But after he heard the full discussion on the question, and before he had received his party cue, he expressed his honest opinion of the Law. He does not now deny the language attributed to him by the Messrs. Wrightson at the time alluded to. The following certificate of Mr. W. W. Lambdin must satisfy men of all parties as to the truth of the charge made by the Messrs. Wrightson.

[Bay Side, September 28th 1840.

I hereby certify, that in the fall of 1833, I was working at Wm. W. Lowe's in company with Wm. L. Wrightson, that the said Wrightson then and there told the said Lowe that he had said in the Spring of 1836 that if he were a member of the Legislature he would vote for the Indemnity Bill, and that the said Lowe did not deny having said so.

WM. W. LAMBDIN.

I leave Mr. Lowe to enjoy any advantage he can derive from the attack thus made upon me. As to his queries put to Messrs. Kemp and Hopkins, I can only answer that these gentlemen are in no way connected with the Indemnity—that it is not a question they have to act on, in the event of their election. They *have never expressed their opinions of the law and then retracted them.*

I have now done with the charges brought against me. I have deemed this hasty exposition due to a people who have heretofore honored me with their confidence.

SAM: HAMBLETON, Jr.
Easton, Sept. 30 h 1840

MAINE ELECTION.—We have full confidence in the annexed returns, which we find in the Portland Evening Advertiser.

EDWARD KENT ELECTED AND NO MISTAKE.

We have gone through our returns carefully again, and after revising them, and correcting them, give the result complete in all the towns:—viz:

Kent,	45573
Fairfield,	45345
Kent's majority	228

Scattering votes as far as heard from, 11.

The whole vote of the State will be about 91 000 or about 1500 heavier than the vote of 1838 which was then the largest ever given in the State.

MAINE.

The Boston Atlas of Monday has an article of some length, which goes into a minute examination of the returns of the Maine Election as published in the Augusta Age, a Van Buren paper. The Atlas points out numerous errors in those returns, and concludes by saying—

Every plantation has been received, and there is—there can be, no doubt that Edward Kent has been chosen Governor of Maine, for the year ensuing, by a clear majority of the votes of the people.

One hundred Guns were fired at Annapolis, on Monday afternoon last, in celebration of the glorious success of the patriotic Whigs of Maine, at their late State election.

ONE HUNDRED GUNS—For the Whigs of Maine were fired from the Battery on Wednesday afternoon, by their brother Whigs of New York.

THE BOUNDARY QUESTION SETTLED.

At a great Whig meeting lately held at National Hall, in the city of New York Judah Hammond who presided, made a very happy remark, on announcing the joyous tidings from the *'Star in the East,'* Maine, (said he,) HAS SETTLED THE BOUNDARY QUESTION BETWEEN LIBERTY AND DESPOTISM!!

SPECIAL ELECTION IN LOUISIANA.

The Governor of Louisiana has issued his proclamation ordering an election to be held in the Third Congressional District of that State, composed of the counties of Attakapas, Opelausas, Rapides, Natchitoches, Ouachita, and Concordia, to fill the vacancy caused by the resignation of the Hon. Rice Garland. The election is to take place at the same time that the Presidential Electors are chosen on Monday, the second of November and the two following days.

The Whig meeting at Elkton on Saturday was very numerously attended, and the best spirit prevailed. Addresses were made by Governor Call of Florida, and other gentleman.

Major Eaton and his lady arrived in Louisville on the 20th inst., and took the morning stage for Nashville. The Journal states that "both of them are unmeasured in their denunciations of Mr. Van Buren. One of them intends to take the stump and make an electioneering tour through Tennessee, and the other will undertake to straighten the crooked politics of the Hermitage."

THE CHRISTIAN WORLD—A monthly paper, handsomely printed, and issued in the quarto form, has just been commenced at Philadelphia, under the editorial conduct of the Rev. T. H. Stockton, of the Methodist Protestant Church. It is not the intention in establishing this paper, to make it the exponent of the doctrines of any religious sect exclusively The object, as stated by the editor, is, with the aid of pious, enlightened and liberal contributors, of various denominations, to 'develope Bible Christianity, in its essential, peculiar and incomparable glory.' Such being the object and aim of the paper, the whole 'Christian world' should wish it success.

EASTON ACADEMY.

