POETRY.

SONGS.

By Charles Dickins, author of the 'Pickwick Papers.'

Hail to the merry autumn days, when yellow cornfields shine,
Far brighter than the costly cup that holds the monarch's wine!
Hail to the merry harvest-time, the gayest of the year,
The time of rich and bounteous crops rejoicing, and good cheer!

'Tis pleasant, on a fine spring morn, to see the buds expand;
'Tis pleasant, in the summer time, to view the teeming land;
'Tis pleasant, on a winter's night, to crouch around the blaze;
But what are joys like these, my boys, to merry autumn days!
Then hail to merry autumn days, when yellow cornfields shine,
Far brighter than the costly cup that holds the monarch's wine!
And hail to merry harvest-time, the gayest in the year,
The time of rich and bounteous crops, rejoicing and good cheer!

II.

Autumn leaves, autumn leaves, lie strewn around me here;
Autumn leaves, autumn leaves, how sad, how cold, how drear!
How like the hopes of childhood's day,
Thick clustering on the bough!
How like those hopes is their decay!
How faded are they now!
Autumn leaves, autumn leaves, lie strewn around me here;
Autumn leaves, autumn leaves, how sad, how cold, how drear!

Withered leaves, withered leaves, that fly before the gale;
Withered leaves, withered leaves, ye tell a mournful tale
Of love once true, and friends once kind,
And happy moments fled:
Dispersed by every breath of wind,
Forgotten, changed, or dead!
Autumn leaves, autumn leaves, lie strewn around me here:
Autumn leaves, autumn leaves, how sad, how cold, how drear!

$100 REWARD.

Ranaway from the subscriber, on Sunday night last, the 5th ult, a negro man named

John Shadden,

very black, about 27 years of age, 5 feet 4 or 5 inches high, stout and well made; has rather a down look when spoken to, but very humble and submissive; has a scar on his face near the temple, but not recollected on which side; also a scar on the chin, occasioned by the cut of a knife. The said negro is a good laboring hand on a farm, and is partially acquainted with the shoemaking business. The clothing taken off by him were two pair of new tow-linen trousers, with cotton warp, and two shirts of the same kind; a pair of cross-barred cassinet pantaloons, a blue cloth round jacket, a pair of white janes pantaloons, a round jacket of red and white twilled cotton, two muslin shirts, and two pair of old kirsey trousers, dyed purple, a fur hat not much worn, with some other clothing not recollected. It is supposed a small black woman, his wife, and the property of Mrs. Sarah Lee, has gone off in company with him, and it is believed they have made their way to Pennsylvania or Jersey.

The above reward will be given if said negro be apprehended out of the State, and lodged in some Jail so that I get him again, or fifty dollars, if taken in the State and brought home.

IMPORTANT TO

FARMERS.

A NEW AND IMPROVED

PORTABLE HORSE POWER,

AND THRESHING MACHINE.

Having obtained Letters Patent, bearing date Feb. 6th, 1838, for an improvement of a PORTABLE HORSE POWER, for propelling Threshing Machines, Clover Mill Small Grist Mills, &c.

The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consist in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse-Power and Thresher the bearings been surrounded with oil cups, which retain oil sufficient for one day; with an replenishing supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect, and hazardous to those who may superintend them, consequently produced by applying oil, during the operation or from a neglect of its mechanical construction. The vertical and horizontal bearings are supplied with oil by nutrition and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery. The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain, it also answers the purpose of cleansing clover seed, and with my late improvement is far superior to my former machines.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase, will call and examine for themselves. The subscriber has constantly on hand the above described machines, at his manufactory north of Brandywine village, Del. where orders will be received and the machines sen to any part of the neighboring states. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Delaware, Chester and Lancaster, Pa.; New Castle, Kent and Sussex, Del.; and Cecil, Kent and Harford, Md; Salem, Cumberland, Gloucester, and Burlington, N. J., where these machines have been justly celebrated and given entire satisfaction.

