(For the Easton Gazette.)

SEEING IS BELIEVING.

MR. GRAHAM,

I offer you for the inspection of the Agriculturists of Talbot County, the offal and spurious substances contained in four bushels of Etrurian wheat, purchased of Messrs. Bordley & Cox, Commission merchants, Baltimore, at two prices per bushel. For a character of this wheat, see American Farmer Vol. 1. No. 1. page 18.

The offal was collected in the following manner—a brine to bear an Egg is prepared and two bushels of wheat put in a half hogshead and covered with the brine, stirring and skimming the whole mass so long as any thing continued to rise on the surface of the water. This done the pure wheat is taken out of the brine and put in a barrel and slacked lime added and incorporated until a complete seperation of every grain is effected, when it is immediately fit for sowing.

By a close inspection of the offal the day after the first two bushels were thus prepared, beside white caps, I found a variety of spurious grain, Darnel or Cheat &c. The weavel was immediately killed and every thing as the seedsman who prepared it supposed & informed me. While drying that obtained from the first two bushels, I discovered a multiplicity of worms, from an ⅛ to near an inch in length, alive and active, they are white with a brown head, and I hope some of the fraternity who have more leisure than myself will investigate and give us their true character.

I will add that wheat when offered for sale by the merchant should be closely inspected, more particularly when offered as seed wheat under a high character.—The farmers buy much filth we know from other States, in their clover seed and seed wheat, but we expect better management in Old Maryland, so famed for the quality and purity of her wheat generally. It is an imposition on the public to advertise a valuable grain for seed and sell them trash.

The purifying by brine and lime, is strongly recommended in all the agricultural works I have access to, and the farmers who practice it, will, I have no doubt, be amply remunerated.

Your obt. servt.
WM. H. TILGHMAN.

Married.

At St. Andrew's Church, Philadelphia, on the 18th inst., by the Rev. John B. Clemson, Dr. James D. Trask, of Brooklyn, N. Y., to Jane C. daughter of the late Thomas O'Farrell, Esq., of Belfast Ireland.

DIED,

In this county on Thursday, the 18th inst., Benjamin Franklin, son of Francis & Emeline Jump, in the 12th year of his age.

In this town, on Thursday morning last, 25th inst., of Inflammation of the brain, MARY NEELY, daughter of John and Susan Neely, in the 10th year of her age.

Nature had gifted the youthful subject of this notice with no ordinary genius—cultivation developed intelligence of no ordinary comprehensiveness. The study of books was the charm of her existence. In the atmosphere of the library she inhaled full draughts of solid pleasure. If at times her eye sparkled, or her bosom swelled amid the exciting sports of the nursery, or play ground, these periods of amusement furnished the exception to a life whose hours were devoted to the pursuits of maturer years. Of rare attainments in general science and accomplished above her age in music and drawing, she was the subject of universal admiration; while the gentle, affectionate and amiable traits of disposition with which all these were blended served to render her equally an object of the fondest idolatry. With the form of childhood was indeed associated the experience of age. The fresh bud had become in a day the ripened fruitage.

But the toils of her short day are over. The book of truth just opened before her, has been shut up from the thirsting eye forever. For her are no high plans, no burning thoughts, no kindling aspirations of the future. In the place of these are darkness, silence, and the lone grave. Yet how eloquent is each sad memorial—the volume on whose pages she loved to pore—the sheet over which her own pencil has so often strayed—the keys of the instrument which her own little fingers so often awoke to the melody of sweet sounds. Something of a spirit, passed into the holy region of the dead, still lingers around each treasured memento, and whispers to the heart of the mourner the memory of her worth.

Lovely in life she was calm and beautiful in death; and the sunbeam which gladdened and lightened every heart upon which it shone on earth, has been but merged into the purer radiance of a brighter and more enduring world.

Early, bright, transient, chaste as morning dew
She sparkled, was exhaled, and went to Heaven! C.

VERY VALUABLE REAL ESTATE FOR SALE.

THE subscriber having determined to dispose of a very valuable portion of his real estate, has caused the same to be divided into some fifteen or eighteen farms, containing respectively from sixty to one hundred and seventy acres of

ARABLE LAND,

advantageously and handsomely situated on the waters of Wye and St Michaels rivers in Talbot county. To each of these farms a sufficiency of

Wood & Timber Land

will be added to suit purchasers.—These lands generally are in a high state of cultivation, and possess considerable resources for improvement; and the facility of communication by water with the Baltimore market, renders them very desirable.

