730; on the same day of the present year, the number was 13,468, showing an increase, during the year, 688. There have been established, during the year, 959 post-offices, and 271 discontinued. The number this day is 13,638. There have been, during the year, 3,231 postmasters appointed, of whom 959 were for new offices.

The revenue of the department, for the year ending June 30, 1840, was: letter postage $4,003,776 07; newspapers and pamphlets, $535,229 61; fines paid to postmasters for violations of law $260, making $4,539,265 68.

The expenditures for the same period were: for compensation to postmasters, $1,028,925 92; for wrapping paper, office furniture, advertising, mail bags, mail locks and keys and stamps, mail depredations and special agents, blanks, clerks for offices, and miscellaneous, $441,778 96; for ship, steamboat and way letters, $35,410 81, for transportation, $3,252 995 16, making $4 759,110 85. Excess of expenditures, $219,845 17.

The revenue, as compared with the preceding year, shows an increase of $61,-651 64, being a fraction over one per cent.

A modification of the system of postage is proposed on the following basis:

1. The entire abolition of the franking privilege, as an exclusive personal right, with the exception of the Executive and heads of department.

2. A limitation by law of the maximum rate of compensation for all steamboat, railroad, and coach service.

3. The equalization of postage on newspapers and other printed matter, with an advance of one hundred per cent.

4. A revision of the tarriff of letter postage, with a reduction of twenty-five per cent.

REPORT OF THE SECRETARY OF WAR.

This annual public paper has been sent to Congress. It contains some facts interesting to the general reader.

The regular troops now in Florida amount to about 4.500 men, and the militia in service to about 2000. He recommends that authority be given to the Executive to engage the services of this description of troops for a twelvemonth, or during the continuance of hostilities in Florida. The term of three months is much too short to ensure sufficiency; and frequent enlistments are a fruitful source of insubordination, as well as of great additional expense.

The number of Indians emigrated from the interior to the West, since the year 1836, amounts to very nearly 41 000, of which about 5.000 were removed during the past season.

The number of pensioners of every description now on the rolls in all of the States and Territories, and in the District of Columbia, (except those paid out of the Navy pension fund,) amounts to forty-four th; usand three hundred and ninety-four; out of which two thousand and seventy two cases have been admitted since the period of the last annual report.

The total sum drawn from the Treasury during the past year, to pay pensions, amounts to two millions forty eight thousand six hundred and sixty three dollars, exclusive of Navy pensions.

CONFESSION OF A MURDERER.

The Lexington, Ky. Observer contains a confession made and signed by Gilbert N Richey, who was hung at Carlisle, Nicholas county, Ky., on the 25th of November last. The murderer states that he was desired by a Mrs. Fuller to take the life of one of her neighbors in August last, named Mrs. Snap, in consequence of the jealous suspicions of the former, who promised him a reward of six dollars, and all the money she could thereafter get, besides making other promises of various kinds to tempt him to the deed. After resisting some time he at length yielded to the woman's importunities, and on the 13th of August proceeded to the house of Mrs. Snap where he found her alone; but a neighbor entering before he could execute his purpose, he thought proper to leave the house in company with the intruder to prevent suspicion. He however presently returned, and as before was asked to take a seat, Mrs. Snap being then alone in the house. He declined and at once knocked her down with his fist. She recovered and ran out of the house, while Richey, who had seized a shoe knife pursued and caught her about thirty yards from the house, when he again with a heavy blow with his fist brought his victim to the ground, and in an instant at one stroke with the knife, nearly severed the head from the body. He was arrested on the 15th, tried, and convicted. The murderer was but 22 years of age.

MURDER.

The Nashville Banner states that a foul murder was committed on the 14th ult. near Hendersonville, Sumner County, Ten. on the body of Mr. Lindsay, a respectable clergyman of the Methodist Church of near thirty years standing, and 55 years old. He was shot to obtain the money he had about him, $300, as is supposed, by a man by the name of Carroll, and thrown into the Cumberland river, where the body was found on the 20th, by dragging with a net. Carrol is a citizen of Missouri, but, for the last six months has been in Tennessee, and wherever he is known, is rather celebrated for his expertness with his rifle.—He has not been seen since, and a handsome reward was offered for his apprehension. A man by the name of Johnson, a supposed accomplice, has been taken up.

The New York Express says—

The Atlantic Marine Insurance Company have declared a dividend of twenty five per cent on the capital stock for the last six months. The earnings of this company are truly astonishing, within a few years they have given the stockholders back over two hundred per cent, have their capital whole, and a surplus of over fifty per cent on hand—considering the disasters that have occurred it is remarkable. The Office enjoys a great business and has paid immense losses. A statement of the earnings of the Company would be an interesting chapter in the history of underwriting.

LUDICROUS OCCURRENCE

Yesterday morning while the Superior Court was being opened, and just as the crier had finished the words "hear you, hear you, all you who have any business in this Court, come forward and you shall be heard," an interesting looking little girl about twelve years old, stepped into Court with a basket of nuts in her hand, and said aloud, as if in answer to the crier's invitation, "I want to sell my nuts." So unusual a motion set the audience in a roar of laughter, which was still further increased by the little girl's stepping up to the bench, and asking Judge Tallmadge to buy some nuts. "You can't sell your nuts here, child," said Judge Tallmadge "you must go into the hall with them." "Ah! but do buy some of them, said she,—see how good they are, and so cheap." "Come, come," said one of the by standers, "you must leave the Court; no person is allowed to sell nuts here." "Not sell nuts here?",—said the child with seaming surprise—"Why I thought the market laws were all repealed." Her last remark, which she made in a tone of honest earnestness, called forth another laugh and she left the Court much mortified that she could not sell her nuts there.—*New York Journal of Commerce.*

LOTTERY DRAWING.—Something singular occurred yesterday afternoon at the drawing the Grand Consolidated Lottery, class No. 8. It appears that the number 13 was drawn from the wheel twice—it made its appearance at the 7th and 10th drawn numbers. This looks somewhat strange—we do not profess to account for the mystery. The commissioners, in order to amend the difficulty, made another turn of the wheel, after discarding the last drawn 13, and drew in its place the number 55. This is a ticklish business, gentlemen. Can you give us an explanation?—Clipper.
