POETRY.

LEAVES AND FLOWERS SHOULD FADE.

The skies of Autumn wear a deeper blue,
The moon and stars pour down a purer light,
And lo! the magic frost, in one brief night,
Hath robed the forest in a brighter hue.
Go where the mellow sunshine softly plays,
And there by plain or hill or side, thou shalt hear
Sounds sweeter far than charm'd thy list-'ning ear
When songs of birds beguiled the summer days—
Sweet sounds but sad—the low and murmuring wail
Of autumn winds, that sigh among the trees.
Telling, of Death, a wild and mournful tale.
And forcing solemn Thought on minds at ease.
O! if our hearts may thus be wiser made,
'Twere well that leaves should fall, and flowers should fade!

SNATCHES OF SONG.

BY MRS. C. BARON WILSON.

Sighs are unavailing,
Tears are also vain;
Lovers, unlike drooping flowers,
Are not restor'd by rain:
Maiden! leave the fickle youth!
Grief will not bring back his truth!

Words are idle breathing!
Could reproaches cure,
Never men would faithless be,
Never maids endure;
Woo not then the fickle youth,
Coldness may restore his truth!

IMPORTANT TO

FARMERS.

A NEW AND IMPROVED

PORTABLE HORSE POWER,

AND THRESHING MACHINE.

Having obtained Letters Patent, bearing date Feb. 6th, 1838, for an improvement of a PORTABLE HORSE POWER, for propelling Threshing Machines, Clover Mill Small Grist Mills, &c.

The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consist in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse-Power and Thresher the bearings been surrounded with oil cups, which retain oil sufficient for one day; with ou replenishing, supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect, and hazardous to those who may superintend them, consequently produced by applying oil, during the operation or from a neglect of its mechanical construction. The vertical and horizontal bearings are supplied with oil by nutrition and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery. The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain, it also answers the purpose of cleansing clover seed, and with my late improvement is far superior to my former machines.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase, will call and examine for themselves. The subscriber has constantly on hand the above described machines, at his manufactory north of Brandywine village, Del. where orders will be received and the machines sent to any part of the neighboring states. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Delaware, Chester and Lancaster, Pa; New Castle, Kent, and Sussex, Del.; and Cecil, Kent and Harford, Md; Salem, Cumberland, Gloucester, and Burlington, N. J., where these machines have been justly celebrated and given entire satisfaction.

MARL FOR SALE.

The subscriber having made arrangements for disposing of the valuable shell marl, which exists on his estate in Talbot County, informs the Agricultural community, that he is now ready to deliver, of the above article, any quantity that may be required, by giving him timely notice.

The Marl may be taken from the banks at the price of one cent per bushel cash.

The fertalizing properties of calcareous marl are now so well known, that it is unnecessary to advert to the subject—in reference to this deposite it may be stated that it consists of Sea shells, with very little admixture of earth, and contains from 2 to 4 times the quantity of lime that is contained in the best English Marl.—Those wishing to purchase will please address William B. Smyth, Easton, Md Vessels going for it will pass up the Great Chopiank until the Dover Bridge appears in sight—they will then come to Barker's landing where they will find the lands of the undersigned on the west bank of the river.

WILLIAM B. SMYTH.

April 7, 1838.

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

'But perhaps the most valuable beds of shell marl in this part of Talbot county, inasmuch as they may be made extensively available to the public demands for the article, are those which were fully described in the preceeding report. They occur three miles below Dover bridge, forming the high bank from fifteen to twenty feet above tide, being one compact mass of fossil shells, and extending nearly a mile along the river, on the farms of the late Col. Smyth and Mr. Atkinson. These beds are in contiguous strata, apparently successive and consist of vast accumulations principally, in the ascending order, of oyster shells succeeded by clam shells intermixed with other marine shells, scollop, clam and scollop, and uppermost principally of scollop. Endeavor was made to bring these beds into notice, with a view of enlisting them into public service, by giving to their proprietors what was deemed proper directions for extracting the materials, and salutary advice as to a just estimate of its value in order to secure a constant and permanent disposal of it. The subject is now in progress of experiment. South of these banks on the Choptank, no other deposite of marl is known to occur.'

The Cambridge Chronicle, Centreville Times, Kent Bugle, and Delaware Journal will copy the above, 3 times and send their accounts to this office for collection.

EDITED BY

WARD CHENEY & BROTHERS, Burlington. N. J.

AND PUBLISHED BY

CHARLES ALEXANDER, Philadelphia

The First Number of this highly important and Valuable Work, is now ready for delivery to subscribers. We beg leave respectfully to call the attention of our citizens to the praiseworthy objects it has in view, and for the promotion of which it has been put into operation.

