MAINE ELECTION.—The Boston Atlas of Thursday of last week says—

Our friends in Maine did nobly at the second trial on Monday. Thomaston, for the first time almost within the memory of man, has elected Whig Representatives!—This is almost equal to the election of a Whig in Nobleborough and Bremen. Belfast, too, is redeemed and has elected Henry Colburn, Whig, by a handsome vote. Richmond and Bowdoinham have each elected a Whig. Lincoln county has done nobly, and has already elected more whigs even than old Kennebec.

So far as we have returns the Whigs have elected thirty-six to twenty-seven Locos, and one Liberty. The classed towns do not vote again until a week from next Monday. Portland and Bangor try again next Monday.

Correspondence of the Baltimore Clipper.

WASHINGTON, Sept. 28th, 1846.

Dr. Stanton, assistant clerk of the House of Representatives, who lately committed suicide by cutting his throat, was lovedby all who knew him. He was the last person in the world to be suspected of such an act. During the past session of Congress, he was, next to Major French, the most efficient in the hall. He was not, apparently, more than thirty-two years of age—of fine appearance, of charming manners, and addicted to no particular vice.—Little did I think, on parting with him on the Avenue a week or two ago, it was forever. He has left an interesting family.—The place made vacant by the lamentable occurrence has already been filled by the appointment Mr. of Millard, who will from his talent and experience, make an efficient officer.

The Postmaster General has returned to the city. The Cabinet is now full, with the exception of the Hon. F. Pierce, the lately appointed Attorney General, who will not be here for several weeks.

BY TELEGRAPH.

PHILADELPHIA, Sept. 28th, 9 P. M.

We are yet without any tidings of the arrival of the Great Western at New York. Our mercantile community have been on the *qui vive* all day in expectation of the receipt of her news. The flour and grain markets have been firm, with small sales at the prices of Friday and Saturday.

The weather is clear and cool, and there was considerable frost visible early this morning.

THE CALIFORNIA EXPEDITION.—The expedition, under Col. J. D. Stevenson, comprising 780 officers and men, sailed on Saturday morning at 9 o'clock, accompanied by the sloop of war Preble. The following is a list of the officers in command of the different ships:

Ship "Thomas H. Perkins" (Penant)—Col. J. D. Stevenson. Surgeon—Alex. Perry. Adjutant—Matsell. Captains—Lippitt, Stevenson, and Turner. Quartermaster, Folsom.

Ship "Susan Drew"—Lieut. Col. Burton, Commanding. Captains—Nagle, Frisby, Shannon, and Taylor. Commissary—Marcy. Assistant Surgeon—Murray.

Ship "Loo Choo"—Major Hardy, Commanding. Captains—Brackett, Dimick, and Steele. Assistant Surgeon—W. C. Parker. Chaplain—Leavenworth.

THE MORMON WAR.

STEAMER ALVARADO, }
Friday, September 28, 1846. }

The Mormon war is at last ended. On Wednesday evening, the Quincy committee prevailed on the Mormons to surrender; and yesterday, at three o'clock, the Anties marched into, and took possession of the city of Nauvoo. The Mormons stipulated to leave forthwith, or as fast as they can possibly get away, except a committee of five, who are to remain to dispose of the property yet belonging to the community. *No property has been, or is to be destroyed*—although a strong disposition existed with many of the Anties to destroy the Temple. They fear it will be a beacon light to lure the Mormons back. By refraining from violent measures the Anties have saved themselves from a great deal of reproach.

A gentleman who left Nauvoo yesterday, at 2 o'clock, said the Mormons were leaving as fast as they could get away.—Yesterday was a happy day for the citizens of Hancock county, as peace is now permanently restored to it.

I was not able before I left, to get a copy of the articles of surrender agreed upon, but have given you the substance of the treaty.

From letters subsequent to the above date we learn that nearly the whole Mormon population have crossed the river to the Iowa side, where also the inhabitants have manifested their hostility by calling a meeting of the citizens of Lee county to adopt such measures as should be necessary to prevent the permanent location of the Mormons among them. The Mormon camps extend for several miles along the river, and present generally a picture of destitution difficult to conceive—women and children, without provision, and with but little clothing and still less shelter, and what is worse, entirely destitute of the means of getting away.

RUMORED CAPTURE OF SANTA FE—*Indian Outrages.*—The St. Louis Republican of the 22d inst., says:—

A gentleman who was a passenger in the Bertrand, was at Independence while the boat lay at the landing during the night. He then heard that an individual had arrived from Bent's Fort, who stated that he had met and passed an express from General Kearney to Fort Leavenworth, with the tidings that Gen. Kearney had entered Santa Fe without any opposition. This was the report and we give it as such—remarking however, that Col. Wharton, in command at Fort Leavenworth, was in daily expectation of an express with advices from General Kearney. That he has captured Santa Fe, we have no sort of doubt.

An arrival at St. Louis from Union Fort, states that the Indians are at war with each other in bands scattered all over the prairies. They are also attacking and robbing the traders in all directions.

SPEECH OF DANIEL WEBSTER.

At the Whig State Convention of Massachusetts, held in Boston, on Wednesday, Mr. Webster was present. He was received as he entered the hall, with great applause, and being called on for a speech, he spoke as follows:

I deem it a great privilege to be present, even to be present for a few moments, in so large an assemblage of the representatives of the Whigs of Massachusetts.—Wherever the Whigs of Massachusetts assemble, and wherever their representatives assemble, there is an odor of liberty that I love to inhale. There is attachment to the Constitution of our country and the institutions of our fathers which warms my heart—that heart which shall not cease to beat, (while it beats at all) with every thing favorable to human liberty.

