EASTON GAZETTE

EASTON, MD.

Saturday Morning, May 14.

TALBOT COUNTY COURT.—The Spring term commences on Monday next.

The City of Baltimore we presume will be full to overflowing next week—On Monday the great Military Encampment takes place. We understand the President of the United States and Gen. Scott, will be present to review the troops. A Military Convention, Temperance Convention and the Canton Races, all come off during the week. The Steam Boat Maryland, it will be seen by advertisement will make an extra trip to accommodate those of our citizens who wish to attend.

VIRGINIA ELECTIONS.—The Loco Foco majority on joint ballot in the Virginia Legislature will be about forty.

THE TARIFF.—The Report of the Secretary of the Treasury upon the revision of the Tariff, which was communicated to Congress on Monday, has been ordered to be printed, together with the draft of the Bill which accompanies it.

FROM MEXICO—LIBERATION OF AMERICAN CITIZENS—Letters from Vera Cruz have been received at New Orleans stating that Mr. Kendall, of the New Orleans Picayune, and six other Americans had been released by Santa Ana—Gen. Thompson had reached Mexico some days before, and it was thought that his active and decided course had effected their liberation—[Balt. Amer.

☞MR. CLAY arrived at Lexington Ky., on the 2d inst., in good health.—He was welcomed by a large cavalcade of his fellow crizens.

Madame Rumour points to Mr. Calhoun as THE Opposition candidate for the Presidency. He will be "nullified" by the People.

EXTRA SESSION.—Governor Fairfield has determined on calling an Extra Session of the Legislature of Maine—to submit the proposition to that body, of Lord Ashburton.

J R GIDDINGS, re-elected a Representative in Congress from the State of Ohio to fill the vacancy caused by his own recent resignation, took his seat yesterday in the House His majority over his opponent (Locofoco) was about three thousand votes.—[Nat. Intel.

HAIL STORM.—The Wilmington (Del) Gazette of the 5th inst. says—There was quite a heavy hail storm in this city and vicinity on Sunday afternoon last, about 6 o'clock. It lasted but a few minutes and was succeeded by a very remarkable change in the atmosphere.

☞Pennington's flying machine is receiving attention in the Senate. He probably will receive an appropriation to enable him to construct it—the expense will not be great, and some, among the rest, Senator Preston, suppose it may be very useful in time of war.

Correspondence of the American.

WASHINGTON May 12, 1842.

The affair between Messrs. Wise and Stanly it is believed, is coming to a crisis. Mr. Stanley was not in his seat today, and left last evening for Bladensburg. Information to this effect was communicated to the Marshal of the District, who is on the *qui vive* to prevent a duel from taking place within the ten miles square. Mr. Wise was in his seat part of the day. It is believed that preliminary steps to a challenge have been taken. Mr. Stanley of N. C. will send the challenge. I give all this as but rumour.

☞The Alton Telegraph states that the wheat crop throughout the State of Illinois never looked more promising than now; and, unless great changes take place for the worse, Illinois will yield, this season, double the quantity of wheat ever before produced within her borders.

GERMAN WHEAT.—The most beautiful crop of wheat we have ever seen thus early, is one of the above description, growing on Dr Jos. E. Muse's Appleby Farm, near this place. It was about waist high and heading out on the 30th of last month—and from present appearances will be fit for mowing at least two weeks before our common wheat.

[Cambridge Chronicle.

'A Southern Planter,' through the Picayune, has invited Lord Morpeth, now in that city, to acquaint himself with the actual condition of Southern slaves; and he ventures to assert, that amongst the hundred and seventy thousand within the limits of Louisiana, he will find more comfort and more happiness than are enjoyed by any portion of the laboring classes in Europe.

THE ENCAMPMENT.—We learn from the Clipper that a large number of military companies from a distance will certainly attend the encampment on the 16th inst. Thirteen companies have already concluded to be present, to wit. one Rifle company from Washington, two from Ellicott's Mills, and one from York, one Infantry company from Ellicott's Mills, two from Frederick, one from Westminister, one (Highland Blues) from Winchester, one from York, two from Washington, and one Artillery company from Charlestown. Several troops of horse will also be present, and no doubt many other companies, from whom no announcement of the fact has yet been received.

THE ENCAMPMENT.—The General Committee of Arrangements for the Encampment to commence on the 16th inst. are actively engaged in the performance of their many and important duties, and we are pleased to hear that there is every prospect of the affair going off in a manner that will be gratifying to all concerned. The following is a list of the principal officers of the Encampment:

Commander-in-Chief—Maj. Gen. G H. Steuart.