☞The following Prospectus for publishing a political & literary periodical is earnestly recommended to the consideration of the friends of the Whig cause and the lovers of literature. The utility of such a work at this time is fully set forth in the prospectus, and will be readily perceived by the friends to the cause. We would furthermore inform out friends that we are assisted in our arduous undertaking by several of the most eminent literary and also political writers of which this country can boast, who have pledged themselves to spare no pains to render this work of great interest, and exceeding value to the public, as a literary work of high character, and a political work of sound principles.—☜

PROSPECTUS

OF THE

National Magazine,

AND

REPUBLICAN REVIEW.

THE NATIONAL MAGAZINE AND REPUBLICAN REVIEW will be published in the City of Washington, District of Columbia, on the 1st day of January next, and delivered monthly in all parts of the United States, devoted exclusively to the advancement of the great principles of the Whig party, & the the encouragement of literature and science.

The experience of the past year has confirmed in the minds of the more reflecting and sagacious of the Whig party that a *vacuum* exists in the periodical press of the country, in which should be combined the productions of our great statesmen on literary and scientific subjects, and those of the eminent literary geniuses of which the United States can boast so ample a share on the various subjects that presents themselves to a sound and vigorous intellect.

It cannot be doubted that the present crisis demands the publication of a work calculated to infuse and circulate true and honest political information, and counteract the direful influence exerted by a monthly periodical of a similar nature published in this city, under the auspices, and bearing the name of the so styled Democracy of the present day, advocating measures which if successful, are destined to moulder to ruins the fabric of our noble Constitution, by placing constructions on it to suit the caprice and advance the reachings of a corrup a ability.

The union of such principles with a general literature as have insulted common sense and honesty of the country by proclaiming the 'Martyrdom of Cilly,' rendered in a manner more detestable from the insidious way in which they are combined, tend directly to the disorganization of all that, as Americans, should be held most sacred. This combination is calculated to secure them a circulation in quarters to which they might not otherwise penetrate as well as from a certain deceptive air of high-toned philantrophy, and expansive liberality of views with which they are artfully able to invest themselves, for the purpose of stealing their way into the heads, through the unsuspecting hearts of that class on which depends the destiny and hopes of the nation—its young men—Whilst the more experienced sagacity of older heads can never hesitate a moment in recognizing the real naked deformity of these principles of Modern Radicalism, under all the fair seeming disguises they may assume, yet to the young they are replete with a subtle danger of the most pernicious character.

The National Magazine and Republican Review is designed, and will be conducted with those and other high important considerations in view, calculated to correct misconstructions, and inculcate the correct political principles on which are based the views and practice of the great Republican Whig party, as well as for the encouragement & maintenance of genuine polite literature. The publishers will neither spare expense in the mechanical department of the work, nor their utmost efforts to render the Review useful to the public in a literary point of view, and honorable to the country and cause which it is destined to espouse as a National work.

The period is fast arriving when the country will emerge from the dominion of a party that has come into power under the corrupt influence of a misled popular prejudice, and which is advocated and sailed under the broad and corrupt motto of office seekers, *'To the victors belong the spoils of the vanquished,'* being alike anti-Republican, unconstitutional, and a foul stain upon the free institutions of the country, that can only be eradicated by the triumph of the principles which govern the Republican Whig party of the present day.

The advocates of the principles alluded to, who have stood foremost in defence of the Constitution and laws, when they were as diminutive as a party could be, exerting the strength of a Leonidas battling with the host of Xerxes, and have nearly succeeded in rescuing the Government from the grasp of corruption, will deem it their imperative duty to continue their efforts, and it cannot better be done than by supporting a periodical of high standing for sound political principle and literary worth—and such a one will be found in the National Magazine and Republican Review.