The terms of sale will be a cash payment of one fifth of the purchase money; the residue to be paid in ten equal semi-annual instalments to be secured by bond and security, with legal interest thereon.

Should these lands not be disposed of at private sale before Tuesday, the 7th day of October next, they will then be offered at public sale at the front door of the Court House in Easton, between the hours of 10 and 5 o'clock of that day. Persons desirous to purchase are invited to view the premises, which will be shown them by the subscriber.

EXTENSIVE PUBLIC SALE OF

PLOUGHS,

WHEAT MACHINES, CORN-SHELLERS, CASTINGS, &c.

THE subscribers would respectfully call the attention of Farmers to a large sale of stock of the above description, which they intend offering at their foundry in Easton on

TUESDAY the 30th inst.

The stock of PLOUGHS embraces a great variety, among which are 100 of the celebrated BEACH IMPROVED,' which have given universal satisfaction, both as regards ease of draught and the superiority of the furrow over any others now in use on this shore.—Their

Wheat Machines

are fitted up in a very strong and substantial manner, and they feel confident will, upon a fair trial, give entire satisfaction to purchasers.

The Corn-Shellers

are of two kinds: one for horse power, made on the plan of "Obed Hussey's" of Baltimore, and the other for hand, similar to those manufactured in New York. Both of these have a reputation not excelled by any others.

A large lot of Castings

will also be sold, comprising mould boards, shears, heels and machine castings of every variety.

The terms of sale are a credit of six months on all sums of ten dollars and upwards the purchaser giving note with approved security bearing interest from the day of sale; the cash will be required for all sums under ten dollars: the above conditions to be complied with before the removal of the property. This sale offers great inducements to farmers to purchase *low*, and will take place at the proper time for them to lay in their fall stock.

HUSSEY & HOPKINS,
Farmers' Foundry.

HEMSLEY'S VEGETABLE TONIC,

PREPARED BY

R. F. HEMSLEY,

PHARMACEUTIST.—Easton Md.

NO MEDICINE has acquired in so short a time so deserved a popularity; and none is prepared to present so honorable an array of certificates from the FACULTY OF MEDICINE and private individuals throughout the State as *Hemsley's Vegetable Tonic.* In moderate doses, regularly taken, this medicine is a sure preventive of Fever & Ague and Bilious Fever, while it affords in most instances a permanent cure when employed for the removal of these diseases In all cases of general debility arising from old age, protracted illness, or uniform delicacy and feebleness of constitution it is without question one of the most agreeable and efficient tonics ever offered to the public. Let all who are afflicted apply to this remedy with the full expectation of perfect relief It promises nothing which it is not competent to perform; and must in a very short time be the remedy preferred to all others in the various forms of Fever and Ague and in cases of general debility. Full directions for using it will accompany each bottle.

Certificates.

The undersigned, Physicians of Baltimore, having been made acquainted with the ingredients composing "*Hemsley's Vegetable Tonic,*" have no hesitation in saying that the compound, it properly used, cannot fail to conduce greatly to the accomplishment of the object proposed in its employment; and do therefore cheerfully recommend it to the afflicted public

J. K. MILLER, M D.
Former President of Washington Med Col and Profesor of Anat. Physiology, &c &c.

SAML. K. JENNINGS, M, D.
Profes. Materia Medica and Therapeutics, Washington Med. Col

G R. WRIGHT, M. D
THOS OWINGS, M. D.
Fayette Street.

The preparation made by Mr. Hemsley Apothecary, Easton, Maryland, and known as "*Hemsley's Vegetable Tonic,*" is in my opinion the best article ever offered to the public for the radical cure of that distressing affection, Intermittent Fever. This composition forms a pleasant bitters, and furnishes a most desirable tonic in cases of constitutional debility resulting from natural infirmity or the ravages of disease. I have recommended this medicine extensively in my practice and have always found it to answer the desired purpose.

CHRIS C COX, A. M M D.

