From the Kent News Oct. 4, 1845.

ESCAPE FROM JAIL.

Negro Sam, confined in the Jail of Kent county, indicted for the murder of Edward Roe, and whose trial was fixed for Wednesday next, the 8th instant, made his escape on Tuesday night last, by filing his irons, &c. He is about 5 feet 8 or 9 inches high—quite black—well made, and a young man. He had on when he left an old kersey suit well worn and partially ragged. The Sheriff of Kent county offers a reward of $50, for his apprehension. Sam will probably make for the Delaware Bay. He was seen in Kent on Wednesday or Thursday morning last.—It is possible he may cross the Chesapeake to Harford county.

AT WASHINGTON.

We find in the Washington letter of the Baltimore Patriot, the following paragraph:

I am told that Mr. Polk is in trouble.—The Hoyt and Butler Correspondence shows that, in breaking his pledges to the *Conscreatives* and the *Tylerites* who elected him—turning the cold shoulder to the friends of Calhoun—and giving the bulk of the spoils to the Van Buren Butler and Hoyt men, he has conferred—*and the country will see it*—the best favors in his gift not only upon a class of men who deserved them not but upon very bad men—some of whom the Senate will be very apt to reject!

In addition to this, and the probability that the *Smith and Polk* Correspondence, *in relation to certain reciprocal operations* will shortly be published, I learn there is a talented gentleman now in this city, to whom Mr. Polk in person, as well as Mr. Polk's friends, made assurances and pledges in view of that gentleman's ardent and eloquent support of the cause of Polk, Dallas & Texas which have not only not been fulfilled but wildly falsified—which talented gentleman may be expected to address the public, ere long, in a series of numbers, upon the subject of the treatment he and others have received, as well as upon some other interesting matters, under his own proper name. More than this at present the deponent saith not. I am mistaken, or the Locofoco fur will by and by fly faster and thicker than ever! *We shall see.*

POTOMAC.

The Washington Union, the official organ of Mr. Polk's administration, quotes some speculations respecting the probable course of Mexico from the New Orleans Bulletin, and remarks—

We understand that our Government has no recent accounts from Mexico. It has no positive means of knowing at this time what course Mexico will pursue in this new crisis; and besides, all the general elements of calculation are disturbed by its revolutionary condition, and the instability of councils which such a state of affairs brings along with it. We shall probably hear something definite in a few days; and whether Mexico will offer us the olive branch or the sword, no one can positively undertake to say. But we confess we lean, as far as advised, to the opinion of the Bulletin, and have our doubts—in spite of all her pronunciamentos, manifestos, resolutions and menaces—whether she will rush into a war with the United States.

DREADFUL RAILROAD ACCIDENT.

A deplorable accident, attended by loss of life, occurred at Newark, N. J., on Saturday evening. The New Brunswick way train came in contact with a train of the Morris and Essex Railroad, shattering the locomotives and cars. Those on the tenders and engines escaped by jumping off, as they came together. Mr. Druce a carrier, in the employ of Adams & Co. of New York, and a Mr. Dunn, of Newark, were among others in the first car of the New Brunswick train. Seeing that collision was unavoidable, they strove to escape across the platforms to the rear car. They were both caught between the two cars and severely injured. Mr. Druce had one of his legs dreadfully fractured, so that he was obliged to submit to immediate amputation. He is in a very precarious situation, and scarcely expected to survive. Mr. Dunn's injuries were all internal, and it is said that he has since died.

Pacific.—It is currently reported, on the authority of Washington letters, that Mr. Polk has written an autograph letter to the President of Mexico, of the most conciliatory character, and that a new Mexican Minister with special powers is appointed.—*Clipper.*

Beets.—A farmer in Detroit says—"The last season I grated about a bushel of the sugar beet to a fine pulp, and pressed the juice therefrom, of which I obtained six gallons. I put the same in a vinegar barrel, which was entirely empty, and in less than two weeks I had as good and as pleasant vinegar as I ever obtained from cider, and was equally as strong and clear."

A Magnificent Carpet.—The large carpet lately finished at the royal manufactory of the Gobelins, has lately been put down on the floor of the embassador's hall at the palace of Versailles. It is the most splendid carpet in the world; it was commenced sixty-two years ago, or in 1783, and has but just been completed. The whole border is worked with rich garlands of flowers, and the four corners each with a large bunch of roses, copied from celebrated paintings, and embracing all the roses known in France.

A Bold Figure of Speech. At the great council of the Seneca Nation, held last week, near Buffalo, the subject of removing these Indians across the Mississippi being under discussion, one Indian speaker said he had not confidence in his white fathers; why should we have? *His white fathers had murdered their Saviour, and what kind of treatment could a poor Indian expect from men who had killed the son of God?*

PRICES CURRENT.

