THE TEARS OF SCIENCE.

BY B. B.

At the seat of Instruction where once she was bless'd,
Fair Science sat mourning with sadness oppress'd;
Her Maps and her Volumes lay scattered around,
Her Globes all in fragments were strewed on the ground.
There lay in rude tatters the relics of Sense
The waste and destruction of Genius immense,
She sighed, shook head—and with anguish began,
Alas! for the boy that believes he's a man,
When his stature grows tall and his fingers begin,
To stroke the *soft down* that comes over his chin;
When he talks of assemblies, assumes the fine air,
Falls in love as he calls it, and dreams of the fair.

This school and these statutes I claim as my own:
Here my precepts were utter'd my maxims made known,
I displayed the fair hours for wisdom design'd,
And the lasting contents she bestows on the mind.
I opened my treasures, around me they came:
And I raised their ambition for glory and fame.
They hear'd me with rapture, I saw in their eyes—
Fair Hope, Emulation, and Genius arise.
I hail'd the glad omen, my children I cried,
Let no pleasing object your bosoms divide,
Till crowned with fair virtue, with learning refin'd,
I restore you a blessing and joy to mankind.

Ah! fond expectation! I saw with despair,
How soon they forsook me to wait on the fair—
While I talk'd of Planets, that roll'd thro' the skies,
Their minds were on dimples. and beautiful eyes—
I laid down Postilions, and strove to explain,
They thought of Eliza, Maria, and Jane.
I saw a fine youth, as apart he retired,
He seemed with the ardor of Science inspir'd;
His books and his pens were disposed in due place,
And deep lines of thinking, were marked in his face.
Sweet hope in my bosom was beginning to swell,
And I loved the dear lad that could study so well,
Nor shall my assistance be wanting I cried,
I'll crown thy exertions, and sprang to his side.

Alas! an acrostic, the verses were plan'd—
The name was all written—the letters were scan'd,
The initials arranged to promote the design,
And his genius was working to get the first line;
I shut up my Euclid—I blushed for myself,
I laid Blair and Murry, again on the shelf
Disappointed, ashamed and o'ercome with regret,
I uttered a wish I shall never forget—
That all the fair maidens my counsel would prize,
And shun every lad 'till he's learned and wise.

Easton Academy.

This old and respectable Institution is located in Easton, Talbot county, Md. From its central position and its convenience of access both by land and water, Easton appears particularly eligible as a site for a Seminary of high character and especially as the seat of Education, for the Eastern Shores of Maryland and Virginia. The practice which has long prevailed among Southern gentlemen of sending their sons or wards *abroad* for education is now being gradually abandoned and a disposition is generally manifested on the part of parents to avail themselves of the means of Education offered *at home*—the Seminaries of the Southern States, being in consequence better patronised and offering more liberal inducements to teachers, are daily assuming a more elevated character.

Among these it is confidently believed that few, if any, of equal pretensions, possess higher claims to public favour than the Easton Academy. This Institution is under the direction of Dr. Edwin Arnold, a gentleman who has been engaged in the profession of teaching for the last fifteen years (eighteen months of this time in Easton) and with uniform success, as the testimonials in his possession abundantly prove. He is assisted by Mr J. D. Trask a graduate of one of the most respectable Colleges in New England who is also eminently qualified for the duties of his profession. From the united efforts of these gentlemen, the reputation of the Academy has been greatly elevated, and the number of its punils, especially in the higher department largely augmented. The Recitation rooms have recently been newly furnished, a lecture-room prepared, and a liberal appropriation has been made for the purchase of Philosophical apparatus. Courses of lectures are now being delivered on Geology, Natural Philosophy and Physiology which are attended not only by the pupils but by a large portion of the most respectable members of our community. For the accommodation of pupils from a distance, Mr. Trask has made arrangements with the lady at whose house he resides, to receive after the first of April next, a limited number of young gentlemen as boarders. They will there be constantly under the superintendance and direction of Mr. Trask, while their personal wants and comforts will be carefully attended to by a lady peculiarly qualified for this office. Confidently believing that our Academy under its present auspices, offers advantages for education possessed by few Institutions of similar pretensions, we earnestly recommend is to the patrenage of parents and especially to those of the Eastern Shores of Maryland and Virginia.

The academical year consists of two sessions, commencing respectively on the first Monday in April (preceeded by a vacation of two weeks) and the second Monday in October (preceeded by a vacation of six week.)—At the close of the winter session, a public examination of the pupils takes place.

Terms.

For board (including fuel, lights and washing) and tuition, for the Academical year, including the spring vacation of two weeks, $150; one half payable in advance—unless reference be given to some gentleman residing in Easton or its vicinity.

N. B—At the end of every month a report of progress and conduct of each pupil, with a specimen of his penmanship and composition, is sent to each parent or guardian.

T. R. LOOCKERMAN,
President of the Board of Trustees.

TESTIMONIALS.

