three hours, leaving a wife and three children.

Robert Reynolds and Charles Herman members of the Weccacoe Engine, were both seriously injured by a bale of cotton thrown from the upper window of one of the stores.

Many poor families have been thus turned from their homes, and have lost a great portion of their furniture, and clothing. There was generally insurance on the property as far as we have been able to ascertain, but the particulars on this head we cannot yet state with accuracy. It is proper to mention however, that the disaster will *not cause any failures.* There are various surmises concerning the cause of the fire, which many suppose was the work of an incendiary.—The firemen are now twelve o'clock, M., leaving the scene of the conflagration with their apparatus.

This, we believe, is the most destructive fire which has ever occurred in Philadelphia. Of fifty two buildings which were on fire, forty are in total ruin, many of them large new warehouses.

It is mentioned in the morning papers that the store house of Waln & Leaming was much injured; we are requested to state although the houses adjoining on three sides were totally destroyed, their fire proof building remains uninjured.

DESTRUCTIVE FIRE IN N. YORK.

New York, we regret to find, has, like Philadelphia been visited with a very destructive fire. It occurred at an early hour on Sunday morning, and destroyed between thirty and forty warehouses, stores, &c. before it was extinguished.—An extra from the Herald, furnishes the following particulars.

New York, Oct. 6.

DESTRUCTIVE CONFLAGRATION —OVER THIRTY BUILDINGS DESTROYED—LOSS ESTIMATED TO BE UPWARDS OF $1,000 000.

This morning about 1 o'clock, a fire broke out in the fur store of Messrs. S. D. Halsey and Co., No. 189 Water street, which destroyed over thirty buildings. There was a fresh wind blowing at the time, and the destructive element swept through Water street, Burling slip and Front street and Fletcher street, and threatened at one time, to burn every building from Water street to the East River, taking in the blocks on Burling slip, Front and South streets. Towards morning, however, the firemen, by great exertions, got the master-hand, and by seven o'clock, had stopped the fire from spreading any further than it did.

The United States Hotel, lately Holt's a marble building, seven stories high, was in imminent danger, it having taken fire in the gutters and on the dome twice, but was saved.

The entire block bordering on Water, Fulton and Front streets, and on Burling Slip, was, with the exception of three or four buildings destroyed.

THE NEW YORK FIRE —The amount of insurance on property injured or destroyed by the late extensive fire in New York, is stated in the Journal of Commerce to be $631 500. Of this amount, the insurance offices in the city of New York have $517,000, and other offices, east and south, have $114,500. In some cases the losses are total in others not. The whole amount of property destroyed, insured and uninsured, is believed to be about one million of dollars.

A New York letter says —

The book safes built in the walls proved themselves of the same value as before, that is nothing but a decoy. The contents of these things were, I presume, in every instance destroyed. The only safe place for books on such an occasion, is at a distance from the fire.

The loss by the fire at Philadelphia, in merchandize and real estate, is estimated, according to a letter of a respectable house in that city, at $1,100,000.

EASTON GAZETTE.

EASTON, MD.

Saturday Morning, Oct. 12.

Suspension of Specie Payments.—We copy the following from the National Gazette of October 10th.—The Steam Boat Maryland has just arrived when this paper went to press;(12 o'clock,) and we understand from a passenger, that the Baltimore Banks suspended specie payments on Thursday last,—shin plasters will be again afloat, ere long.

'A combination of adverse circumstances has reluctantly compelled the Banks of this city to resort to a temporary suspension of specie payments. The failure of the harvest in England last year, caused a demand upon the Bank of England for more than six millions of pounds sterling, about thirty millions of dollars, which was drawn in gold and silver from its vaults and exported to the continent to pay for grain. This withdrawal of so large an amount of specie, produced at once a depression in the value of cotton and other American produce, and of course lessened our means, in England, of paying for the large amount of importations of foreign merchandize. There has therefore been a continued drain upon our Banks for specie to ship to Europe to supply this deficiency. Nothing can be more honorable to the character of our merchants, than the sacrifices they have made to support their credit both at home and abroad. In this honorable struggle to maintain inviolate the commercial character of our country, they have received every support which was in the power of the Banks to render them. There is however a point in human affairs, when it becomes necessary to resort to self-preservation as the first law of nature. That period is now arrived; —every effort has been made by our Banks to stem the torrent, but in vain.

In support of this declaration it is only necessary to state, that since the late resumption of specie payments the Bank of the United States has paid out in specie upwards of twenty millions of dollars. In addition to this, the Bank has made great sacrifices to support the cause of internal improvements, not only in Pennsylvania but elsewhere.

Of the ability of our Banks to meet all their engagements, no one can doubt.—The safety of a Bank does not consist in the amount of specie idle in its vaults, but in the ample security which it holds of its debtors. All that the Banks require, is, time to collect the debts due to them, to enable them to resume specie payments.'