The success of the Magazine will therefore depend, in a measure, on the great body of the opponents of the present administration, whose interest it will be to aid in its permanent establishment. And it will be equally binding on the talented and patriotic band of leading Whigs to spare neither time or labor to the explanation and advocacy of the true and only principles on which the Government can prosper, and on the success of which depends the great experiment of Republican Government.

Having made these few remarks on the political cast of the publication, we feel confident that its utility will be readily perceived by the public and fully appreciated. In addition to the political features, the following will be the principal subjects on which the Review will treat, from the pens of the most celebrated writers of the present day?

REVIEWS AND CRITICAL NOTICES will occupy a portion of its pages, thereby giving rise to genius, and censure to such productions only as are richly deserving of it.

ENGRAVINGS OF DISTINGUISHED STATESMEN.—If the work should receive the same encouragement as is usually extended to periodicals of a literary and scientific character the subscribers to the Review will not only find their numbers embellished with these desirable plates, but also with many other valuable improvements.

A SERIES OF THE PROCEEDINGS OF CONGRESS will be given at the close of each session, in which will be explained the cause and effects of all prominent acts and measures, compiled by a gentleman of acknowledged ability and opportunity to arrange and collect such matters as will prove both interesting and instructive.

ELECTION RETURNS will be given in a tabular form, embracing all elections of importance in the various States, as early as practicable after the reception of official returns.

ESSAYS AND TALES will also form an important part of the work, and all original articles of this character will receive prompt attention. The object of the publishers, next to enhancing the good cause in which they have embarked, will be to furnish the reader with such matters as will both instruct and amuse, such as

SKETCHES AND REMINISCENCES of events too minute for history.

BIOGRAPHICAL & HISTORICAL SKETCHES of distinguished personages, &c.

TERMS.

THE NATIONAL MAGAZINE AND REPUBLICAN REVIEW will be published in monthly numbers of eighty octavo pages each, on fine paper, with new and handsome type, and in the most approved mechanical and typographical appearance, at the moderate price of FIVE DOLLARS a year, payable in all cases in advance, or on the delivery of the third number, without respect to persons.

Any person forwarding ten respectable subscribers, and becoming responsible for the amount of their subscriptions for the first year, shall receive a copy gratis as long as they may continue subscribers.

The publishers will be responsible for all moneys forwarded by mail, in case of miscarriage, provided the certificate of the postmaster shall be secured, and copies fowarded accordingly.

If a subscriber shall not order his subscription to be discontinued at the expiration of the year, shall be considered as wishing the Review continued, which shall be forwarded, and the subscription money expected on the receipt of the third number, as in the first instance.

No subscription taken for a less term than one year.

All communications, post paid, addressed to the publishers, at their residence, Georgetown, D. C., will receive prompt attention.

Publishers of newspapers who will copy the foregoing Prospectus, will receive a copy of the work, in exchange, and also confer a lasting favor upon the proprietors.

EDITED BY

WARD CHENEY & BROTHERS, Burlington. N. J.

AND PUBLISHED BY

CHARLES ALEXANDER, Philadelphia.

The First Number of this highly important and Valuable Work, is now ready for delivery to subscribers. We beg leave respectfully to call the attention of our citizens to the praiseworthy objects it has in view, and for the promotion of which it has been put into operation.

There has not probably heretofore been a time when the attention of the people of this country was as much engaged on the subject of the Silk Culture as at present nor a time when those, who have already embarked in this business felt such entire confidence, not only that liberal profits may be derived from it, but also in their ability to produce as good Silk as can be procured in any part of the world.—It is believed that all that is now wanting to fully establish this great interest in this country, with all its vast advantages, is but the dissemination of plain practical information concerning it; and to convince our citizens of what we know to be true, viz. that there is no more difficulty about raising a crop of silk, than there is in procuring a crop of grain. The capital thus bestowed yields a far greater return than can be obtained from any other branch of husbandry. The editors have long been engaged in the silk culture, and intend hereafter to give it their entire attention. They have made extensive arrangements for feeding the silk-worm, and cultivating that invaluable species of mulberry tree, the Morus Multicaulis. And, from their long experience in the occupation and extensive correspondence with silk growers, they believe they may say without ostentation, that they shall be able to make the AMERICAN SILK-GROWER, useful and entertaining, and to communicate through its pages information as valuable respecting every branch of the silk business, as can be elsewhere obtained in the United States. A portion of the work will be devoted to noting the modern improvements of Agriculture, and such matters as are generally useful to the cultivators of the soil.