BALTIMORE Oct. 7, 1845.

GRAIN. The English advices, and the fact that orders for shipment on speculation are in Market, have caused an advance of 5 or 6 cents per bushel on wheat. We now quote ready sales of Md. and Va. prime reds at 90a94c; ordinary to good 84a90c; and white wheat at 100a108c.—Md. Corn has also advanced and a selling at 55a56c for white, and 56a57 for yellow; and Md. Oats at 35a36c. We quote Md. Rye at 62a63c.

DIED.

In Easton, Maryland, on Tuesday, 7th inst., SUSAN NEELY, formerly of the county of Derry, Ireland, and consort of *John Neely, Esq.* Principal of the Easton Academy, in the 32d year of her age.

Thus in two short weeks has death been busy in the family circle—in one sweep of his fatal scythe bearing to the bosom of earth the bud and the full-blown flower! But a few days since we were penning the obituary notice of a sweet little girl, over whose beauty and genius death had passed like a sudden shadow of the morning, across a bright spring landscape, and we now find ourselves furnishing the last tribute of respect to the memory of the fond mother, who ministered at the dying couch of that idolized child. Inscrutable is the Providence which has so instantaneously consi ned to the dust, the affectionate wife and devoted mother! Melancholy, indeed, the dispensation which has unsealed fresh fountains of sorrow in the breasts of her surviving companion and offspring! To her far distant kindred the intelligence of her death will fall like a thunderbolt from the clear sky—waking up around them associations of her early years, passed in the bosom of her home, in the green and sunny island of the ocean.

Amiable, generous, confiding, and intelligent, she was the object of endearment to a large social circle, in which the recollection of her worth still lingers, and will continue to be cherished. It may be added, that, in health she was not unmindful of the solemn interests of the future. Death was therefore to her but the vestibule, through which she has passed to an existence happy and enduring. Reader! so live, that like her, you may at last

——Wrap the drapery of your couch about you
And lie down to pleasant dreams. C.

On Wednesday 8th inst. very suddenly, in this town, Henrietta, infant daughter of Samuel Hambleton Jr., aged two years and ten months.

In this town on Friday last, William Henry only son of John & Anna Maria Ozmen, in the 3d year of his age. The public are requested to attend the funeral from his father's residence, this afternoon at 2 o'clock.

On Thursday morning last, after a severe illness, Mrs. Anna Maria Faulkner, wife of William H. Faulkner Esq., in the 20th year of her age.

Oct. 11th, 1845.—3w S

Congressional Intelligencer.

The proprietors of the NATIONAL INTELLIGENCER, in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue, during each session of Congress, a weekly sheet styled "THE CONGRESSIONAL INTELLIGENCER," to be devoted exclusively to the publication, as far as its limits will permit, of the proceedings of both Houses of Congress, and Official Reports and Documents connected therewith, including *a complete official copy of all the Acts passed by Congress during the session.*

To bring the price within the means of every man who can read, the charge for this paper will be for the *first* session of each Congress One **Dollar,** and for the *second* session of each Congress half a dollar.

The price of the CONGRESSIONAL INTELLIGENCER, to be issued on each Wednesday during the approaching Session of Congress, will therefore be One Dollar paid in advance.

To enlarge upon the value, to those who take no newspaper from Washington, of this publication, containing an impartial but necessarily abbreviated account of the Proceedings in Congress, including an authentic official copy of all the laws passed during the session would be needless.—The man who takes no such paper ought to take one, if he does not prefer remaining ignorant of what most nearly concerns his own destiny, and that of his family and of his posterity for ever.

☞When six copies are ordered and paid for by any one person, a deduction of one-sixth will be made from the price: that is to say, a remittance of Five Dollors will command six copies of the Congressional Intelligencer for the next Session. A remittance of Ten Dollars will secure thirteen copies; and for Fifteen Dollars remitted from any one person or place twenty copies will be forwarded.

☞Payment in advance in all cases is indispensible. Oct. 11.1845

WEEKLY NATIONAL *INTELLIGENCER.*

This paper, being made up of such portion of the contents of the National Intelligencer proper as can be compressed within the compass of a single newspaper, continues to be issued and mailed to subscribers every Saturday at two Dollars a year, payable in advance in all cases—no account being opened with subscribers to the weekly paper.