Adjutant General—Col. Horace Bliss.

Quarter-master General—Col. H. W. Fitzhugh.

Paymaster General—Col. N. Hickman.

Surgeon General—Professor N. R. Smith.—[Patriot.

ENCAMPMENT.

We understand says the Baltimore Patriot that Governor Thomas has written to the President of the Baltimore and Ohio Railroad Company, assenting to the reduction of the fare on the Washington branch to $1,25 in favor of Volunteers coming to and returning from the Camp. and that the Railroad company have promptly and liberally agreed to reduce the fare accordingly.

THE APPORTIONMENT BILL.—The Apportionment Bill which passed the House of Representatives, fixes the ratio of representation at 50 179 of Federal population for each representative. This will make the House to consist of 306 members, distributed among the States as follow:

Maine	10	South Carolina	9
New Hampshire	5	Georgia	11
Massachusetts	14	Alabama	9
Rhode Island	2	Mississippi	5
Connecticut	6	Louisiana	5
Vermont	5	Tennessee	15
New York	48	Kentucky	14
New Jersey	7	Ohio	30
Pennsylvania	34	Indiana	13
Delaware	1	Illinois	9
Maryland	8	Missouri	7
Virginia	21	Arkansas	1
North Carolina	13	Michigan	4

In reference to the passage of the tariff Bill at the present Session of Congress, the National Intelligencer says—

Observing, from the current of newspaper reports and discussions, that a serious doubt appears to be entertained of the intention or disposition of Congress to pass a Tariff Bill of any sort at this Session, we think it right to state it as our impression, from some knowledge of the views of individuals, that Congress is fully aware of the necessity of enacting a Tariff for revenue that shall be adequate to all proper and usual wants of the Government and will not shrink from the discharge of the duty which that necessity devolves upon it. An effective Tariff will be established, we have no doubt before this Session closes.

Lord Morpeth arrived in Lexington on the 4th inst. and proceeded immediately to Ashland, the residence of Mr. Clay, where he was to remain a short time.

THE NORTH EASTERN BOUNDARY.

Mr. Webster's letter to the Governors of Massachusetts and Maine appears in the Madisonian of yesterday. He does not state any specific proposition as coming from Lord Ashbuton, in reference to the adjustment of the Boundary question; but informs the Executives of Massachusetts and Maine that the British Minister has authority, according to his own official announcement, 'to treat for a conventional line, or line by agreement, on such terms and conditions, and with such mutual considerations and equivalents, as may be thought just and equitable; and that he is ready to enter upon a negotiation for such conventional line so soon as this Government shall say that it is authorized and ready, on its part, to commence such negotiation.'

The opinion of this Government upon the justice and validity of the American claim has been expressed, at so many times and in so many forms, that a repetition of that opinion, says Mr. W. is not necessary. But the subject is a subject in dispute. The government has agreed to make it a matter of reference and arbitration; and it must fulfil that agreement, unless another mode for settling the controversy should be resorted to with the hope of producing a speedier decision. The President proposes, then, "that the Governments of Maine and Massachusetts should severally appoint a commissioner or commissioners, empowered to confer with the authorities of this Government upon a conventional line, or line by agreement, with its terms, conditions, considerations, and equivalents, with an understanding that no such line will be agreed upon without the assent of such commissioners. This mode of proceeding, or some other which shall express assent beforehand, seems indispensable, if any negotiation for a conventional line is to be had, since if happily a treaty should be the result of the negotiation, it can only be submitted to the Senate of the United States for ratification."

In answer to this letter from the Secretary of State, the Governor of Massachusetts replies that the Executive of that Commonwealth was already, by resolution of the Legislature, authorized to do whatever might be necessary in the premises, and the Governor of Maine has issued his Proclamation convening the Legislature of that State on the 18th inst.

There is therefore, some prospect now of a speedy and final adjustment of the much vexed Boundary question. We hope that no difficulties will intervene to prevent a satisfactory arrangement. The controversy on this subject has existed too long—and if protracted much longer will cause more expenditures in the way of surveys, explorations, and commissions, than the whole disputed territory is worth.—[American of yesterday.

DAGUERREOTYPE MINIATURES.

This art by which living likenesses are won from the hands of nature herself, and which must rank amongst the most extraordinary discoveries of this era of scientific marvels, may now be looked upon as clearly and satisfactorily reduced to practice. The actual reflection of the sitter's physiognomy and bust is wrought upon a metal plate in the most delicate and powerful tints of light and shade—every line, every touch in the picture produced is from the pencil of nature. Without flattery or fallacy, it is in truth a second self.
