

EASTON GAZETTE.

EASTON, MD.

Saturday Morning, Oct. 18.

V. B. PALMER,

No. 59 Pine st, Phila., and 160 Nassau st. (Tribune Buildings,) N. Y., and S. E. corner of Balt. and Calvert sts. Baltimore, is our authorized Agent for receiving Advertisements and subscriptions to the "EASTON GAZETTE," and collecting and receipting for the same.

PENNSYLVANIA ELECTION.

The annual election took place in this State on Tuesday, for members of the Legislature, county and city officers & also for a Canal Commissioner, who is voted for throughout the State.

In the city of Philadelphia the election passed off quietly. The number of votes polled was 13,758. Last year it was 14,728. Compared with the last mayor's election, the Whigs have lost in the city proper, 514 votes; the Democrats, 104; and the Natives 512. The whigs have elected their council and legislative tickets in the city.

GEORGIA ELECTION. The returns from this State are favorable to the Whigs. A slip from the Milledgville Record says there is but little doubt of the re-election of Gov. Crawford by from 1000 to 1500, and that the Whigs will have a sufficient majority in the house of delegates to overbalance the senate, where it is thought the Democrats will be in a small majority.

The following is the result for Governor in 65 counties compared with the Presidential vote, when Mr. Polk carried the State by 2019.

	Crawford.	McAllister.	Clay.	Polk.
65 Co.	17,359	15,609	31,469	32,534
	15,609			31,469

C's. maj. 1,750 Polk's maj. 1,065

This shows a whig gain of 2815. There are 93 counties in the State.

ELECTION IN SOMERSET COUNTY.—The Princess-Anne Gazette (Loco Foco) contends, that "there was no one elected in Somerset County, as the election was held in three of the Districts, in open violation of law, an unaturalized foreigner presiding as Judge in one of them, and the ballots being destroyed in the other two, instead of being returned to the Clerk's office for inspection, as the law directs. The seats of the returned Delegates from Somerset, will, therefore doubtless be contested, and they sent back to the people and in that event it takes no prophet to forsee that a full Reform Delegation will be elected."

Kent County Court.—Negro Tom, charged with the murder of Mr. Edward Roe, was brought into Court on Wednesday morning 8th inst. and put upon his trial. After the witnesses were examined, the cause was very ably and eloquently argued by B. Chambers Wickes, T. R. Stewart and J. B. Ricaud, Esqs. on the part of the State, and by the Hon. J. A. Pearce for the prisoner, when the case was submitted to the jury, who, after remaining out three hours, came into Court with a verdict of MURDER IN THE FIRST DEGREE.—Sentence not passed.

NEGRO SAM TAKEN.

Negro Sam, indited for the murder of Mr. Edward Roe, & who escaped from Kent county jail on Tuesday night, the 30th September, was captured on Thursday 9th inst., on Kent Island, and safely confined in jail to await his trial.

A New York letter, published in the Washington Union, mentions a remor, said to have been received through a highly respectable channel, that the territories of California are about to establish an independent republic, in which they are to be supported by England and other governments. The editor of the Union says he is not advised that our Government has received any information to confirm or contradict this rumor.

THE MACKENZIE PAMPHLET.—The Vice Chancellor of New York, on Tuesday morning, decided not to dissolve the injunction he granted to restrain the further publication of this work.

THE COAL FIELD IN MARYLAND.—One of the articles in the October number of the National Magazine and Industrial Record, is on the coal field in Alleghany county, Maryland. The field is divided into the upper and lower, or northern and southern districts, covering 42 and 239 square miles respectively. Of this whole amount, 215 square miles, or 188,000 acres, are underlaid with available coal 15 yard's thick. This, in the common way of working, would yield 50,000 tons per acre, or 32,000,000 of tons per mile; a quantity said to be greater, than the enormous annual consumption and waste of Great Britain. In all the British mines the coal is below ground at depths varying from 30 to 1,600 feet; the Alleghany measures are nearly all above the water level. The expense of working the latter is, therefore, much less than that of working the former.

"SEEING IS BELIEVING."

Alexander Graham, Esq.

Dear Sir,—I send you a sample of the Etrurean wheat, taken from a parcel of five bushels, which I purchased of Messrs. Bordley & Cox, Commission Merchants of Baltimore, and have to request of you, to do them the simple justice to exhibit it to the Agriculturists of Talbot county, *in juxtu position* with "the filth and spurious articles" sent you by William H. Tilghman, Esq. as extracted from an other parcel of the same wheat, purchased of the same firm, and in contradiction of the article published in your paper, under the caption of "Seeing is believing." Messrs Bordley & Cox will furnish a counter statement, sustained by the concurrent testimony, in the form of Certificates, voluntarily tendered them, by such men as Col. John Tilghman, Hon. P. B. Hopper, James T. Earle, Col. M'Kenney, W. J. Gibson, J. B. Spencer, Clayton Wright and others of our most prominent men, most of whom have purchased and sown this wheat.

