lated to secure to us the commerce and the influence of both. If we abide by the counsels of common sense; if we succeed in preserving our constitutional liberty, we shall then exhibit a spectacle such as the world never saw. I know that this one great mission is encompassed with difficulties but such is the inherent energy of our political system & such its expansive capability, that it may be made to govern the widest space. If by war we become great, we cannot be free; if we will be both great and free, our policy is peace.

EASTON GAZETTE.

EASTON, MD.

Saturday Morning, March 28.

☞Mr. V. B. PALMER is our authorized agent to receive subscriptions and advertisements for the "Easton Gazette," in the cities of Baltimore, Philadelphia & N. York

The Senate of Maryland.—The Annapolis Herald says that "Jacob Charles, Esq., Senator from Caroline county, has resigned his seat, having served four years of his term It was rumored, about the close of the legislature, that Wm. T. Blackistone, Esq., Senator from Saint Mary's county, had also resigned, which we learn is not the case. The constitutional terms of the Senators from Allegany, Washington, Baltimore, Cecil, Queen Anne's and Worcester counties, and Baltimore city, closed with the recent session. And the seat from Frederick having been declared vacant, there will be an election for nine Senators next fall."

THE NEWS AND THE MARKET.—The N. York Express of Friday afternoon says of the intelligence by the Hibernia—

The news is now faily spread before the public, and it has had rather an unfavorable effect. The holders of Cotton are disaffected; they expected an advance, and a small concession has been acceded to.—Stocks have declined a shade, and are dull. The holders of Flour offer to sell at 6 1-4 cents lower. Bill drawers are asking 109 a109 1-4 per cent.

Thus far we hear of no orders from the other side to buy or sell stocks.

Messrs. Baring's Circular does not give any quotations of American Stocks, but states that prices remain without the slightest change.

The N. Y. Tribune of Saturday morning says—

The markets were generally very quiet yesterday, the foreign news not having been fairly digested. The full effect cannot be yet known on the leading articles of produce, in consequence of the limited operations.

The N. Y. Courier of Saturday says—State Stocks were steady yesterday.—Long Island Rail-road and Harlem Railroad fell off 7-8; Morris Canal 3-8; Farmers' Loan 1-2, and Norwich and Worcester Rail Road 3-8 per cent.

The foreign advices have had a depressing effect upon our markets generally.—Cotton and Flour were inactive yesterday, and no sales have been made to warrant quotations.

Imprisonment of an American Consul.—Another arrival at New Orleans brings a statement from Matamoras that J. P. Schatzell, Esq., American Consul at that place, was in prison on the charge of corresponding with Gen. Taylor. The New Orleans Times says:

"A Mexican, said to have been charged by him with a letter from that officer, was stated to have been taken and shot. Particulars of this inexcusable aggression and outrage, we are told, have been forwarded to Washington, and to the naval officer in command at Pensacola, and we trust, for the honor of our country, that vigorous steps will be immediately taken, to obtain full reparation, or resent, in a manner becoming our position, this flagrant violation of all courtesy and international law."

Attempt to Commit Suicide.—Mr. Noah Merchant, residing near Sudlersville, in the upper part of Queen Anne's county, made an attempt upon his own life a few days since, by cutting his throat with a razor. He fortunately did not succeed in his design.—*Centreville (Md.) Times.*

Rev. Thomas H. Stockton.—This distinguished divine, in a note to the Philadelphia North American, says:—"It is stated that I have 'entirely withdrawn from the jurisdiction of the Methodist Protestant Church.' This is not the fact. I have merely resigned my membership in the Maryland Annual Conference. Our General Conference is to be held in Cincinnati, in May. My future course depends in part on its action."

AGRICULTURAL SURVEYS.—The legislature of Maryland would do well to provide for an Agricultural Survey of the State. It might be divided into the Eastern Shore, to be reported upon, we will venture to suggest, by such a man as Col. N. Goldsborough. The Western Shore upper *wheat* counties, by Mr. Stabler of Montgomery, the hay region around Baltimore, by Dr. G. B. Smith, and the *tobacco* region by W. W. W. Bowie, Esq. Such reports, on the Agricultural practices and resources of the several counties, would be of more real value than all the party wrestling for the next two months at Annapolis, just to see which party can get the "back-lock" on the other. For all the time that is thus spent in party wrangling and maneuvering, the people—the Farmers, must pay; while, for a full developement of the Agricultural condition and wants of the State these partizan leaders, calling themselves legislators, would refuse to appropriate a dollar and for fear of *loosing their popularity with their agricultural constituents!*—So we go! humbugged and demagogue-ridden to the end of the chapter! The wisest man who would seek the popular support, with views exclusively to the general welfare, would be laughed at as a greenhorn! Hence has party spirit been called "the madness of the many, for the benefit of the few."—*Farmers' Library.*

Correspondence of the American.

WASHINGTON, March. 24, 1846.

Important Message from the President.

A Message from the President of the United States was suffered to sleep upon the table of the Senate for several hours today. The seal however, was broken at three o'clock, and it proved to be the Message mentioned in my correspondence of yesterday. It recommends the giving of the "notice" to Great Britain, and maintains the precise position assumed in the opening message of December in regard to the Oregon question. The "notice" in the judgment of Mr. Polk ought to be given as speedily as possible.