The Trustees of the Easton Academy feel great pleasure in announcing to parents, guardians and the patrons of learning generally, that they have succeeded in filling the place of principal, vacated by the retirement of Mr. Shanley. The Rev'd. Samuel Edwin Arnold, C. L. D., is the gentleman whose services they have been enabled to obtain. The testimonials of this gentleman are of the highest character, being furnished by distinguished members of the several learned Professions, all of whom speak in the most unqualified terms, and of their own knowledge of his superior attainments as a matured scholar, his peculiar fitness for the instruction of youth, as fully established by an experience of several years in this pursuit, and of his high moral worth as a private gentleman.

The Trustees feel perfectly justified in offering the above Institution to the considerations of those interested in the sound and substantial education of children in their charge. The Latin and Greek Classics, all the branches of a complete Mathematical course, with the ordinary branches taught at the most approved Seminaries, are placed within their reach at a very moderate expense. The terms of instruction in the above studies are $25 per annum, and $1 00 from each student for fuel.

The French language will also be taught when desired—but for this there is an extra charge, which is not yet established.

BOARD may be had on moderate terms in genteel families in the town, and the Principal will probably take several Boarders. It is expected that the Academy will be reopened on Monday the 12th inst. for the reception of Students.

By order of the Board,

Boots and Shoes.

CHARLES O. HARA,

Respectfully informs his customers of Talbot county and the public generally, that he has on hand and is making up for the fall a first rate assortment of lace boots, for servants, superior to any that can be had in Baltimore and equal to any that I have heretofore made if not better, than those I gave my customers last year, as the materials are of a better quality; the sole leather I have made them out of, is of the very best spanish hides, and is for upper leather it is the best wax uppers Baltimore can afford. I will warrant them to wear for 12 months if not burnt, at the reduced price of $2 per pair, long boots from 4 to 5 Customers will please send in their measures as soon as possible All orders thankfully received by Charles O. Hara, Lombard street between Concord street and Marsh Market space, Baltimore.

The Burlington Silk Worm FRAME.

This simple yet complete apparatus for feeding Silk Worms, invented and patented by Mr. Edmund Morris of Burlington, N. J., has been found, after repeated trial, to accomplish the following important objects:—

1. It secures the most thorough ventilation to all parts of the frame on which the worms are feeding, below as well as above, and obliges them, of necessity, to clean themselves of their excrement and other rubbish

2. That part of all former modes of feeding which requires *waiting* for the worms to mount upon fresh foliage in order to clean them, is entirely dispensed with; and though cleaning is never necessary, yet should the worms require changing, it is done almost instantly, a thousand at a time, and without the worms being conscious of the change.

3. The whole apparatus is as portable as a quilting frame; and all the parts which require handling during the feeding season, are as portable as an umbrella, without being liable to breakage.

4 Ventilation and cleanliness are so perfectly accomplished, that disease seems to be out of the question, unless originating in the egg.

5. The age (from the spinning) of any number of cocoons, from one thousand up to a million, is identified to a day, and they are gathered with six times the facility of the hurdle system, at the same time coming out perfectly clean, and with but little floss.

6. By using branches, cut down with a grass hook or scythe, it saves more than one half the usual expense of gathering foliage and feeding it out to the worms, and more of them are accomodated in the same space.

7. It is cheaper and more durable than the hurdles. All the purchaser is required to do after receiving his frames, is to put in a few nails to support his uprights, every thing else, including the spinning apparatus, is complete to his hand

The vast superiority of this over all other fixtures for feeding silk worms, is such, as to be apparent even to persons not acquainted with the rearing of them; while intelligent gentlemen, practically conversant with the business, have pronounced, without a single exception, that it fully accomplishes all that has been said above. It has been tried repeatedly and found successful in practice, and is now (September) in full operation at the Burlington Cocconery, on a large scale, where persons interested in the silk business are invited to examine into its merits. It rejects the hurdle system entirely, and is original in all its parts. A Frame sufficient to feed 12,000 worms, may be seen at the United States Silk Agency, No. 2 Franklin Place, the undersigned proprietor of which has been appointed agent for the sale of frames and rights, to whom, or to the patentee at Burlington, application may be made. An engraved view, with a full description, will be sent on application, post paid. Gentlemen about to erect cocooneries will find it highly important to examine the capabilities of this Frame, previous to erecting any other fixtures.