The Proprietors respectfully solicit contributions on Agricultural subjects generally—and also the Silk Growing Business in particular. Address the Editors, WARD CHENEY, AND BROTHERS, Burlington, N. J.

The work will be published monthly—every number comprising twenty-four large octavo pages, with the addition of a cover for advertisements, &c. and at the end of each volume, a complete table of contents will be furnished to subscribers. Terms one dollar a year, payable in advance, for single subscribers. Twenty subscriptions will be supplied for a whole year by forwarding a current ten dollar bill, free of postage.

All orders for the work, postage paid, will be promptly attended to, if addressed to the Publisher, C. ALEXANDER, Athenian Buildings, Franklin Place, Philadelphia.

Citizens, Silk Growers, Agriculturalists and others, who wish to procure this work from the present time will please forward their names and the amount of subscription immediately.

LIBERAL PREMIUM.

Any Agent forwarding 100 subscribers for one year, and a $50 current bank bill, will be entitled to TEN THOUSAND SILK WORM EGGS, SELECTED FROM THE MOST APPROVED VARIETIES—which can be forwarded by mail to any part of the United States at a trifling expense, and which if properly attended to, according to the instructions which are promulgated in the work, WILL YIELD A PROFIT CONSIDERABLY EXCEEDING THE AMOUNT OF THE PRICE OF SUBSCRIPTION FOR ONE HUNDRED COCOES.

☞ Editors of papers who are desirous of encouraging the Growth of Silk in this country, will please copy this advertisement a few times, and we will furnish them with an Exchange, and also occasional samples of the silk, which is manufactured at the editors' exclusive establishment in Burlington, N. J.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGT ABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of

The British College of HEALTH, LONDON.

Manufactured in this country in their original purity by H. SHEPHEARD MOAT eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the Liver, Yellow Fever, Gout, Rheumatism, Lumbago, Tic Doloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy Paralysis, Palsy, Green Sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; Small Pox, Measels, Whooping Cough, Scarlet Fever, Asthma, Jaundice, Gravel, Stone, and all Urinary Obstructions, Fistula, Piles, Structures, Ruptures, and Syphilies in all its stages; Constipated Bowels, Worms, Scurvy, Itching of the Skin, Kings Evil and all Cutaneous Disorders; in short, every Complaint to which the human frame is so direfully subject, under all their varied forms and names, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE, that is, in the IMPURITY OF THE BLOOD, from which springs every Complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its vicious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man, and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible tensation of pain, exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different, from their accustomed habits.

These Pills cure in all cases, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild Medicine, which conveys immediate conviction of its utility, from the first dose is as beneficial to the mind as the body; first calming then curing all Mental derangements, Eccentricities, Nervous Affections, Irritability and Restlessness, from whatever source; complaints which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind, discovered a cheap and universal mode of purifying, curing, and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The litesary and sedentary of both sexes, whose pursuit so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No 1, and No 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No 2 Pills carry off those and the serious acid and putrid humors, incidental to the body; and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimoni phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The Powder in boxes 37½ cents.

CAUTION—Medicines of such great virtue as these, have been, and will be most certainly counterfeited.—To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morrisonian, 2 vols. 8vo—price $2,75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37½ cents. And just published.
The Mother's Book of Hygeian Midwifery, A. Shepheard Moat, of New York.

☞Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No 3½ SOUTH SEVENTH STREET, three doors below Market street Philadelphia—and at No 10 North street Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.