Respectfully, yr.
Most obt. servt.
JAS. BORDLEY.

Centreville, Oct. 11, 1845.

ARRIVAL OF THE GREAT BRITAIN AT NEW YORK.—The New York correspondent of the Philadelphia Ledger gives the following relative to the arrival of the Great Britain, under date of Tuesday:—

The arrival of the eastern mail this morning, in time to proceed forward south of the intelligence from the old world brought by the Great Britain, was followed about 9 o'clock, by the arrival of the vessel herself, minus a mast, but otherwise in good condition. The reputation of this huge vessel, as a sea boat, has been raised instead of depreciated by the style in which she has sustained the disadvantages and disasters which attended the latter part of her voyage; and as her performance and every circumstance connected with her are subjects in which much interest is felt, I add the following memoranda obligingly furnished by R. Irving, Esq.

Oct. 1, at 6-45 A. M, lat. 51 30, lon. 16 50, spoke the Great Western steamship, bound to Liverpool.

7th At 2-15 P. M., lat 48 30, lon. 42 45, exchanged colors with a Royal Mail Steamer, running to the eastward, supposed to be the Britiannia.

Left Liverpool 4 P. M. 27th Sept. and for the first ten days experienced westerly winds, strong gales and heavy sea at times, during which the ship behaved admirably; for a few hours of the 2d of October the wind was N. E. and in a heavy squall the foremast was carried away.

On the 12th, at noon, found the ship had been set to the northward in the preceding twenty one hours, and on that night found by the sounding, the ship again set to the northward thirty miles, from noon 12 to 2 A. M. of the 13th; and among the shoals off Nantucket a thick dirty night with very heavy rain; at daylight made signal for a pilot, & run into Vineyard Sound; stopped ten hours and a half at Holms' Hole; left it at half-past two o'clock A. M. of the 14th and reached Sandy Hook at 11 o'clock P. M., and remained outside for want of water.

EFFECT OF THE NEWS ON THE MARKETS.—*Advance in the Price of Flour at New York.*—The correspondent of the Philadelphia United States Gazette gives the following as the effect of the news on the market. "The news has created quite an excitement in our flour market; the sales before charge amounted to 8000 bbls., genuine Ohio and Michigan at $5 25, an advance of 37½ cents. Susbsequently sales were made at $5 31¼ and 5 37½, at which it is now held. Nothing has been done in Southern, but holders say they will sell at the price of Genessee; therefore $5 37½ may be considered the price for all descriptions. 4,000 bushels of prime wheat sold at $1 08, an advance of 9 cents; 8000 bushels Maryland at the same rate; 8000 bushels Southern and Jersey corn 60 a 61½c. weight."

At Philadelphia, no transactions had taken place, though an advance was anticipated.

The Baltimore market has also felt the effect of the news as will be seen by the Prices Current in to-days paper.

ELEVEN DAYS LATER FROM MEXICO. The Spanish brig Joaquin, Batista, master, arrived at New Orleans on the 7th inst., from Vera Cruz, having sailed thence on the 26th of September, just eleven days after the U. S. steamship Princeton. The Picayune's files are complete from the city of Mexico to the 20th ult., and from Vera Cruz the 22d.

On the 15th Gen. Herrera was formally proclaimed President of the Republic, and upon the morning of the 16th he took the oaths of office, in the presence of both Houses of Congress, assembled in the Chamber of Deputies. The President pronounced a discourse upon the occasion.

The Mexican papers give the most minute details of the military and naval forces which the United States has concentrated upon the frontier and coasts of Mexico.—The Vera Cruz journals are very watchful as to the Gulf squadron, serving up full lists of ships and guns to their morning readers, as a kind of *appetizer* for breakfast.

A letter is given to the public from Gen. Inclan, the brave defender of Puebla against Santa Anna, in which he announces to the Secretary of War that on the 14th ulumo, Gen. Cosme Furlong had offered the services of twenty six battalions, four regiments and one brigade of artillery, in defence of the Supreme Government and the national territory. These troops were first organized by the city of Puebla when the French squadron lay off Vera Cruz. They have thus again been placed at the disposition of the Government, and great expectations are entertained of the good effects of the example set by Puebla.

