POETRY.

(From the Portsmouth Journal.)

The following is supposed to be written by a gentleman who met a Miss Berry in a small town in the interior of New York, last summer, and was much pleased with her. As his attentions became very pointed they were SLIGHTLY repulsed; and being called away on business, just then, he did not prosecute the acquaintance further at that time. In the fall, he employed his first leisure moments in visiting the town where she resided, with the intention of offering his hand & heart but arrived just in time to witness the nuptials of Miss Berry and Mr. Eaton. Not being dangerously deep in love, he chose to laugh the matter off; and the next morning he sent the bride the following:

EPITHALAMIUM.

As I passed by a hedge, one day,
A lucious and rich looking berry
Attracted my gaze that way;
'Twas as ripe and as red as a cherry!

How it nodded and danced on the bough,
As the soft morning zephyr blew it!
'Are you as sweet as you look to be now?'
Said I, and I thought I would try it.

I made demonstrations to climb,
But scratched myself, much to my sorrow;
And said I, 'I'm in haste at this time,
And you'd do quite as well on the morrow.'

Then I hurried along on my track,
But that berry my bosom still haunted;
And often I turned to look back
To the bush where it nodded and flaunted

I saw it at night in my dreams
And so ravishing it looked, and so merry,
I vowed with the morning's first beams,
To go back and secure the berry.

And so, with Aurora's first blush,
I traced back the path, so well beaten;
But alas! when I came to the bush
I found that my *Berry* was *Eaten!*

MORAL.—BY WILLIAM ESSEX.

Let this be a warning to all
Who are thinking of love and of matching!
Climb! climb! never think of a fall—
Flinch not, tho' you get a slight scratching.

What might be as well done to-day,
O, never put off till to-morrow!
You may chance from that trifling delay,
To reap a full harvest of sorrow.

THE SAILOR.

BY LYDIA H. SIGOURNEY.

Hard sailors on the stable land,
Of danger what know ye,
Like us who boldly brave the surge,
Or trust the treacherous sea?
The fair trees shade you from the sun—
You see the harvests grow,
And catch the fragrance of the breeze
When the first roses blow.
While high amid the slippery shrond;
We make our midnight path,
And even the strongest mast is bowed
'Neath the wild tempest's wrath,
You slumber on your couch of down,
In chambers safe and warm—
Lulled only to a deeper dream
By the descending storm.
But yet what know ye of the joy,
That lights our ocean-strife,
When on its way our gallant bark
Rides like a thing of life—
When gaily toward the wished-for-port
With favoring gale we stand—
Or first your misty line descry—
Hills of our native land!
But yet there's peril in our path
Beyond the wrecking blast,
A peril that may whelm the soul
When life's short voyage is past,—
Send us your Bibles when we go
To dare the threatening wave,
Your men of prayer—to teach us how
To meet a watery grave.

And Saviour—thou, whose foot sublime
The foaming surge did tread,
Whose hand, the rash disciple drew,
From darkness and the dead.
Oh, be our ark, when floods descend,
When thunder shake the spheres—
Our Ararat, when tempests end
And the green earth appears.

JOURNAL

OF THE

American Silk Society

AND

RURAL ECONOMIST.

At a Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism & practical intelligence, the following resolutions were unanimously adopted after full discussion, in the course of which a great mass of facts and valuable information was elicited.

Resolved, That it is the deliberate opinion of this Convention that *Silk* may be grown in all the United States, not only for domestic purposes, but as a valuable article of *commercial export*—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved That a National Silk Journal ought to be established under the auspices of the Executive Committee and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution the subscriber has been solicited to assume the editorial superintendence of the Journal to be published by the Society, and now, with not the least abatement of that *fondness* (not to say passion,) for rural life, and all its pursuits which prompted him eighteen years since to issue the first number of the old american Farmer he is but too happy to salute once more his old friends and correspondents, promising to deserve new ones by the most assiduous endeavors, (not incompatible with strict attention to his official duties) to accelerate the growth and progress of what he is convinced is destined to become a great branch of national industry, bringing into active exercise much of the now unproductive laboring power of the country, giving comfort to the widow and the orphan, by offering them suitable and remunerating employment, and making, in the aggregate, a large addition to the wealth and prosperity of our beloved *Union*.

Though SILK and every thing connected with its production and all improvements in machinery for its preparation and manufacture, will constitute the *chief design and aim* of the Journal, for the sake of the agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly prized and kindred subjects of *agriculture horticulture*, and *rural* and *domestic economy*—Hence, the adjunctive title 'RURAL ECONOMIST.'

J. S SKINNER.

The Journal of the American Silk Society will be published monthly, in pamphlet form each number will contain thirty-two pages printed on new type and handsome paper with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

TERMS.

