Correspondence of the American,

WASHINGTON, Feb,y. 27, 1844.

The Supreme Court this morning delivered its opinion in the important case of Stephen Girard's heirs versus the city of Philadelphia. The opinion was very elaborate and of great ability. It was drawn up and read by Mr. Story, and the opinion is favorable to the city of Philadelphia. All the Judges except the Chief Justice were present.

TAX BILL.—In the Senate on Friday, 23d ult. W. T. Goldsborough, Chairman of the Committee of Finance, in behalf of a majority of the committee, made a favorable report upon the Bill which passed the House of Delegates some days ago, for the further valuation and assessment of property, and the more effectual levying and collection of the taxes to pay the debts of the State—whereupon the bill was read the second time, and, on the further motion of Mr. Goldsborough, made the order of the day for Wednesday the 28th.

THE TARIFF AS IT IS.—The facts set forth in the following article, published in the New York Courier of Monday, furnish a full and conclusive answer to the objections which have been urged against the present Tariff as being a measure ruinous to the country:

UNPRECEDENTED RECEIPT OF REVENUE.—We learn that the receipts at our Custom House, from the 1st to the 24th instant inclusive, were two millions sixteen thousand five hundred and eighty six dollars and eighty three cents—$2,016,586 83.

This fact ought to be accompanied by another:

There have arrived at this port, between Saturday the 10th and Friday the 23d instant inculsive, (14 days) 69 ships, 41 barques, 84 brigs 152 schooners, from the following places: New Orleans 25 ships, 11 barques, 12 brigs; Mobile, 12 ships, 3 barques, 7 brigs; Apalachicola, 10 ships, 1 barque, 5 brigs; St. Marks 5 brigs; Savannah 3 ships, 6 brigs; Attakapas Cedar Key and Baltimore, each 1 brig; Boston 2 brigs. From foreign ports—Canton, 1 ship, 1 barque; Liverpool 4 ships; London, 1 ship; Newport (Wales,) 1 ship; Amsterdam 1 ship; Glasgow, 1 ship, 1 bark; Hamburg 3 barks; Bordeaux, 1 bark; Marseilles, 1 bark; Dundee 1 bark; Rochelle, 1 bark; Palermo, 1 bark West Indies 8 barks; South America, 2 barks and 41 brigs from different ports in South America, West Indies &c. Of the 152 schooners, 20 are from foreign ports.

It strikes us that these two statements, both of them from sources leaving no cavil as to their authenticity, are not very striking evidences of the ruin that was to be brought upon us by the 'black tariff.'

THE CHINA MISSION.—The National Intelligencer says that letters received by the late arrival at Boston from England give information that Mr Fletcher Webster, Secretary to the China mission, arrived at Bombay, in the brig Antelope, on the 11th of November, after a passage of ninety one days from Boston, without disaster or accident. Mr. Cushing the Minister, met with delay and hinderances in Egypt, and at Aden; the English steamer in which he was, having run aground. He arrived however at Bombay, in good health, on the 15th.

The Mission was treated with great respect by the Government (British) at Bombay. The troops turned out, with the Commanders of the Army and Navy at their head, to receive the Minister, and every honor was shown him.

The Mission proceeded with the U. States squadron on the 29th of November for China.

A correspondent of the Alexandria Gazette complains of the unsuitableness of the building which has been erected as a covering for Greenough's statue of Washington, now placed in the eastern yard of the Capitol. He says—

It disparages the generosity and good taste of Congress. It is a miserable shed more fitted for a cow house, than the receptacle of that sublime conception of the genius of Greenough. Already has the barbarian hand impressed upon the Statue marks of defilement and vulgarity.—Some rude persons have defaced its beauty and they have even crawled up to the very top of the statue and have soiled with pencil marks the forehead of the image of the venerable Father of his Country. If the statue remains in its present position it will be thoroughly defiled and unworthy any longer of exhibition. Instead of being a noble spectacle it will become a disgusting one.

INQUIRER OFFICE, NANTUCKET. Wednesday, Feb. 21, 4 o'clock, P. M.

It is our painful duty to record one HEART RENDING OCCURENCE—THE ASYLUM FOR THE POOR BURNED TO THE GROUND! TEN OF THE INMATES CONSUMED IN THE FLAMES! ! !

of the most distressing occurrences that ever took place upon the Island of Nantucket, and we sincerely pray that we may never be called uponagain to note one attended with like consequences.

About two o'clock this morning a fire broke out in the Asylum for the Poor some three miles from town, and in the course of two hours the building was burned to the ground. So rapidly did the fire spread, that those in the house were unable to save any of their effects—and awful to relate ten of the inmates were burned to death. One of those burned, Lydia Bowen, had carried her child to a place of safety, and returned to try to save something, but did not herself again escape the devouring flames. There were 59 persons in the house, besides the family of Captain Timothy Bunker, the Keeper. Capt B. lost all his effects and $40 in money. There were 13 of the paupers bed-ridden—one of them, we were told had not walked for about 20 years.