POLITICAL EXCITEMENT IN PHILADELPHIA.—The city of Philadelphia was the scene of considerable excitement on Saturday evening, in consequence of rumors that a riot was about to take place between the Democrats and Native Americans. The meeting of the latter at Commissioners Hall, Northern Liberties, was frequently disturbed; at one time a stone was thrown violently at one of the speakers; and various other outrages attempted. After the adjournment of the meeting, the Shiffler Native Club was attacked by the Democrats, and one of the transparencies of the club was demolished, and several of their number severely beaten. Th. Stone, who carried the transparency, received a blow over the head with a club, which levelled him; George Crap was also severely hurt, and another young man of the same party, after being knocked down by one of his opponents, was pummelled for some time by his own friends before the mistake was made known by his cries. The collision attracted a large crowd in the vicinity of the Hall, and Queen street, up which the greater portion of Democrats had retreated, was also thronged, but they gradually dispersed, not, however, till the riot act was red by Thos. D. Grover, and the citizens called upon to assist in preserving the peace. A number of them were arrested and held to bail.

From the Pittsburgh Gazette, Oct. 6.

The defeat of Hon. JOHN P. KENNEDY, of Maryland, is a painful event to every true Whig and sincere friend to the Tariff, but it was not unexpected. Baltimore has generally given small Locofoco majorities; and may be considered a Locofoco city.—The diversion, therefore, caused by *Natives*, rendered Mr. KENNEDY's defeat certain, so that we were not disappointed, though pained at the result.

By this conduct of the Natives they are placed in a condition similar to that of the Birney ites. These latter professed to be opposed to the Annexation of Texas, but voted so as to render that event certain.—The Natives of Baltimore professed to be in favour of an amendment of the Naturalization laws, but voted so as to defeat a friend to such amendment, and secure one bitterly opposed to reform. Both also foresaw the consequences of their vote, and gloried in the result. What consistency!

A Meat Preserver.—An instrument has been invented in England called "Carson's Meat Preserver. It consists of a syringe, having a sharp-pointed nipple, the sides of which are pierced with a number of small holes. The syringe is to be filled with brine, which it forces out of the small hole through the whole body of a piece of meat into which the point has been pressed; and the operation of pickling is thus thoroughly performed in a few minutes.

MR. FRELINGHUYSEN.—We learn from the New York Express that Mr. Frelinghuysen is much better. The symptoms of his disease are now much more favorable, and there is a good prospect of his early restoration.

The Female Bible Society of Georgetown has constituted the Rev. Septimus Tuston, of Washington, a Director for life of the American Bible Society by contributing to the funds of the latter institution $150. Mr. T. has made his acknowledgments in a very appropriate letter.

Booksellers & Stationers, 151 Pratt st, Adjoining Railroad Depot.

Baltimore, Sept 13 1845—6t $5

Congressional Intelligencer.

The proprietors of the NATIONAL INTELLIGENCER, in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue, during each session of Congress, a weekly sheet styled "THE CONGRESSIONAL INTELLIGENCER," to be devoted exclusively to the publication, as far as its limits will permit, of the proceedings of both Houses of Congress, and Official Reports and Documents connected therewith, including *a complete official copy of all the Acts passed by Congress during the session.*

To bring the price within the means of every man who can read, the charge for this paper will be for the *first* session of each Congress One Dollar, and for the *second* session of each Congress half a dollar.

The price of the CONGRESSIONAL INTELLIGENCER, to be issued on each Wednesday during the approaching Session of Congress, will therefore be One Dollar paid in advance.

To enlarge upon the value, to those who take no newspaper from Washington, of this publication, containing an impartial but necessarily abbreviated account of the Proceedings in Congress, including an authentic official copy of all the laws passed during the session would be needless.—The man who takes no such paper ought to take one, if he does not prefer remaining ignorant of what most nearly concerns his own destiny, and that of his family and of his posterity for ever.

☞When six copies are ordered and paid for by any one person, a deduction of one-sixth will be made from the price: that is to say, a remittance of Five Dollors will command six copies of the Congressional Intelligencer for the next Session. A remittance of Ten Dollars will secure thirteen copies; and for Fifteen Dollars remitted from any one person or place twenty copies will be forwarded.

☞Payment in advance in all cases is indispensible. Oct. 11, 1845

WEEKLY NATIONAL *INTELLIGENCER.*

This paper, being made up of such portion of the contents of the National Intelligencer proper as can be compressed within the compass of a single newspaper, continues to be issued and mailed to subscribers every Saturday at two Dollars a year, payable in advance in all cases—no account being opened with subscribers to the weekly paper.

To bring this paper yet more nearly within the reach of such as desire to take *by the year* a cheap paper from the seat of the General Government, a reduction will be made in the price of it where a number of copies are ordered and paid for by any one person or association at the following rates:

For Ten Dollars six copies will be sent.
For Twenty Dollars thirteen copies; and
For each sum of Ten Dollars, above Twenty, eight copies will be forwarded; so that a remittance of Fifty Dollars will command thirty-seven copies.

☞*Publishers of papers throughout the several States and Territories who will give a single insertion to this advertisement (with this note annexed) and send one of their papers to this office with the advertisement marked therein, shall receive the Weekly National Intelligencer for one year free of charge.*
