POETRY.

For the Easton Gazette.

The story goes, as I've been told;
Yet, craves so much creduliT,
That men of sense, should B asham'd
Of swallowing, tales, of B. P.

These B. P. men will tell U much
Of cures, and such commod-it-is
As fill the columns, long and wide
Of Gazettes and such odd-it is,

That life and death, good health & strength,
And things of much more consequence,
B. P. afords; to all who are,
His wonderings, charming, men of sense;

8 score and 10 of years, are giv'n
If U will swallow them U, C,
Or 8 E years U may C cure
By taking 6. T. 6. B. P.

With ev'ry nostrum of the age
'Tis Fashion's Farce 2 B A FOOL.
Each nostrum blinds your very I's
And makes a Dupe or makes A TOOL.

But B. P. boasts of no such pow'rs
He only says that U shall live,
In ev'ry Clime, unscath'd, unhurt,
If all your Faith, to Him, you give,

If this be so! why do'nt U leap
Ye Lame? why not rejoice ye Blind
For sight? or why not speak ye Dumb?
Ye crazy People, healing find.

THE SILK WORM'S WILL.

BY MISS H F. GOULD.

On a plain rush hurdle a silk worm lay,
When a proud young princess came that way,
The haughty child of a human king,
Threw a sidelong glance at the humble thing,
That took, with a silent gratitude,
From the mulberry leaf, her simple food;
And shrunk, half scorn and half disgust,
Away from her sister child of dust—
Declaring she never yet could see
Why a reptile form like this should be,
And that she was not made with nerves so firm,
As calmly to stand by a 'crawling worm!'

With mute forbearance the silk worm took
The taunting words, and the spurning look:
Alike a stranger to self and pride,
She'd no disquiet from aught beside—
And lived of a meekness and peace possessed,
Which these debar from the human breast,
She only wished for the harsh abuse,
To find some way to become of use
To the haughty daughter of lordly man;
And thus did she lay a noble plan,
To teech her wisdom, and make it plain,
That the humble worm was not made in vain,
A plan so generous, deep and high,
That to carry it out, she must even die!

'No more,' said she, 'will I drink or eat!
I'll spin and weave me a winding sheet,
To wrap me up from the sun's clear light,
And hide my form from her wounded sight.
In secret then, till my end draws nigh,
I'll toil for her; and when I die,
I'll leave behind, as a farewell boon,
To the proud young princess my whole cocoon,
To be reeled and wove to a shining lace,
And hung in a veil o'er her scornful face!
And when she can calmly draw her breath
Through the very threads that have caused my death;
When she finds, at length, she has nerves so firm
As to wear the shroud of a crawling worm,
May she bear in mind, that she walks with pride
In the winding sheet where the silk worm died!'

A GOOD WIFE.

She loves her home, believing with Milton, that

"The wife, where danger and dishonor lurks,
Safest and seemliest by her husband stays,
Who guards her, or with her the worst endures."

The place of women is eminently at the fire side. It is at home you must see her to know what she is. It is less material what she is abroad; but what she is in the family circle, is all important. It is bad merchandize, in any department of trade, to pay a premium for other men's opinions. In matrimony, he who selects a wife for the applause or wonder of his neighbors, is in a fair way toward domestic bankruptcy. Having got a wife, there is one rule—*honor and love her*. Seek to improve her understanding and her heart.—Strive to make her more and more such a one as you can cordially respect. Shame on the brute in man's shape, who can affront vex, or not to say neglect. the woman who has has embarked with him for life, "for better, for worse?" and whose happiness, if severed from his smiles, must be unnatural and monstrous. In fine, I am proud of nothing in America so much as our American wives.

NEW REMEDY FOR DEAFNESS.

In a communication in this week's Lancet, from Mr. Curtis the Surgeon to the Royal Dispensary for Diseases of the Ear, who from his situation must have had great experience in this line of practice, an account is given of the employment of a new remedy for Diseases for the Ear, the value of which has been exemplified in several cases. After remarking on the prevalent mistake that these diseases are incurable, and the consequent neglect of them to which he attributes greater number of cases of deafness, he observes that one of the principal and most common causes of that malady is deficiency of the natural secretion, arising from a want of action in the ceruminous glands, on removal of which the deafness generally disappears. For the purpose of effecting this Mr. Curtis has lately employed a solution of kreosote, the application of which does not cause any pain or smarting sensation, the only sensible effect produced being a feeling of agreeable warmth. This preparation excites the action of the glands and causes abundant secretion of cerumen, thereby restoring hearing.

A NEW YEAR'S GIFT.

The congregation of the Rev. Mr. McGill, of the Scottish Kirk, at Niagara, Upper Canada, presented that gentleman on the 1st inst. with £300 ($1,200.) as a New Year's gift:—A substantial New Year's present, and that to a very deserving man.—[N. Y. Com.

