LATEST FROM JAMAICA.—Great Fire at Kingston—1,400 Houses Burned.—The Wilmington (Del.) Republican has late dates from Jamaica brought by schr. Crescent, at that city. A great fire has taken place in Kingston, destroying James' Foundry, Maxwell & De Castle's steam mills, and destroying 1340 houses, independent of out houses attached to the dwellings. Besides which 100 houses were pulled down, to arrest the progress of the flames, making in all, say 1400. The Gazette says over 7000 individuals are left destitute, and dependent upon public sympathy for shelter.—Several persons were injured.

INCIDENTS IN THE BURNING OF THE MISSOURI.—We have heard of two animal occurrences on board this steamer that strike us as singular, and, at the same time characteristic.

There was on board a pet bear, which as the flames were raging became more and more excited, until as they burst forth on the decks, the infuriated animal leaped into their midst and perished.

There was on board a Newfoundland bitch, with her pup. While the men remained at quarters she too remained, going in and out among them as usual, and calmly as usual; but when the last man had left the fated ship, she went to her kennel, took her pup in her mouth, and running out on the bowsprit, sprang into the water and swam ashore without dropping her precious burden.

SOMETHING NEW.—A man was arrested lately, at the Gore assizes, Canada West, for stealing a trunk and its contents.—The theft was committed on board a steamboat that plies between Lewiston and Kingston. The trunk was stolen at some time while the boat was on her way from Kingston to Lewiston, and the trunk was found in the prisoner's possession; but the Judge stopped the case, because there was no evidence to prove that the theft was committed while the boat was on the Canada side of the boundary line; of course, if committed on the American side the Court had no jurisdiction.

All this is clear enough; but now comes the pinch of the case. The owner of the trunk applied to the Court that it might be restored to him, but this the Court refused, saying that the prisoner must first be convicted; the prosecutor must apply to the Governor of New York for a requisition on the Governor of Canada, to have the thief surrendered for trial in New York, and then he must be prosecuted to conviction in New York, before the property could be restored. The owner did not choose to take this trouble so the prisoner was discharged—taking the trunk with him, of course. This seems to be a rather crooked course for justice to pursue.—Com. Adv.

TERRIBLE ACCIDENT ON THE CHESAPEAKE BAY.—A gentleman who was on board the steamboat Constitution, on her way from Baltimore to Philadelphia, on Thursday evening, (12th inst.) gives the following information to the Spirit of the Times. The Constitution left Baltimore at 7 o'clock, P. M. —about three quarters of an hour afterwards, it being dark the boat suddenly ran into two schooners, laden with oysters, carrying away the bow-sprit of one, and sinking the other directly. The crash was tremendous and the screams of the passengers appalling. Fortunately, there were but two men on board the wrecked vessel, one of whom clambered on board the steamboat unhurt. The other was taken off in a boat, dreadfully mashed, but not fatally injured. As the schooners had no lights up forward, the accident was what might have been expected.

Rockville, Md., Oct. 14.

SEDUCTION AND MURDER.—*A Precious Villain.*—A most revolting case of crime came to our knowledge some days since which we are called upon to record as the facts were stated. Some five years since, a man calling himself Patrick O Cavanaugh, an Irishman by birth, came to our county, and obtained a situation in the capacity of teacher in the neighborhood of the Cross-Roads, in the western part of Rockville District. He there became acquainted with a Mrs. Scott widow of the late Thomas Beall Scott.—After several ineffectual attempts to gain the consent of the relatives of the lady for a union in marriage, it was discovered that he had seduced *her* and while in a delicate situation, they were united and lived together until about six months since, when they separated.—The cause was soon ascertained; he had seduced his step-daughter, a girl about fifteen years of age, who lived in the family. She attended a school kept by her father in-law, as a pupil, until she gave birth to a child, on the 3d October instant. The day after this occurrence, she appeared in the village of Darnestown where the school was kept, and aroused a suspicion in those who had known her situation. She had been forced from her bed to allay suspicion.—A warrant was obtained on Thursday last, and Cavanaugh was arrested at his house, when a search was made for the child. The prisoner stated that the child had died, and was buried in the garden near the house. They then proceeded to disinter the body of the child, when the prisoner interferred, saying 'that the body was so mangled that it could not be recognized as a human being.' The skull and lower jaw of the infant, upon being examined by Dr. Beall and others, was found broken, and the body otherwise mutilated. The jury upon the case gave a verdict according to the evidence 'that the child came to its death by violence inflicted by Cavanaugh,' who was fully committed to Montgomery county jail, to await his trial at the November term of the county court for the murder of the child of Margaret A. E. Scott.—The prisoner is about thirty-five years of age, of a repulsive appearance, and has been in this country about nine years. He has generally borne a bad character in the neighborhood where he resided; as he was accused of inducing his step-daughter to steal $100 from her grandfather. The money having been found upon him.—[Journal.

THE VATICAN.

The Vatican, in the 'Eternal City,' is more than 1,000 feet long, nearly 800 feet wide—contains eight grand staircases and 200 smaller ones; 20 courts and 4,422 apartments—and a library of 387 000 printed volumes and 23,000 manuscripts. So says a foreign correspondent of the New York Tribune.

