APPOINTMENT.—The Governor has appointed Mr. George Cooke, of Anne Arundel county, a Commissioner of Lotteries, in place of Dr. Dickinson, deceased.

U. S. Bank stock was sold in Philadelphia on Wednesday at $24 per share.

From the Balt. Patriot of Thursday last.

The regular annual Convention of the Protestant Episcopal Church of Maryland, was opened yesterday morning, in St. Paul's Church—the Right Rev. Bishop Whittingham presiding.

The Convention re-assembled, according to adjournment, at St. Paul's Church this morning, when among other proceedings, Bishop Whittingham's annual address was made. It occupied two hours in the delivery, but was heard throughout with marked attention. It gave a full and interesting detail of the churches in his diocese, and indulged in occasional reflections in a strain of eloquence which went to the hearts of all who heard it—particularly in that part of it in which he alluded to the death of the Rev. Dr. M'Ilhaney, formerly of Annapolis, whilst employed in the special service of the Church. The death of Gen. Harrison was also appropriately and beautifully alluded to. The number of the clergy and lay delegates in attendance is numerous.

We learn from Bishop Whittingham's address, that the FOUNTAIN ROCK, in Washington County, the beautiful and extensive mansion of the late Gen. Ringgold, has been secured by the Church, and that it is in contemplation soon to open it as a Seminary for the instruction of youth.

THE ROBBERY OF THE FREDERICK CO. BANK.

The Frederick Examiner of Wednesday last gives the following particulars of this immense robbery.

The bank was entered, it is thought on Saturday night last. A key was found in the creek, near the city mill, on Sunday morning. A dark lantern of rude construction was also found. The key was filed off and filled up till it was made to fit the lock of the exterior door of the bank quite as well as the key which belonged to it. The lamp does not seem as if it had been the production of a workman, and looks as if it had been in service before. We understand that two men were seen taking a box to the corner of the bank and seating themselves upon it, for the purpose, doubtless, of keeping watch while the robbers were progressing with their work. A spur with the strap broken was found in the vault.

The progress of the robbers was obstructed by seven locks, some of them of the most complex construction. The street door must have been entered some time since, and the villains have been at work, doubtless, for some weeks in discovering the secret springs of the three locks in the outer door of the vault, and in taking impressions for the purpose of making suitable keys.

All the contents of the iron chest in the vault were taken without any discrimination—including some of the issues of the Frederic corporation, notes that were laid aside as unfit for use in consequence of being worn out, &c. Of the silver, none of which was in the chest, they took but ten dollars.

This is one of the boldest and largest roberies that we have ever heard of, and the excitement and commotion which it has caused in our quiet town is such as we have never seen here before.

Persons and Handbills have been despatched in various directions, for the purpose of effecting the apprehension of the robbers. Many persons suspect, and there are circumstances which justify the suspicion, that the robbers have gone to the Southwest. It would be well that the police in that and in all directions should keep a carefull look out.

The doors of the bank were immediately closed upon the detection of the robbery. The capital paid in was $176,600, and the amount of funds of every description taken is a few thousand dollars more than the capital paid in.

NORTH CAROLINA ELECTION.

J. James Graham is re-elected Representative to Congress in the Twelfth District of this State, in opposition to Mr. Clingman, another Whig candidate.

Lewis Williams is re-elected in the Thirteenth District by a majority estimated at 1500 votes.

Our returns from this State are now complete, and its representation in this Congress consists of eight Whigs and five Opposition-ists; being a Whig gain of 3 members.

WHIG GAINS AT LATE ELECTIONS.

In Virginia	2	members
In Indiana	3	do
In Maryland	3	do
In North Caro'ina	3	do
In Tennessee	1	do
Being a clear gain of	12	members

Whilst in three other States, Connecticut, Rhode Island, and Kentucky, the Whigs have held their own.

TENNESSEE CONGRESSIONAL ELECTION.

The re-election of C. H. Williams (Whig) is ascertained, by a very large majority.

Mr. Brown (Whig) is elected in Mr. Crockett's late district by a large majority.

We have now heard from all the districts of this State, and the general result is one *Whig gain.*

WELL DONE TENNESSEE!

By a Letter from a friend in Tennessee we learn that it has been prematurely published, all over the country, that in the fourth Congressional District of that State J. W. Blackwell, (L. F.) a member of the last Congress, is re-elected. Not so. We have pleasure in stating that Thomas J. Campbell (Whig) has been elected in that district by a majority of 79 votes over Mr. Blackwell. (Another Whig candidate received 164 votes. So the entire Whig majority in the District is 243.) The majority of Mr. Blackwell in the same district in 1839 was 1315 votes.

Thus in every State in which an election has been held within the last two months there has been a decided Whig gain in the number of votes, and in every State a gain in the results of the election except in Rhode Island, where the late members were all Whig, and in Kentucky whose Whig members were already 11 to 2.—Nat. Intel.

