FOREIGN NEWS.

5 Days later from Europe.

The pilot boat William J. Romer arrived at N. York on Saturday, bringing London papers to the evening of March 10th, and Liverpool to March 11th. The Queen of the West had sailed previous to the Romer, and may therefore be expected every day.

The comments of the English Press on the refusal of the American Government to Arbitrate on the Oregon Question look warlike.

The Revolution movement in Poland had spread extensively, and a Government had been organized at Cracow. The latest advices, however, appear to indicate that the struggle of the unfortunate Poles for Freedom will prove unsuccessful.

Cotton had slightly advanced, and remained firm.

The prices of Wheat and Flour had improved.

The Tariff was still under discussion in Parliament, with a prospect of being speedily completed in accordance with the plans of the Ministry.

There had been no action in Parliament on the Oregon question.

Late and interesting from Africa.—Advices from Monrovia to the 11th February have been received. The Liberia legislature met on the 5th January and adjourned on the 18th. Gov. Roberts in an able message of ten columns of the Luminary, gives a gratifying account of the progress of civilization, education, religion and industry in the colony. The receipts of the year were $8,525, and the expenditures $7,536. The message suggests a National Independence as the only remedy against the difficulties and outrages of England, and nobly defends the colony from the encroachments of that haughty nation.—The legislature has passed a law fixing the license at $500 for the sale of liquors under one gallon. The citizens of Monrovia gave a public dinner to Capt. Bell and the officers of the U. S. ship Yorktown, the capturer of the slaver Pons. U. S. ship Southampton sailed Jan. 11th, for windward, and the U. S. ship Dolphin on the 14th. Most of the Emigrants by the Roanoke have settled on lands granted by the Government. Rev. W. B. Williams, an esteemed Missionary, died, on the 5th January, of fever. The Liberia Conference of the Methodist Episcopal church, adjourned on the 12th of January.

Ocean Steamers.—The Unicorn is in her twenty-ninth day; the Caledonia in her thirteenth; and the Great Western in her fifth.

Baskenridge, N. J., Oct. 10, 1845

Mr. Seth W. Fowle, Boston:

Dear Sir—I perceive by all the newspapers, that you are the General Agent of that very useful and highly popular Medicine called Wistar's Balsam of Wild Cherry. Allow me to inform you, Sir, that I have used that medicine in my family with decided success. Last fall my wife was quite sick—had a very bad cough. I consulted a physician who visited her & prescribed some medicine, which did not remove her cough. At last he ordered Dr. WISTAR'S BALSAM OF WILD CHERRY. I immediately procured a bottle of your agent in this place, Mr. Daniel W. Doty; she took it, and it cured her cough entirely. During the winter I had a fever myself, which left me very weak and feeble—I had a severe cough, which troubled me sometime; I had recourse to your Balsam again, and found it highly beneficial I was obliged, however, to take two bottles before I was entirely well. All who have bad Colds, severe Coughs, or diseased Lungs, I would advise to try

DR. WISTAR'S BALSAM OF WILD CHERRY at once.

Signed,

DAVID AYERS.

I am personally acquainted with Mr. Ayers, and believe his statement to be true, and entitled to the confidence of the public.

Signed by

REV. OSCAR HARRIS.

Pastor of the 1st Presbyterian Church at Baskenridge.

Sold by,

E. M. DAWSON & BROT'R.

PRICES CURRENT.

BALTIMORE, April 16, 1846

GRAIN.—The receipts of grain are light. DIED?

In Easton on Friday last, 10th inst., MARY SOPHIA BENNY, daughter of the late James Benny, in the 18th year of her age.

Thus has busy Death borne another victim to his dark domains!—thus has an expanding flower been crushed by the hand of the stern spoiler; and thus have all the bright fancies and buoyant hopes, such as are wont to dance in the distance of youth's imaginings, been shrouded by the dark pall of funeral obsequies and the grave. But weep not for Mary! If a blameless life—sweetness of temper, and a devotional spirit, for one of such tender years, be an index by which to judge of the future—then it may truly be said "*the child is not dead but sleepeth.*" Painful indeed is it to part from those we love under any circumstances, but far more so when youth and innocence is torn away and consigned to a premature grave. But shall we doubt that the Judge of all the earth will do right, rather let us bow with submission to his mandate and kiss the rod that smites us.

M. N.

Died in this town on Wednesday the 13th instant. Williamina Donovan, only child of William J. and Margaret A. Roberts, in the fifth year of her age.

She was an uncommon child. She evinced a degree of mind, rarely seen in one of her age. Her parents doated on her but they have the blessed consolation of knowing; that although they are deprived of a darling child; their loss is her eternal gain. They should be willing to submit to the will of the Lord—His ways are right and, intended for our good.