There has not probably heretofore been a time when the attention of the people of this country was as much engaged on the subject of the Silk Culture as at present nor a time when those who have already embarked in this business felt such entire confidence, not only that liberal profits may be derived from it, but also in their ability to produce as good Silk as can be procured in any part of the world.—It is believed that all that is now wanting to fully establish this great interest in this country, with all its vast advantages, is but the dissemination of plain practical information concerning it; and to convince our citizens of what we know to be true, viz that there is no more difficulty about raising a crop of silk, than there is in procuring a crop of grain. The capital thus bestowed yields a far greater return than can be obtained from any other branch of husbandry. The editors have long been engaged in the silk culture, and intend hereafter to give it their entire attention. They have made extensive arrangements for feeding the silk-worm, and cultivating that invaluable species of mulberry tree, the Morus Multicaulis. And, from their long experience in the occupation and extensive correspondence with silk growers, they believe they may say without ostentation, that they shall be able to make the AMERICAN SILK-GROWER, useful and entertaining, and to communicate through its pages information as valuable respecting every branch of the silk business, as can be elsewhere obtained in the United States. A portion of the work will be devoted to noting the modern improvements of Agriculture, and such matters as are generally useful to the cultivators of the soil.

The Proprietors respectfully solicit contributions on Agricultural subjects generally—and also the Silk Growing Business in particular. Address the Editors, WARD CHENEY, AND BROTHERS, Burlington. N. J.

The work will be published monthly—every number comprising twenty-four large octavo pages, with the additton of a cover for advertisements, &c. and at the end of each volume, a complete table of contents will be furnished to subscribers. Terms one dollar a year, payable in advance, for single subscribers. Twenty subscriptions will be supplied for a whole year by forwarding a current ten dollar bill, free of postage.

All orders for the work, postage paid, will be promptly attended to, if addressed to the Publisher, C. ALEXANDER, Athenian Buildings, Franklin Place, Philadelphia.

Citizens, Silk Growers, Agriculturalists, and others, who wish to procure this work from the present time will please forward their names and the amount of subscription immediately.

LIBERAL PREMIUM.

Any Agent forwarding 100 subscribers for one year, and a $50 current bank bill, will be entitled to TEN THOUSAND SILK WORM EGGS, SELECTED FROM THE MOST APPROVED VARIETIES—which can be forwarded by mail to any part of the United States at a trifling expense, and which if properly attended to, according to the instructions which are promulgated in the work, WILL YIELD A PROFIT CONSIDERABLY EXCEEDING THE AMOUNT OF THE PRICE OF SUBSCRIPTION FOR ONE HUNDRED COCOONS.

☞ Editors of papers who are desirous of encouraging the Growth of Silk in this country, will please copy this advertisement a few times, and we will furnish them with an Exchange, and also occasional samples of the silk, which is manufactured at the editors' extensive establishment in Burlington, N. J.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of

The British College of

HEALTH, LONDON.

Manufactured in this country in their original purity by H. SHEPHEARD MOAT eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the Liver, Yellow Fever, Gout Rheumatism, Lumbago, Tic Doloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy, Paralysis, Palsy, Green Sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; Small Pox, Measels, Whooping Cough, Scarlet Fever, Asthma, Jaundice, Gravel, Stone, and all Urinary Obstructions, Fistula, Piles, Structures, Ruptures, and Syphilies in all its stages; Constipated Bowels, Worms, Scurvy, Itching of the Skin, Kings Evil and all Cutaneous Disorders; in short, every Complaint to which the human frame is so direfully subject, under all their varied forms and names, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE that is, in the IMPURITY OF THE BLOOD, from which springs every Complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its vicious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different, from their accustomed habits.

These Pills cure in all cases, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c

The operation of this mild Medicine, which conveys immediate conviction of its utility, from the first dose is as beneficial to the mind as the body; first calming then curing all Mental derangements, Eccentricities, Nervous Affections, Irritability and Restlessness, from whatever source; complaints which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind, discovered a cheap and universal mode of purifying, curing, and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuit so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No 1, and No 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No 2 Pils carry off those and the serious acid and putrid humors, incidental to the body; and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimoni phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The Powder in boxes 37½ cents.

CAUTION—Medicines of such great virtue as these, have been, and will be most certainly counterfeited.—To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morrisonian, 2 vols 8vo—price $2,75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37½ cents. And just published.
The Mother's Book of Hygeian Midwifery, A. Shepheard Moat, of New York.

☞ Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No 3½ SOUTH SEVENTH STREET, three doors below Market street Philadelphia—and at No 10 North street Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.