☞The ship Adelaide, Captain Adams from Havana, arrived at New York on Friday, having on board His Excellency General Valdez, Ex Governor of Cuba, private secretary and servant, His Excellency A. de Laroia, late Intendente of Havana, and his secretary, Don Catiste Aguire. They were taken from the French barque Havannais, at sea, which vessel was dismasted in the late hurricane off Charleston.

The Delaware Republican of Monday announces the death of Nicholas G Williamson, Esq., Mayor and Postmaster of that city.—The editor adds:—He had been ill for some weeks past, and departed this life early yesterday morning lamented by a large circle of personal friends and relatives. He leaves behind a numerous and interesting family to mourn his loss.'

THE DEATH OF SENATOR LINN

The St Louis Democrat of the 6th inst says—"It is with sensations of sorrow that we announce to our readers that LEWIS F LINN, the distinguished Senator in Congress from this State is no more. His death, which took place at St. Genevieve happened on Tuesday, 3d inst. at 12 o'clock, M., and was very sudden. He took dinner in apparent good health, retired to take a short sleep, and remaining longer than usual, he was sought, and found dead. In the wide circle of attached friends, by whom he was so much admired, there are, doubtless, those who will do fitting honour to his memory.—To the world at large, it will be a sufficient eulogy to say that the respect and esteem so universally paid to his public character, followed him into all the walks of private life."

COMMON SENSE ASKS
WHY ARE THE
STAINBURN PILLS
superior to all others?
EXPERIENCE ANSWERS
because in the first place they are composed entirely of twenty seven vegetable ingredients, and nothing but the extracts from those ingredients, are used: the gross ser particles, or those which irritate the system, without doing good, are not suffered to enter into their composition.

In the second place, they mix with our daily food, and while they open the bowels, give tone and strength to the digestive organs.

Thirdly, because they excite to action the stomach and bowels, the Great purifiers of the system, and carry off every injurious excess of matter there deposited, whether of improper food or biliary secretion; and,

Fourthly, because they require no extraordinary care in diet or clothing, the body being less susceptible of cold when under their influence than at any other time.

EASTON ACADEMY.

The second or winter session of this Institution will commence on Monday the 9th day of October, and the Board of Trustees announce to the public that the duties will be resumed under the superintendence of Mr JOHN NEELY, favorably known for many years past, as an accomplished Scholar, and a most efficient Teacher.

The course of instruction will be of an extensive character, comprising all the branches of an English education, the Latin, Greek and French Languages, and in both departments of languages the literature of each, together with ancient and modern History

The Mathematical course will include the higher mathematics, and pupils will be prepared for admission to any class in the Colleges or Universities of the United States; for entering upon commercial pursuits or engaging directly in the studies preparatory to either of the learned professions

An ample philosophical and chemical apparatus has been procured at no inconsiderable cost to the Trustees, and this institution, liberally endowed as it is, merits the patronage of parents and guardians in this and the adjoining counties.

The Board respectfully refer to the Rt. Rev. Bishop Wittingham; to the Rev. Dr Wyatt; to Walter Fernandis, Esq. and to John H. Alexander, Esq. of Baltimore to Thomas Stevenson Archer of Harford county, to Thomas Hayward Esq of Dorchester county to William A Ford Esq of Caroline county; and it is referred to many other reliable sources as to the personal and professional excellence of Mr John Neely.

This gentleman is a graduate of Trinity College, Dublin, but what is far more substantial, he has attracted to himself the sincere regard and entire confidence of all those who have entrusted to him the education of their sons.

The Board deem it a matter of much moment that youths from a distance should be placed under the immediate eye of the principal of the academy; but excellent accommodations may be had in respectable families in the town at the usual rate of $40 per month.

All applications, enquiries, &c should be addressed to John Neely, Esq. Principal of the Easton Academy; but any information will be cheerfully given by application to either of the undersigned in behalf of the Board of Trustees

MEDICAL DEPARTMENT

THE annual course of lectures in the Medical Department of the University of Maryland will commence on the last Monday of October next, and be continued till the first day of March following.

The course of instruction will consist, as usual, of lectures on the Theory and Practice of Medicine, on Obstetrics and Medical Jurisprudence, on Chemistry and Pharmacy, on Surgery on Materia Medica and Therapeutics, and on Special and General Anatomy.

The well know advantages of the University of Maryland, its spacious halls, its unrivalled apparatus, the abundant and cheap materials for the pursuit of practical Anatomy afforded by the city of Baltimore, and the ample resources of the valuable Museum belonging to the College, leave nothing to be desired by those who attach themselves to it as students of the various departments of medical science

The lessons of the Professors of Surgery, of the Practice of Physic, and of Therapeutics will be illustrated by daily clinical instruction in the wards of the Baltimore Infirmary—This institution, which is connected with the College and in its immediate vicinity, presents at all times a number and variety of cases amply sufficient to afford to Students an acquaintance with the practical application of the principles of Medicine and Surgery. Constant opportunities occur during the session of witnessing in it important surgical operations

The Professors of the several branches, thus provided with all the necessary and desirable means of aiding students of medicine in the acquisition of a thorough professional education will make every exertion to promote the interest of their pupils, and to prepare them properly for the arduous and momentous duties of the medical profession