T.

DISSOLUTION.

THE FIRM OF T. T. & J. E. MARTIN is this day dissolved by mutual consent.—All persons indebted to the late firm are requested to make immediate payment to T. T. Martin, who is fully authorised to close the business of the late firm.

BLANKS
For Sale, at this Office.

COAD'S ELECTRO GALVANIC

BATTERY.

THE following statements in reference to this Battery (so infinitely superior to all others in use) are well deserving the attention of the afflicted Besides the testimonials of private individuals, we have in our possession the printed recommendation of the press, including such papers as "The Spirit of the Times," "The Pennsylvanian," "American Mechanic," "Sentinel," "Delaware Republican" &c —together with that of the most eminent medical authorities in the land, which may be examined by such as desire it. That Galvanism is an acknowledged remedial agent of great value and power, we have only to refer to the witness of such men as the following, by whom it is strongly advised in a large number of diseases—Earle, Wilson Philip, Robert Hooper, John McIntosh, Dunglison, Mansford. Richter, Stevenson, Clark, Tweedie, Abans, Stoll, Kuhn, Spengler, Burdsley, Fothergill, &c.

Extract of a letter from Dr. R. Goldsborough of Centreville, Md. under date of March 19th 1846.

"While Dr. Olmstead was in this place with Coad's Galvanic Battery he operated upon several persons, and I believe they experienced considerable relief—First upon the wife of Mr. Kensey Harrison, for rheumatism with considerable benefit, as I understand from Mr H.—: also upon Mr. John Nabb for the same affection, who according to his own statement to me was very much benefited by it: again upon Mr. Anderson for enlargement of the spleen with which he was suffering very much. Mr A. submitted to two or three operations, and he told me yesterday the enlargement of spleen had almost disappeared, and he had no doubt had the operation been continued he would have been entirely relieved."

Extract of a letter from T. M. Coleman, Esq. Editor of the Cecil Democrat, under date of March 16, 1846

"One of the gentlemen operated upon here (Elkton) by Coad's Electro Galvanic Battery was so much affected in the back that he could not turn himself in bed—two operations cured him entirely. Another was afflicted with contraction of the tendons of the arms, so that he could not straigten it One operation effected a cure. Another case was that of a lady who was deaf in one ear. Four operations entirely restored the sense of hearing"

From Physicians and citizens of Easton.

Easton, Md., March 30, 1846

It affords me pleasure to offer my unqualified approbation of Electro Galvanism, as a remedial measure in the treatment of disease; and particularly to commend the Battery of Mr. Coad, the right of which has been purchased by Dr Cox of this county. In my own person I have experienced the most obvious relief, having suffered for a long time with chronic Dyspepsia, attended by functional derangement of the Liver and Spleen. I was under the Doctor's treatment, with the battery, daily for a fortnight, and at the end of that time considered myself sufficiently restored to suspend its use. After the lapse of some time I find my health and spirits still good, and the liver and stomach performing their functions with regularity

WM. H. THOMAS, M. D.

I cheerfully acquiesce in the favorable opinions expressed of Coad's Galvanic Battery, and from the beneficial effects which I have known to result from its use in a variety of diseases, under the direction of Dr Cox, of this town, do not hesitate to recommend it to the afflicted. T. THOMAS, M D

Having suffered for some time from a rheumatic affection of my right shoulder I was induced to try Coad's Galvanic Battery and I cheerfully state that I have felt great relief from two applications only of this Battery.

THEO. R. LOOCKERMAN

I take pleasure in certifying that I have experienced great benefit from the use of Coad's Galvanic Battery, now employed for medical purposes by Dr Cox, of Easton. When I commenced I was suffering greatly from general and distressing rheumatism which deprived me of rest at night. These pains from which I had so long suffered left entirely after a few operations, and my general health feels now completely restored. Having been for a long time totally deprived of vision the poles have been applied regularly to my eyes with most encouraging effect I can now distinguish prominent colours, and discern objects some distance from me I am using it daily for my blindness, and have every encouragement to persevere in the treatment.

WILLIAM J ROBERTS,

Easton, Md March 28, 1846.

On Tuesday, 12th March I applied to Dr. Cox, having suffered very much from an affection of the spleen, as well as almost total deafness in one ear. The poles of his Galvanic machine were twice applied to my ears and the same number of times over the spleen, since which the roaring in the affected ear has passed off, and I can hear with equal distinctness the ticking of a watch in both ears—This remarkable change, as well as the very great improvement of my general health I ascribe entirely to the powers of the Galvanic Battery under the direction of Doctor Cox.

ALEX'R. TODD, House Carpenter.

I may be found at my residence at all hours of the day, when not professionally engaged elsewhere. C. C COX, M D