Extract of a Letter from a Gentleman who has lately visited Rome,

ROME.—This City which occupies but the ruins of ancient and renowned Rome, has such numerous superb edifices, ancient monuments, and magnificent ornaments, that it would occupy a small volume to give an account of those beautiful and stupendous objects which are distinguished either for famous antiquity or modern excellence. Among the 400 Churches and upwards which are to be seen in this City; four claim the first attention, both for grandeur of architecture, and splendour of interior ornament. St Peters Church, which was more than 100 years in building, is said to have cost more than £12,000,000 sterling is perhaps the most beautiful and splendid upon Earth. The length is 730 feet, breadth 520, & the height from the Pavement to the top of the cross 450 feet. The Cathedral of St. Johns a part of the ancient palace of Latern which be onged to the Emperor Constantine the Great. The Patriarchal Church of St. Mary Major, which was erected by the Popes, and the Rotunda, or Pantheon, is the most perfect of the Roman Temples that now remains. I must not omit the three superb Palaces of the Pope, viz the Vatican near St. Peters Church, that of Monte-cavello and the Palace of Latern near the Church of St. John, in which the Popes have been crowned. There is in this city a college for every Catholic nation, in which is a press for printing books in thirty Languages. Rome contains a greater number of monuments of art than any other City in the world, it would require months to see all its beauties and years to become acquainted with them. Trajan's Pillar, which is constructed of Marble 183 feet in height, the diameter is 11 feet at the base & 10 feet at top. The triumphal arch of Constantine, all of Marble. The Amphitheatre of Vespasian 1702 feet in Circumference and 165 feet in height, capable of holding 80 000 spectators. Rome, during the reign of Claudius contained upwards of 4 000 000 Inhabitants, is still a populous City contains at present about 240,000 Inhabitants.

OUR TARIFF.—The N York Tribune gives a statement of the receipts at that port, on account of imports during the last week, which amounted to the rate of forty millions of dollars per annum, for that port alone! The aggregate receipts of the Custom House in that city for the first seventeen days of February have been no less than $1. 523,000!

DISTRUCTIVE FIRE IN NEW ORLEANS.

We learn from the New Orleans papers of the 12th instant that a fire broke out the day before in the Orleans Cotton Press which, before it could be extinguished, destroyed 8 500 bales of Cotton, worth $340 000. The Bee says—

The damage done to the building could possibly be repaired for $25 000, and the engine and two screws for $10 000 more, making the total loss as far as could be estimated by a rough calculation $375 000 which we understand is fully covered by insurance—the cotton in this city and the building in the offices in this city, in London and Paris. This building was considered the largest in the world. It fronts upon the Mississippi and on Rothgnac and New Levee streets, and is 632 feet in front, by 308 in breadth—It was built by an incorporate company at a cost of $753 000, and is capable of storing thirty thousand bales of cotton, which amount we understand, was yesterday morning under its roof. It has been for some years leased to Messrs. Freeland and Behan at the rate of the $25 000 per annum. One of the engines and two of the screws are uninjured, and can be immediately put into active operation.

Another paper states that ten thousand bales of Cotton were burnt, and that the whole loss will probably reach $600,000 or $700 000

THE HUMAN SYSTEM.—So nicely balanced are the checks and balances of the of the human system, that the utmost care is required to preserve the equilibrium. Too much attention cannot be devoted to the subject, and yet how many there are who are careless and indifferent. When the machinery gets out of order, and disease drives health from the body, then they lament over the sufferings brought on by their own negligence. Be cautious and watchful and guard well the citadel, so as to prevent the enemy from entering with impunity. Fortify yourselves with

Stainburn's Vegetable Extract Pills

which have been tried by all ages, sexes, and conditions, and thoroughly proved themselves to be all that is recommended and you are safe. In no case have they failed of performing what has been promised by their scientific compound. The numerous certificates that have been published, warrants us in making this assertion.

Price 25 cents per. box. Office 338 Broadway, N. Y. next door below the Tabernacle.

Said pills are sold in Easton by the agent E. M. DAWSON & BROTHER, and by agents published in another part of our paper.

FARMERS'

FOUNDRY.

THE SUBSCRIBERS grateful for the patronage heretofore received, begs leave respectfully to inform their friends and the public generally, that they now have on hand & are daily manufacturing the most approved

WHEAT MACHINES,

ever offered to the public on this Shore. Their superiority over other machines consists in *simplicity* and *strength*, which will enable us to *warrant* them with perfect safety. Notwithstanding there are numerous Machines used in this county it is a well known fact that they are too liable to become injured and broken from trivial causes, arising from their complicated construction The Machines we now offer to the public have been tested by a number of experienced Farmers both on the Western and Eastern Shore, and have invariably given general satisfaction

They would also call the attention of the public to their extensive assortment of,

PLOUGHS,

Plough Castings,—
Mill Castings, &c. &c.

Their assortment of Ploughs embraces a great variety, viz:

WINAN's Self Sharpner	BEACH Improved ...
DAVIS	BERNARD .....
SINCLAIR & MOOR	WILEY.....
CH NOWITH	PATENT CYCLOIDAL
BEACH	Plough &c .....

The merits of most of the above Ploughs are already well known; but the Wiley and Patent Cycloidal have been recently introduced by us on this Shore, as a valuable acquisition to the Farmer. The Patent Cycloidal, in 1842 took the first premium at the agricultural Exhibition, near Govanstown, Baltimore county, Md. over numerous competitors, composing some of the most celebrated Ploughs of Pennsylvania, New York and Maryland. All our Ploughs are stocked of the best timber, and warranted to run well. We are also prepared to do

CASTINGS
AND
WROUGHT WORK

of every description at the shortest notice, and at City prices. We respectfully solicit the patronage of the public and invite them to an examination of our stock

HUSSEY & HOPKINS.

N. B.—Persons having machines to repair will please bring them in as early in the spring as possible, so as to give full time to do the work in proper manner. H. & H.