Mr. R. F. Hemsley, Sir:—This is to certify that for a long time I labored under the debilitating influence of that dreadful disease, *Ague & Fever,* and had recourse to many remedies recommended to me by Physicians and others, all of which proved unavailing. I heard of your celebrated '*Vegetable Tonic,*' of which I procured two bottles, and before I had taken it all I was entirely restored, and have not since felt any symptoms of its return. It has accomplished more in my case than all other remedies put together, and I most cheerfully recommend it to all those persons who may be laboring under this most wretched disease.

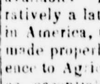

JOHN BAILY,
Balto June 20, 1845 Pitt Street.
R. F. HEMSLEY.
Easton, Aug. 9, 1845—tfn

PROSPECTUS OF THE

FARMERS' LIBRARY AND *MONTHLY JOURNAL OF* AGRICULTURE.

JOHN S. SKINNER, EDITOR.

NONE can have well studied the true sources of National welfare without perceiving the natural and friendly connexion existing between Manufactures, Commerce and *Agriculture.* The policy which strikes at the prosperity of the Manufacturing *consumer,* must damage the Agricultural *producer,* and neither can be injuriously affected without detriment to the Merchant, at once consumer & carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistance, should be encouraged and benefitted with every advantage that science can confer and the most enlightened industry make available? Yet it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of Science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit—one which should imply for its followers high mental cultivation and various attainments. Happily, however educated young men are now betaking themselves to Farming as a business, which, like the learned professions has its own principles and will have its literature; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interesting results of scientific investigation, than Agriculture? Who, among modern Literati, enjoy more enviable distinction than LIEBIG and JOHNSTON, BOUSSINGAULT and CANDOLLE? The taste for Agricultural Literature in our country, thanks to the able journals that encourage it, keeps pace with its progress in Europe The more fully to meet the demand thus created, we have decided to publish on the first day of July, and monthly thereafter, the FARMERS' LIBRARY and MONTHLY JOURNAL OF AGRICULTURE to be edited by JOHN S SKINNER late Assistant Postmaster General, and founder of the first Agricultural periodical published in this country—Each number will consist of two distinct parts viz:—

I. THE FARMERS' LIBRARY, in which will be published continuously the best *Standard Works* on Agriculture, embracing those which, by their cost or the language in which they are written, would otherwise seem beyond the reach of nearly all American Farmers. In this way we shall give for two or three dollars the choicest European treatises and researches in Agriculture, costing ten times as much in the original editions, not easily obtained at any price, and virtually out of the reach of men who live by following the plow. In the Farmers' Library they will be accompanied by notes from the Editor, explaining what may be obscure to American readers, or calculated to mislead the beginner in Farming, owing to differences of Soil, Climate &c. The works published in the Library will form a complete series, exploring and exhibiting the whole field of Natural Science, and developing the rich treasures which Chemistry, Geology and Mechanics have yielded and may yield to lighten the labors and swell the harvest of the intelligent husbandman. The work will be so arranged that the Farmers' Library may be bound up by itself, forming a mammoth volume of 600 pages at the end of each year; or each work contained therein may be bound seperately.

II THE MONTHLY JOURNAL OF AGRICULTURE will likewise contain about 50 pages per month, and will comprise, 1 *Foreign:* Selections from the higher class of British, French and German periodicals devoted to Agriculture, with extracts from new books which may not be published in the Library, &c. &c. 2. *American:* Editorials, communicated and selected accounts of experiments improved processes, discoveries in Agriculture new implements, &c. &c. In this department alone will ours resemble any American work ever yet published. It can hardly be necessary to add that no Political, Economic, or other controverted doctrine will be inculcated through this magazine. Its price will be Five Dollars a year in advance, for two royal octavo volumes of 600 pages each—Five copies will be sent to the address of any one sending $20

Each number of the Library will be illustrated by numerous Engravings, printed on type obtained expressly for this work, and on good paper—the whole got up as such a work should be. If it does not prove the best as well as the amplest and most comprehensive Agricultural work ever published in this country the fault shall not rest with the publishers, & we are sure it will not fall short for want of industry or devotion in the Editor. The low and definite rate of postage chargeable on such a periodical, say six to eight cents a number—will enable many to take it who would otherwise have been repelled by the heavy and capricious exactions of the Post-office.

We respectfully solicit orders from all who may incline to aid us, as early as will suit their convenience. Address.

GREELEY & McELRATH,
Tribune Office, corner of Spruce street, opposite the City Hal
New York, Aug. 9 1845.

BLANKS

For Sale, at this Office.