To bring this paper yet more nearly within the reach of such as desire to take *by the year* a cheap paper from the seat of the General Government, a reduction will be made in the price of it where a mumber of copies are ordered and paid for by any one person or association at the following rates:

For Ten Dollars six copies will be sent.
For Twenty Dollars thirteen copies; and
For each sum of Ten Dollars, above Twenty, eight copies will be forwarded; so that a remittance of Fifty Dollars will command thirty-seven copies.

☞*Publishers of papers throughout the several States and Territories who will give a single insertion to this advertisement (with this note annexed) and send one of their papers to this office with the advertisement marked therein, shall receive the Weekly National Intelligencer for one year free of charge.*

Oct. 11, 1845

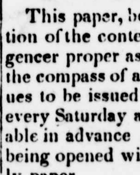

Easton Academy.

THE Winter session will commence on WEDNESDAY the 15th inst., under the continued superintendence of Mr. John Neely. By order,

JOHN BOZMAN KERR,
Oct. 4, 1845—tf Sec'ry.

To the Public.

THE subscriber (knowing the impossibility under present circumstances, of his being prepared to leave Easton) will continue to carry on the

SADDLE

AND

HARNESS MAKING

business in all its various branches at his old stand, next door to the Bank. From his long experience in the business he flatters himself that he will be able to manufacture WORK as good, and sell it as low, as it can be purchased in the city of Baltimore. He will endeavor to work none but the very best MATERIALS, and it shall be his desire to please all who may favor him with a call. He earnestly invites all his old riends and the public generally (to whom he feels gratetul for past encouragement) to give him a call.

All kinds of REPAIRING done at the shortest notice and on the most reasonable terms. The public's ob't serv't.

NOTICE is Hereby Given,

That Adam Harkless is no longer a Deacon in the Bethel Church of Easton. For his conduct in the Church and with the Congregation, we, the Trustees, will not receive him as a preacher so far as we have power to object. We have proved him a liar and we hope that no one will receive him as a preacher. He is not a man of God, telling the public that two of the Trustees were waiting on the road to kill him, and it can be proved it was not so.

Praying Almighty God, that he will repent and do his first works over again, for the way he is now going on holding meetings he is only deceiving the congregation & will be lost in the end—we hope he will have no more power to call meetings.

By order of the Trustees of Bethel Church of Easton, Eastern Shore, Md.

HEMSLEY'S VEGETABLE TONIC,

PREPARED BY

R. F. HEMSLEY,

PHARMACEUTIST,—Easton Md.

NO MEDICINE has acquired in so short a time so deserved a popularity; and none is prepared to present so honorable an array of certificates from the FACULTY OF MEDICINE and private individuals throughout the State as *Hemsley's Vegetable Tonic.* In moderate doses, regularly taken, this medicine is a sure preventive of Fever & Ague and Bilious Fever, while it affords in most instances a permanent cure when employed for the removal of these diseases. In all cases of general debility arising from old age, protracted illness, or uniform delicacy and feebleness of constitution it is without question one of the most agreeable and efficient tonics ever offered to the public. Let all who are afflicted apply to this remedy with the full expectation of perfect relief. It promises nothing which it is not competent to perform; and must in a very short time be the remedy preferred to all others in the various forms of Fever and Ague and in cases of general debility. Full directions for using it will accompany each bottle.

Certificates.

The undersigned, Physicians of Baltimore, having been made acquainted with the ingredients composing "*Hemsley's Vegetable Tonic,*" have no hesitation in saying that the compound, if properly used, cannot fail to conduce greatly to the accomplishment of the object proposed in its employment; and do therefore cheerfully recommend it to the afflicted public

J. K. MILLER, M. D.
Former President of Washington Med. Col and Profesor of Anat. Physiology, &c &c.

SAML. K. JENNINGS, M. D.
Profes. Materia Medica and Therapeutics, Washington Med. Col.

G R. WRIGHT, M. D.
THOS OWINGS, M. D.
Fayette Street.

The preparation made by Mr. Hemsley Apothecary, Easton, Maryland, and known as "*Hemsley's Vegetable Tonic,*" is in my opinion the best article ever offered to the public for the radical cure of that distressing affection, Intermittent Fever. This composition forms a pleasant bitters, and furnishes a most desirable tonic in cases of constitutional debility resulting from natural infirmity or the ravages of disease. I have recommended this medicine extensively in my practice and have always found it to answer the desired purpose.

CHRIS C COX, A. M. M D.

Mr. R. F. Hemsley, Sir:—This is to certify that for a long time I labored under the debilitating influence of that dreadful disease, *Ague & Fever,* and had recourse to many remedies recommended to me by Physicians and others, all of which proved unavailing. I heard of your celebrated *Vegetable Tonic,* of which I procured two bottles, and before I had taken it all I was entirely restored, and have not since felt any symptoms of its return. It has accomplished more in my case than all other remedies put together, and I most cheerfully recommend it to all those persons who may be laboring under this most wretched disease.