Mr. Polk cites the fact that England is making preparations for war,—and perhaps for a war with the United States.—The letter of Sir Robert Peel to the Queen is referred to as having reference to this determination of England to defend herself by extreme measures.

Mr. Polk earnestly advises that the "notice" should be given, and holds the same opinions that he advanced in December.—It is provided for, he says by the treaty of 1827, and is not, therefore, a war measure. In regard to our disturbed relations with Mexico, he says, that thay have required the presence of two-thirds of the Standing Army in Texas, and have necessarily kept other places without troops!

He desires to preserve an honorable peace with Mexico, but at the last advices the Mexican Government had refused to receive our Minister. He intended to act with promptness and decision, and yet with a desire to preserve peace towards that power.

Mr. Polk quotes the maxim "in peace prepare for war," as the best means to prepare for war," as the best means to preserve the peace of both nations.

The Message of Mr. Polk is brief, and more general than specific in its terms, but it has produced a strong impression of impending dangers here, and will create a corresponding feeling throughout the country.

We copy the annexed article from the Annapolis Rep. of Wednesday 18th inst.

JOHN JOHNSON.

This delegate of Anne Arundel, has during the session of the Legislature just closed, added much to his deservedly exalted reputation as a Statesman and a Politician. He cannot be too highly appreciated by those whom he has so faithfully and usefully served. To Governor Pratt and to John Johnson, Esq. belong more of the honor of having redeemed the credit of our State than to any other men within her limits.

When we consider the reluctance Mr. Johnson overcame in consenting to fill the vacancy caused in the county ticket at the last election, even though defeat to his party was confidently anticipated, and that his thus coming forward revived the doubting if not drooping spirits of some, and actually secured the election of two Whigs in the county, thereby giving us a majority in the House of Delegates, and enabling us to pass the many salutary laws for the preservation of the credit of the State, we cannot be too grateful to him.

After his election in the house his services far exceeded those of any other member all admit. As chairman of the Committee of Ways and Means he devoted himself constantly to his duties and performed a very great part of the whole duty of that committee. His Bills were wisely conceived, judiciously prepared and boldly and ably advocated, and with but few exceptions passed into laws. No financial bill of any moment passed the Legislature that did not receive his support. His opposition was generally too well taken & too eloquently urged to be overcome.

It is computed that the additional revenue which will be derived from the legislation of the last session will exceed $60-000 per annum, and to none is the State so much indebted for this increase of its resources as to Mr. Johnson. By the way, can there be a more powerful argument adduced against the *penny*-saving and *pound-spending* policy of biennial sessions than this?

We know no man more remarkable than Mr. Johnson for strong, clear practical wisdom. It is the characteristic of his mind, & of his measures. There is nothing of mere popularity seeking about him—no *exclusive* pretensions of representing the people—in the slang of the day—the domocracy—no proclaiming on all occasions the will of the people—a proclamation, by the way, which generally is the first and only evidence of the profession. Mr. Johnson does not *desire* that mushroom popularity thus obtained. He *enjoys*, and ever will enjoy that sterling popularity which follows after faithful and patriotic services.

EXHIBITION AT THE EASTON ACADEMY.

The exercises in declamation came off at the Academy rooms on Friday last 20th inst, at 7 1-2 o'clock, upon the close of the customary annual Examination. The arrangement for the evening was in the best taste, and the execution of the different speakers highly creditable to themselves, as well as to their gentlemanly and competent instructor. The platform was broad, richly carpeted and sufficiently commodious to accommodate the Trustees, (a large portion of whom were in attendance,) and an excellent musical instrument the rich tone of which served in no small degree to enhance the entertainment of the evening.

The exercises of the occasion were opened by an impressive prayer from Rev. Dr. Mason, after which the chair was taken by T. R. Loockerman, Esq., President of the Board of Trustees, who announced the speakers in the order called for by the Programme. The various articles selected were listened to with deep attention by a crowded auditory, who testified their approbation of the young orators, by successive expressions of applause. For appropriateness of gesture, deliberateness and distinctness of enunciation, and grace and animation of delivery it compared favorably with any exhibition of the kind we have ever witnessed.

Dr. Wistar's Balsam of Wild Cherry.

This is a chemical extract of Wild Cherry possesses important medicinal properties; and Tar Water has always been administered in Consumption, and Lung affections generally, by our oldest and safest physicians.

Various remedies, it is true, have been offered and puffed into notice for the cure of diseases of the lungs, and some have been found, no doubt, very useful; but of all that have yet been discovered, it is admitted by physicians, and all who have witnessed its effects that none has proved as successful as this. For Asthma, Shortness of Breath, and similar affections, it may be pronounced a positivecure. It has cured Asthma in many cases of ten and twenty years standing, after physicians had declared the case beyond the reach of medicine.

The Balsam is made from materials which Nature has placed in all northern latitudes as an antidote for diseases caused by cold climates.

"Nature is but the name for an effect
Whose cause is God."

Let us not neglect her plainest dictates.