The contingent expenses of Congress for one session, was recently stated by Mr. Morris, the Van Buren Senator from Ohio, to amount to 385,238 dollars. A few curious items are embraced in this enormous sum, such as—3274 dollars for horse hire, 314 dollars for a hostler, 152 dollars for making pens and 39 dollars for snuff. Mr. Morris, in alluding to the items for horse hire and a hostler, said that it would appear to an upright man, suspecting no evil, that Congress legislated for the greater part of its time, at least, on horseback.—[Nat. Gaz.

Salt was selling at St. Louis on the 31st ult., at 8 dollars 50 cents per sack. Six or eight boats were frozen in between the mouth of the Ohio and that place, with plenty of salt on board.

Excuse me if you please.—All the Van Buren men appointed in the Committee to investigate the plunder of the Treasury, beg to be excused. They more than "smell a rat." and wish to take no part in impaling their friends.

Definition of the English Language.

An individual leaving home left behind a favorite dog and wrote over its kennel "*Take care of the dog*"—meaning that he wished it to be taken care of and provided for—which was intergreted "*Beware of the dog!*" by all avoiding the poor animal till it starved to death.

JOURNAL
OF THE
American Silk Society
AND
RURAL ECONOMIST.

At a Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism & practical intelligence, the following resolutions were unanimously adopted after full discussion, in the course of which a great mass of facts and valuable information was elicited.

Resolved, That it is the deliberate opinion of this Convention that *Silk* may be grown in all the United States, not only for domestic purposes, but as a valuable article of *commercial export*—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved. That a National Silk Journal ought to be established under the auspices of the Executive Committee and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution the subscriber has been solicited to assume the editorial superintendence of the Journal to be published by the Society, and now, with not the least abatement of that fondness (not to say passion,) for rural life, and all its pursuits, which prompted him eighteen years since to issue the first number of the old American Farmer, he is but too happy to salute once more his old friends and correspondents, promising to deserve new ones by the most assiduous endeavours, (not incompatible with strict attention to his official duties) to accelerate the growth and progress of what he is convinced is destined to become a great branch of national industry, bringing into active exercise much of the now unproductive laboring power of the country, giving comfort to the widow and the orphan, by offering them suitable and remunerating employment, and making, in the aggregate, a large addition to the wealth and prosperity of our beloved *Union*.

Though Silk and every thing connected with its production and all improvements in machinery for its preparation and manufacture, will constitute the *chief design and aim* of the Journal, for the sake of the agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of *agriculture, horticulture*, and *rural* and *domestic economy*—Hence, the adjunctive title 'Rural Economist.'

J. S. SKINNER.

The Journal of the American Silk Society will be published monthly, in pamphlet form each number will contain thirty-two pages, printed on new type and handsome paper with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

TERMS.

Two Dollars a year, or six copies for Ten Dollars, always to be paid before the work is sent All subscriptions to begin with the first number of the year, and in no case will the work be sent to any subscriber longer than it shall have been paid for.

All communications to be addressed, post paid, to Gideon B. Smith, Corresponding Secretary of the Society.

All Editors of papers who may desire to see *Silk* added to the list of *American Staples*; and who will have the kindness to give this prospectus a few insertions, will be entitled to a copy of the Journal.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of

The British College of
HEALTH, LONDON.

Manufactured in this country in their original purity by H. SHEPHEARD MOAT eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus Inflamations, internally or externally, and all diseases of the Liver, Yellow Fever, Gout Rheumatism, Lumbago, Tic Doloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplex Paralysis, Palsy, Green Sickness, and all obstructions to which the Female form is distressingly liable, and which send so many of the fairest portion of the creation to the untimely graves; Small Pox, Measels Whooping Cough, Scarlet Fever, Asthma Jaundice, Gravel, Stone, and all Urinary Obstructions. Fistula, Piles, Structures, Ruptures, and Syphilies in all its stages; Constipated Bowels, Worms, Scurvy, Itching of the Skin. Kings Evil and all Cutaneous Disorders in short, every Complaint to which the human frame is so direfully subject, under all their varied forms and names, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE, that is, in the IMPURITY OF THE BLOOD, from which springs every Complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, purest stream of life, (the gift of Almighty powere to disencumber itself of its vicious, acrid humors, with which it has become commixed

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken to excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c

The operation of this mild Medicine, which conveys immediate conviction of its utility, from the first dose is as beneficial to the mind as the body; first calming then curing all Mental derangements, Eccentricities, Nervous Affections Irritability and Restlessness, from whatever source; complaints which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind, discovered a cheap and universal mode of purifying, curing, and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuit so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No 1, and No 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No 2 Pills carry off those and the serious acid and putrid humors, incidental to the body; and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimoni phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The Powder in boxes 37½ cents.

CAUTION—Medicines of such great virtue as these, have been, and will be most certainly counterfeited.—To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morrisonian, 2 vols 8vo—price $2,75 per vol
The Family Adviser, 2 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37½ cents. And just published.
The Mother's Book of Hygeian Midwifery,
A. Shepheard Moat, of New York.

☞ Respectable parties may be appointed bygents on liberal terms, by applying to the General Depot, No 84 South Seventh Street, three doors below Market street Philadelphia—and at No 10 North street Baltimore, nearly opposite the Post Office where the Genuine Medicine may always be obtained.
