DENTISTRY.

GEORGE W. HUMPHREYS,
OF VIRGINIA,
DENTAL SURGEON,

Invites the attention of the public to one of the most valuable improvements ever introduced to their notice, being an extremely simple mode of extracting Teeth, by which the patient is saved the greater part of the pain usually attendant on the ordinary method of extracting, whilst its safety is so remarkable that no injury can be inflicted on the jaw bone of gums. The advertiser assures the public that he can extract teeth by this system, no matter if they be of the largest size or decayed fangs, with the application of one third the power ordinarily employed in such operations, and he invites the citizens of Easton and the surrounding country, to call and examine his proof in favor of what is here asserted.

He also offers his services to the public; is being, in most cases, able to save entirely such decayed and aching teeth, as they now fear must be extracted. His success in soothing and finally saving many valuable teeth in an extensive practice in some of the principal Northern and Southern cities, has been so decided, that he invites the public to call, confident that he can, under his skill as a Dentist, be useful to them.

He will also Cleanse, Plug, and Insert Teeth upon springs or fangs, on the most approved plan, and cure inflammation and soreness of the gums, giving them a healthy action which will improve the breath and taste.

For testimonials and prices for operating, see bills which he will furnish.

☞ Having procured comfortable rooms at Mrs Donovan's, he may be consulted at all hours of the day.

He refers to Dr. T. Thomas and Dr. Solomon M. Jenkins.

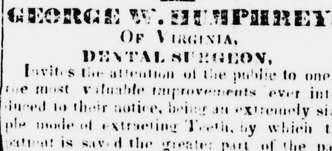

☞ He will remain in Easton only a few days