Two Dollars a year or SIX copies for Ten Dollars, always to be paid before the work is sent All subscriptions to begin with the first number of the year, and in no case will the work be sent to any subscriber longer than it shall have been paid for.

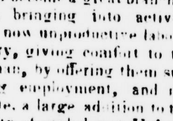

All communications to be addressed, post paid, to GIDEON B. SMITH, Corresponding Secretary of the Society

All Editors of papers who may desire to see *Silk* added to the list of *American Staples*; and who will have the kindness to give this prospectus a few insertions, will be entitled to a copy of the Journal.

EASTERN SHORE AND LUMINARE,

Will stand the ensuing season, ending 4th July, at he subscriber's farm, known as SECALF HALL, opposite Chestertown, in Queen Ann's county.

EASTERN SHORE,

Will stand at $7 the season which may be discharged by $5 cash before the service is rendered.

LUMINARE,

Will stand at $6 the season, which may be discharged by $4 before the service is rendered. Any gentleman having three or more mares, will be visited at his farm, if within 10 or 12 miles, upon the same terms; and where five mares are insured to either stallion, they will visit any part of either county provided the groom and stallion are accommodated.

Eastern Shore,

Was got by imported Luzborough, 'whose blood is of the *best* in modern times, whose size and form, being low and pony built, render him a *better cross* for the mares of Virginia and Carolina than most of the recent importations with this additional recommendation that he was a long while on the turf—With some of the *long legged* mares of the Archy stock, he may get good runners'—(See 5th vol. Turf Reg p 293 What has been the result? compare the prophecy with the fulfilment—look at his progeny, Picton, Tipton, &c. &c Luzborough is now standing at $200 to insure, being $50 higher than any other horse in America. Eastern Shore's dam was Equa—Equa (now dead) ch. m foaled 1815, bred by the late Isaac Duckett, she was got by imported Chance; her dam a roan mare by Republican President, son of Craggs' Highflyer, out of a thorough bred Venetian mare, which was also the dam of the famous running horse Duckett's Linnaeus, grandam by Dr. Hambleton's imp Ranger, son of Regulus, who was by the Godolphin Arabian; g. grandam by Lindsay's Arabian; g. g grandam Dr. Hamilton's mare Thistle, (full sister to Primrose,) by Dr Hamilton's imp. Dove; g. g. g. grandam Stella, by Othello, son of Crab; g. g. g. g. grandam Fisher's Selima, by the Godolphin Arabian.

The full pedigree of Equa, as above, is taken from and verified by the manuscript pedigrees left by the late Dr P Thornton, of Isaac Duckett's mares. These papers are now in the possession of Thomas Peter Esq. of Georgetown

Signed,

T. P. ANDREWS.
THOMAS PETER

Washington, October 10, 1832.

Maj Andrews upon enclosing the above certificate of Equa's pedigree to me observed She is truly a *relique* as to blood of olden times, of the best sort. Equa was the dam of Lucky Rosa, a winner; grandam of Lady Archiana, a winner; grandam of Molinera, a winner. In fine, his owner may challenge contradiction when he asserts that there is not a higher bred stallion in the U. States—one whose blood is more *fashionable*, purer or better.

LUMINARE,

Was got by Maryland Eclipse, out of Alcrina, the dam of Molinera. He is a horse of *great speed* but being very large for a 3 year old last season his maturity was not equal to sustaining his speed.

The performance of E. Shore in three heats of three miles over Kendall Course, established the fact that he was a horse of *invincible* game in the opinion of Gen Emory and other old Turfites, although a *little* too slow to win against the elect of the Napoleon of the Turf

The owner of E. Shore will enter into a Stallion sweepstakes of from 3 to $500, to run over some track on the E. Shore of Maryland, next fall, against the stallions now covering on the Peninsula, weight for age and inches; four or more to make a race, the forfeit to be half the amount of the sweepstakes.

The subscriber has incurred a great expense than any one in Maryland in procuring the *gene wine* from the best bush domestic or foreign, and he now offers gold at the price of pennyweight of copper'—If he is patronized in the 'experiment,' he will continue to furnish the very best blood to the breeder, upon *cheaper* terms than it has ever been done in Maryland—yes, every *variety* of the best blood; therefore let the breeders make their *calculations* accordingly.

The patrons of E. Shore and Luminare sending from a distance will be supplied with food for their mares and board for their grooms upon the following cash terms, viz. Board per day for groom 25 cts, do. per meal 12½ cts. Corn per gallon 12½ cts., Fodder per bundle 6 1-4 cts.