TWENTY SEVENTH CONGRESS.—The extra session of Congress will commence on Monday next, the 31st inst. The result of the recent elections is so far ascertained as to show what will be the political character of both Houses. The Senate is full with the exception of one member from Tennessee, and the House with the exception of two from Pennsylvania, and three from Illinois. The election in the latter State does not take place until August. The two vacancies in Pennsylvania will be supplied by one Whig and one Opposition. The Journal of Commerce has made out the following list, showing the political character of the next Congress. In comparing with the last Congress, it takes the delegations as they stood when first elected. Any changes which may have subsequently occurred, either by resignation, death or transmigration, it makes no account of.

[Ledger.

Jacob R. Griffin, who was recently convicted of kidnapping, and sentenced to be imprisoned for four years, to pay a fine of $1500, and to receive sixty lashes, effected his escape from the jail at Dover, Delaware, on Friday night last.

We copy the annexed paragraphs from New York papers of Monday, touching the examinations which have been made as to the affairs of the New York Custom House during Mr. Hoyt's administration:

The new Custom House.—We understand from good authority that the committee appointed to investigate the affairs of the Custom House, during preceding Collectors, have closed their labors, and found more than ample grounds for the various reports which have been in circulation for some time past in connexion with the subject.—*Courier and Enquirer of this morning.*

The Courier is in error. The investigating committee *has not* closed its labors, nor is it likely to do so at present. Although they have been using the probe but a single week, we are informed that many deep and grevious sores have been discovered. In other words, we are assured that disclosures of rascalities so stupendous as almost to startle belief have been made, and the investigation is not half completed. The disclosures are chiefly wrung from those who have been engaged in the customs—who are acquainted with the secrets of the prison-house. We are farther assured that the recent astounding statements of "a late custom-house officer," as published in the Express, have been sustained,—and we have also learned that those statements have actually and truly been derived from those lately in the custom-house, who have stood high with 'the party."

The Supreme Court of Ohio, siting at Lebanon, Warren County, Judges Lane and Hitchcock, on the Bench.—Judge Lane delivered the opinion of the Court. That if the owner of a slave *voluntarily* bring him into this State, or permit him to come, although it should be for the purpose of visiting or travelling through from one state to another, the slave in such case becomes a free man the moment he touches the soil of Ohio.

BATHING.

ONE OF THE SUREST WAYS OF PROMOTING HEALTH.

It is surprising to observe how negligent we are of many of the greatest benefits of which we might avail ourselves.—merely because they are *cheap and simple*,—within the reach of all. Thousands of dollars are annually squandered in the payment of doctor's bills, and for nostrums of unprincipled quacks—countless hours of misery draged out in sickness—those sands of life thrown away, by rejecting the simple practice of Bathing. If the practice were attended with expense and difficulty, it would be published as a panacea for 'all the ills that flesh is heir to.' Then its value would be realized and improved! Yet let us consider, that simple as it is, it is no less valuable.—Every man, we know, cannot afford to furnish a bathing room—to visit his baths daily. But a piece of sponge, and a few yards of crash—the coarser the better—are within the compass of every body's purchase.

If, every morning, and when the heat was oppressive, every evening, the whole surface of the body were bathed with a sponge, and the pores of the skin open and cleansed with a crash towel, the population of the city and country in which so excellent a custom prevailed, would be *remarkable for health*, let the climate be what it might. A strength, nerve, and solidity of flesh would be gained by the process which would set at defiance the heat of summer and the cold of winter.

Thousands of diseases which now haunt our communities would become obsolete. Thirst would not be so much affected, and the temptation to indulge the stomach with fluids, would be removed. This practice, by imparing and preventing digestion, is one of the most injurious as well as prevalent, whether the liquids be in the form of alcohol, or plain cold water. A healthy state of the skin would diminish the practice by taking away the inducement.

These facts are invariably supported by the testimony of medical merit,—and shown by experience. The frequent application of water to all parts of the body cannot then be too much urged on ALL persons who value life and health.

E. R. HOOPER, Assistant Editor.

The Proprietor of the Gazette having engaged the assistance of E. Richardson Hooper, Esq., of Cambridge, Md., and recently Editor of the 'Chronicle' of that place, in the management of the editorial department of the paper, proposes to increase the circulation of the Gazette in the Counties of Dorchester, Somerset and Worcester, with the view of promoting the interest of the Whig party in the approaching Gubernatorial canvass. That canvass will doubtless be warmly contested, and the advantages to be gained from having a paper reflecting the sentiments of the Whigs freely circulated among the people, are too obvious to need enforcement from me. The opposition party will undoubtedly make every exertion to increase the circulation of papers friendly to their cause, and should be met by a corresponding effort on the part of the Whigs.

The Gazette is printed every Saturday Morning, on fine Imperial paper, with plain type, and, in addition to politics, is devoted to agriculture, literature, and general news. The facilities for obtaining the latest and most interesting items of information are unequalled by any Journal on the Shore.