JOHN BAILY,
Balto June 20, 1845 Pitt Street.

R. F. HEMSLEY.

Easton, Aug. 9, 1845—tfn

Sept. 13, 1845.

PROSPECTUS OF THE

FARMERS' LIBRARY

AND

MONTHLY JOURNAL OF

AGRICULTURE.

JOHN S. SKINNER, EDITOR.

NONE can have well studied the true sources of National welfare without perceiving the natural and friendly connexion existing between Manufactures, Commerce and *Agriculture.* The policy which strikes at the prosperity of the Manufacturing *consumer* must damage the Agricultural *producer,* and neither can be injuriously affected without detriment to the Merchant, at once consumer & carrier for both. As, however, the elements of manufacturing and commercial industry must be derived chiefly from the soil, is it not the obvious interest of all other classes that the one which gives to all their employment and subsistance, should be encouraged and benefited with every advantage that science can confer and the most enlightened industry make available? Yet it has not been until comparatively a late period in Europe, and still later in America, that the public mind has been made properly sensible of the necessity of Science to Agriculture, and so to respect Farming as essentially an intellectual and dignified pursuit—one which should imply for its followers high mental cultivation and various attainments. Happily, however educated young men are now betaking themselves to Farming as a business, which, like the learned professions, has its own principles and will have its literature; and truly it may be asked what subject has lately given rise to memoirs and works more profound and instructive, or been fruitful of more interesting results of scientific investigation, than Agriculture? Who, among modern Literati, enjoy more enviable distinction than LIEBIG and JOHNSTON, BOUSSINGAULT and CANDOLLE? The taste for Agricultural Literature in our country, thanks to the able journals that encourage it, keeps pace with its progress in Europe. The more fully to meet the demand thus created, we have decided to publish on the first day of July, and monthly thereafter, the FARMERS' LIBRARY and MONTHLY JOURNAL OF AGRICULTURE to be edited by JOHN S SKINNER, late Assistant Postmaster General, and founder of the first Agricultural periodical published in this country—Each number will consist of two distinct parts viz:—

I. THE FARMERS' LIBRARY, in which will be published continuously the best *Standard Works* on Agriculture, embracing those which, by their cost or the language in which they are written, would otherwise seem beyond the reach of nearly all American Farmers. In this way we shall give for two or three dollars the choicest European treatises and researches in Agriculture, costing ten times as much in the original editions not easily obtained at any price, and virtually out of the reach of men who live by following the plow. In the Farmers' Library they will be accompanied by notes from the Editor, explaining what may be obscure to American readers, or calculated to mislead the beginner in Farming, owing to differences of Soil, Climate &c. The works published in the Library will from a complete series, exploring and exhibiting the whole field of Natural Science, and developing the rich treasures which Chemistry, Geology and Mechanics have yielded and may yield to lighten the labors and swell the harvest of the intelligent husbandman. The work will be so arranged that the Farmers' Library may be bound up by itself, forming a mammoth volume of 600 pages at the end of each year; or each work contained therein may be bound separately.

II. THE MONTHLY JOURNAL OF AGRICULTURE will likewise contain about 50 pages per month, and will comprise, 1 *Foreign:* Selections from the higher class of British, French and German periodicals devoted to Agriculture, with extracts from new books which may not be published in the Library, &c. &c. 2. *American:* Editorials, communicated and selected accounts of experiments, improved processes, discoveries in Agriculture new implements, &c. &c. In this department alone will ours resemble any American work ever yet published. It can hardly be necessary to add that no Political, Economic or other controverted doctrine, will be inserted through this magazine. Its price will be Five Dollars a year in advance, for two royal octavo volumes of 600 pages each—Five copies will be sent to the address of any one sending $20

Each number of the Library will be illustrated by numerous Engravings, printed on type obtained expressly for this work, and on good paper—the whole got up as such a work should be. If it does not prove the best as well as the amplest and most comprehensive Agricultural work ever published in this country the fault shall not rest with the publishers, & we are sure it will not fall short for want of industry or devotion in the Editor. The low and definite rate of postage chargeable on such a periodical, say six to eight cents a number—will enable many to take it who would otherwise have been repelled by the heavy and capricious exactions of the Post-office.

We respectfully solicit orders from all who may incline to aid us, as early as will suit their convenience. Address.

GREELEY & McELRATH,
Tribune Office, corner of Spruce street, opposite eqs City Hall
New York, Aug. 9 1845.