Corn at 90 cents per bushel, Fodder at $1 per hundred, Oats at 50 cts. per bushel, and Bacon at 12 cts per lb. will be received in payment for the services of Luminare and E Shore, if delivered at Secale Hall *before* the service is rendered. Persons in Kent wishing the services of either stallion will apply to my overseer Mr. Kirby and they will attend in Chestertown or at Hackett's Fancy.

NOTICE

Of the Sale of valuable Lands in

Talbot County.

THE President, Directors and Company of the Farmers' Bank of Maryland, by virtue of a power, contained in a deed of mortgage, passed & executed to them by Wm Hayward, deceased, bearing date the twenty fourth day of April, in the year of our Lord eighteen hundred and twenty two, will offer for sale, at public auction, on TUESDAY, the twenty fourth day of September next, between the hours of three and four o'clock in the afternoon of that day, at the front door of the Court House of Talbot county, in the State of Maryland, all and singular that farm and premises of him the said William Hayward, in his life time, lying and being in Talbot county aforesaid, consisting of the parcel of land, called Theobald's addition, and of part of the tract of land, called Sheepshead Point, bounded on the east by the land of Abednego Bozfie'd, deceased on the south by the public road leading to the Bay Side, on the west by the lands, that belonged to William W. Moore and on the north west and north by the cove and St. Michaels river, and containing the quantity of one hundred and sixty two and a half acres of land more or less, which the said William Hayward purchased at public sale of the Sheriff of the said county, and died possessed of—The land is leased for the present year, therefore, possession will not be delivered to the purchaser, until the end of the year; but he will have the privilege of seeding wheat on the premises in due season, and on the usual terms. This farm being deficient in wood and timber, the purchaser will have the opportunity of obtaining a reasonable portion of wood land, convenient to the farm, which will be sold by the sheriff at the time and place aforesaid, appointed for the sale of the farm. There is an incumbrance on the lands of the widow's dower, which she will either sell for a reasonable price, or lease for a reasonable rent—The sale will be made for the purpose of satisfying the Bank for the sum of money due on the mortgage, with interest and costs—The terms of payment, although cash, can be made easy to the purchaser by an accommodation at Bank, provided a note, with approved personal security, be offered.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of

The British College of

HEALTH, LONDON.

Manufactured in this country in their original purity by H. SHEPHEARD MOAT eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus Inflamations, internally or externally, and all diseases of the Liver, Yellow Fever, Gout Rheumatism, Lumbago, Tic Doloreux, Dropsy, St. Vitus's Dance, Epilepsy, Apoplexy Paralysis, Palsy, Green Sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; Small Pox, Measels Whooping Cough, Scarlet Fever, Asthma Jaundice, Gravel, Stone, and all Urinary Obstructions, Fistula, Piles, Structures, Ruptures, and Syphilies in all its stages; Constipated Bowels Worms, Scurvy, Itching of the Skin, Kings Evil and all Cutaneous Disorders in short, every Complaint to which the human frame is so direfully subject, under all their varied forms and names, as the Hygeian conviction is, that MAN IS SUBJECT TO ONLY ONE REAL DISEASE that is, in the IMPURITY OF THE BLOOD, from which springs every Complaint that can possibly assail his complicated frame, and tha it is the perpetual struggle of this vital, purifying stream of life, (the gift of Almighty power) to disencumber itself of its vicious, acrid humors, with which it has become commixed

This valuable medicine, being composed only of vegetable matter, of medicinal herbs and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the texture of man and therefore destructive to the human frame) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible tension of pain exhaustion of bodily strength, and without the fear of catching cold, or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken to excess Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c

The operation of this mild Medicine, which conveys immediate conviction of its utility, from the first dose is as beneficial to the mind as the body; first calming then curing all Mental derangements, Eccentricities, Nervous Affections, Irritability and Restlessness, from whatever source; complaints which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood and, happily for the present and future race of mankind, discovered a cheap and universal mode of purifying, curing, and preventing.

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain procedure—preserverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and secretary of both sexes, whose pursuit so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No 1, and No 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the bilious ropy humors, while the No 2 Pills carry off those and the serious acid and putrid humors, incidental to the body; and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities

The Vegetable Cleansing Powders are of great assistance to patients and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimoni phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $8 each. The Powder in boxes $7½ cents.

CAUTION—Medicines of such great virtue as these, have been, and will be most certainly counterfeited—To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a fac simile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morrisonian. 2 vols 8vo—price $2.75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37½ cents And just published.
The Mother's Book of Hygeian Midwifery, A. Shepheard Moat, of New York.

☞Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No 34 SOUTH SEVENTH STREET three doors below Market street Philadelphia—and at No 10 North street Baltimore, nearly opposite the Post Office where the Genuine Medicine may always be obtained