Having had an intimate acquaintance with Mr Thomas D Bell for a number of years affords me pleasure to express my conviction that he is admirably quali fied by his talents, attainments and experience, for the instruction and government of a select school for young ladies. The Female Seminary in Oxford, Pa has been under his direction and tuition since its commencement; and having attended all its examinations, I am prepared to say that his pupils would *compare well* with young ladies in the highest seminaries of a similar kind, in any part of our country. I have frequently attended examinations in the celebrated schools of New England, and I hesitate not to say that Mr. Bell has as systematic a course of instruction and has given as complete an education as may be found in the very best schools.—Mr. Bell removes to Newark, Del, an exceedingly healthy and central village, where he designs still to carry on his school with increased facilities to afford an accurate and thorough knowledge of all the solid and polite branches of a complete female education.

It is also due to Miss Bell to say that the pupils in Music under her care, performed admirably and *never failed* to delight the audience of every examination.

I therefore cheerfully recommend Mr. Bell and also Miss Bell as eminently qualified for their respective stations.

Mamma Kitty's SALVE,

NOW FOR THE FIRST TIME OFFERED TO THE PUBLIC.

The good effects of this salve have been known among the friends of the now proprietors upwards of fifty years, and was introduced by a worthy and benevolent old German lady who was for many years known in the city of Baltimore by the name of Mamma Kitty, from whom the slave took its name. Mamma Kitty came to this country about sixty years ago with a German physician who settled in the city of Philadelphia under whose direction she made this salve, and used it with great success. Afterwards she moved to Baltimore, and lived as a nurse in the family of the Late Lewis Pascault, Esq. and continued to use her salve in that family and among her friends until her death, previously giving to the now proprietor, the receipe of the preparation together with some of her salve, which has only been used in his family and among his friends until this time. But having found a great demand for it at home and abroad, and through the earnest solicitation of physicians and friends, we are now induced to offer it to the public.

The above salve is confidently recommended in all cases of old unhealthy sores and ulcers See the accompanying recommendations.

DR CHATARD'S CERTIFICATE.

Dear Madam:—I was well acquainted with Mamma Kitty—she was a benevolent old woman, who more than once related to me the wonderful cures operated by her salve—And I believe she was incapable of telling an untruth. I can certify (so far) by the good effect that salve has produced in my own family, that it is an excellent composition. And the best proof I can give you of my faith in its curative power, is to desire you to send me five boxes of it for the cash here enclosed, $5.

Very respectfully,
Your most ob't serv't
P. CHATARD, M. D.

Baltimore, May 2d. 1841.

DR S. T. RUSSUM'S CERTIFICATE.

I have for fourteen years past been intimate and the family physician, in Mr L. C. Pascault's family. and have frequently had the opportunity to observe the good effects of a salve made by Mrs Pascault, (called Mamma Kitty's salve) and do not hesitate to say, that it is an excellent *digestive* preparation. and is worthy the attention of medical men as well as others, in all cases of *sanious sores or indolent ulcers.*

SYDENHAM T RUSSUM, M. D.

Wye Mills, 27th June 1841.

MRS PASCAULT.—Madam—This is to certify, that I was bitten by a dog on my ancle the third day of January, 1837, and was attended by three eminent physicians until August, 1839, and made use of a variety of popular applications, all of which failed in giving relief. When I heard of Mamma Kitty's salve I procured some from you, and in seven weeks from the time I commenced using it, my leg was healed over; the sore extended from the end of my toes nearly to my hip, and was swollen to three times its natural size, and I expected it would have to be cut off—indeed the Doctors thought so. I am now seventy years old, and my leg feels as well as ever it did. My faith was so great in the healing qualities of your salve, that one of my family had a bone film, and her child a tetter worm on its head—they applied the salve, which made a perfect cure. One of my grand children has had very sore eyes from its birth—I anointed them with the salve, and it has entirely taken the inflammation out.

Yours, with respect,
MARY LEWIS

Kent Island, March 20th, 1841.

DEAR MADAM—According to your request I have examined the certificate of Mrs Lewis, and believe the facts stated by her as regards herself to be perfectly correct. I saw her leg frequently before the use of your salve and several times since and can certify it has made a perfect cure. So far as I have had an opportunity of witnessing the effects of your salve, I believe it to be good, and entitled to the attention of the public.

SAMUEL HARPER, M. D,

March 24th, 1841.

DEAR MADAM—Do me the favor to accept my sincere thanks for the present you kindly made me of your valuable salve I am happy to state that it has made an entire cure of my servant, who laboured for several years with a scrofula affection which baffled all the skill of the physicians that attended him. The disease was so severs that he lost several pieces of bone from his ancle and was entirely disabled from labour. I have used it in several cases in my family for burns, swellings, inflammation, &c. &c. Let me again entreat you not to withhold so valuable a treasure from the public, for I candidly believe it has not its equal. Yours, very respectfully,

CHARLES LEWIS.
