement of a course of dissipation which made him a burden to himself and friends, and an object of pity in the sight of his enemies, to his Sunday debauchery. Idleness is the mother of drunkenness—the Sabbath is to young people generally an idle day, therefore, if it be not properly kept, it were better struck out of existence.

SINGULAR COINCIDENCE.—The schooner Martin Van Buren, sailed yesterday for Folly Landing. How singular that the real Martin Van Buren, of Washington, should have already arrived at the same port.—*N. Y. Times.*

On Thursday, the 9th inst. in the 45th year of her age, Mrs. MARY, consort of Capt. Richard Kenny, after a long and painful illness. For many months previous to her decease, during which her sufferings were unremitted, and of an intensity almost beyond description, she manifested a fortitude and a meekness commensurate with the severity of her trials, and met her last struggles as a Christian ought—without a murmur or a fear. Deservedly esteemed for her many good qualities, and rarely surpassed in the discharge of every social and domestic duty, it is needless to say, that to her bereaved husband and family of young children, her loss must be irreparable.

EDITED BY

AND PUBLISHED BY

CHARLES ALEXANDER, Philadelphia.

The First Number of this highly important and Valuable Work, is now ready for delivery to subscribers. We beg leave respectfully to call the attention of our citizens to the praiseworthy objects it has in view, and for the promotion of which it has been put into operation.

There has not probably heretofore been a time when the attention of the people of this country was as much engaged on the subject of the Silk Culture as at present nor a time when those who have already embarked in this business felt such entire confidence, not only that liberal profits may be derived from it, but also in their ability to produce as good Silk as can be procured in any part of the world.—It is believed that all that is now wanting to fully establish this great interest in this country, with all its vast advantages, is but the dissemination of plain practical information concerning it; and to convince our citizens of what we know to be true, viz: that there is no more difficulty about raising a crop of silk, than there is in procuring a crop of grain. The capital thus bestowed yields a far greater return than can be obtained from any other branch of husbandry. The editors have long been engaged in the silk culture, and intend hereafter to give it their entire attention. They have made extensive arrangements for feeding the silk worm, and cultivating that invaluable species of mulberry tree, the Morus Multicaulis. And, from their long experience in the occupation and extensive correspondence with silk growers, they believe they may say without ostentation, that they shall be able to make the AMERICAN SILK GROWER, useful and entertaining, and to communicate through its pages information as valuable respecting every branch of the silk business, as can be elsewhere obtained in the United States. A portion of the work will be devoted to noting the modern improvements of Agriculture, and such matters as are generally useful to the cultivators of the soil.

The Proprietors respectfully solicit contributions on Agricultural subjects generally—and also the Silk Growing Business in particular. Address the Editors, WARD CHENEY, AND BROTHERS, Burlington, N. J

The work will be published monthly—every number comprising twenty-four large octavo pages, with the addition of a cover for advertisements, &c. and at the end of each volume, a complete table of contents will be furnished to subscribers. Terms one dollar a year, payable in advance, for single subscribers. Twenty subscriptions will be supplied for a whole year by forwarding a current ten dollar bill, free of postage.

All orders for the work, postage paid, will be promptly attended to, if addressed to the Publisher, C. ALEXANDER, Athenian Buildings, Franklin Place, Philadelphia.

Citizens, Silk Growers, Agriculturalists, and others, who wish to procure this work from the present time will please forward their names and the amount of subscription immediately.

LIBERAL PREMIUM.

Any Agent forwarding 100 subscribers for one year, and a $50 current bank bill, will be entitled to TEN THOUSAND SILK WORM EGGS, SELECTED FROM THE MOST APPROVED VARIETIES—which can be forwarded by mail to any part of the United States at a trifling expense, and which if properly attended to, according to the instructions which are promulgated in the work, WILL YIELD A PROFIT CONSIDERABLY EXCEEDING THE AMOUNT OF THE PRICE OF SUBSCRIPTION FOR ONE HUNDRED COCOES.

☞ Editors of papers who are desirous of encouraging the Growth of Silk in this country, will please copy this advertisement a few times, and we will furnish them with an Exchange, and also occasional samples of the silk, which is manufactured at the editors' request at establishment in Burlington, N. J.