Gentlemen, of such a party as the Whig party, made up of intelligent, independent, conscientious men, it is not to be supposed or expected, and that on great and interesting questions, and in all the divisions of such questions, there should be an entire unanimity. But experience shows that there is an unanimity of feeling and o purpose which brings about in the end a unity of action and co-operation in effort.

There are topics, upon the expediency of which, there are gentlemen present, high in my regard, who see a line of duty which is not entirely apparent. Others may look to other sources for succor or aid, others may rely upon other foundations and other hopes; but for myself, I confess that at this period of my political life, full of high hope of the general feeling that actuates all good men of the country, I confess that for my part, in the dark and troubled night that is upon us, I see no star above the horizon promising light to give us, but the intelligent, patriotic, united Whig party of the United States.

Gentlemen, the hour of your separation has arrived, and I may not trespass upon your attention. I rejoice in the general unanimity that has prevailed in your meeting. I partake with you in the happiness you all feel in the prospect of being able to elect your Governor, and in the prospect of the ascendancy of Whig principles.

I rejoice with you in the prospect of the overthrow of whatever threatens further to depress the political interests of the country, or whatever threatens further to mar the industrial pursuits of the nation.—And I rejoice in the anticipation that we may be allowed to indulge the hope that experience shall carry home conviction to the ranks of our adversaries, that the general honor of our public institutions in the present state of our affairs, depends upon the firm maintenance of the Whig principles which we have so long endeavored to maintain.

I am thankful for every token of your respect and favor, and now take my leave of you, sincerely hoping that the harmony of the Whig Party may lead to that usual result of harmonious action—great and entire success.

The following is from a respectable Locofoco paper, the National Standard, published at Richmond, Va.:

MR WEBSTER.—During the sojourn in the county of Orange, we learned the following facts from the most undoubted authority. Some years since a poor gentleman of decayed fortunes took up his residence at Orange Court-House; becoming very needy, he stated to our informant that in better days he was engaged in a large mercantile business in the town of Petersburg, and in the prosecution of it he was compelled to bring a suit against a house in Baltimore for a large sum of money; this suit was brought in the Federal Court and finally carried to the Supreme Court of the United States; there he engaged Mr. Webster to attend to it for him, and paid him a hundred dollars in advance for his services; but before the suit came to trial, the party in Baltimore totally failed, and presented a hopeless case of recovery; under these circumstances he had the case dismissed, and the old man thought that if, now in his need, he should recal the circumstances to Mr. Webster's recollection, he would return him the money for which he had rendered no consideration.

Our friend with whom he consulted, being himself a limb of the law, smiled, while he pitied the old man's simplicity; he told him that to make such a request would be trouble for nothing; that lawyers never refunded, and that to do so would hardly be considered *professional*. But the old gentleman was not to be dissuaded from his design; he wrote his letter, and by return mail he received from Mr. Webster a reply, enclosing a hundred dollar note. Mr. Webster stated that he had no recollection of the transaction, but that from the tone and style of the letter he doubted not it came from a gentleman, and that he was fully prepared to admit that the circumstances as stated, required the prompt restitution of the money, which he as promptly made.

We are no admirers of Mr. Webster's political principles; but as we have seen him charged with a want of common honesty, we take pleasure in recording an act, that, whether it proceeded from charity or a sense of justice, does credit to his heart.

The Washington correspondent of the N. Y. Journal writes—

There are some screws loose in the Post Office Department. There is more complaint now, on the part of contractors for carrying the mail, on account of non-payment, than there was even in Barry's time. One quarter is due, and another is about to become due, and still no money is forthcoming.

The Leonard-Town Beacon says that the Tobaco worm has proved more destructive to the tobacco crop in St. Mary's county this season, than it has ever before been within the recollection of the oldest farmers.

The same paper says that the ague and fever and billious diseases are becoming very prevalent in St. Mary's.

IMPORTANT RUMOR—TAMPICO TO BE ATTACKED.—The Washington correspondent of the U. S. Gazette states that the Cabinet held a session of six hours on Saturday, at which all the members attended, (Mr. Walker, who had left the city for the North, having been re-called by telegraph,) and several experienced officers of the Army and Navy being present by invitation, to give their advice as to what demonstration should be made on Mexico by our Navy. The correspondent of the Gazette, after stating that the time for an attack on the castle at Vera Cruz, in the opinion of experienced men had passed by, says:

"It was, therefore, resolved that Tampico shall be the object of attack, & in accordance with this decision, orders are to be transmitted for this enterprise. The reasoning on which this decision is founded, is said to be this: General Taylor will probably make good his progress to Monterey, but between Monterey and Saltillo, a distance of some eighty miles, there is a series of dangerous defiles, where the troops may probably be exposed to harrassing and weakening attacks from the enemy, if they should be disposed to adopt the Guerilla mode of warfare. Between Saltillo and St. Louis de Potosi, there is an immense desert; and even if our troops should be enabled to reach that place, they must be so weakened and diminished as to render it scarcely probable that they will be in sufficient strength to present an effectual resistance in case of any vigorous attack. If we could have possession of Tampico, we shall be able to throw in that moral and physical aid which may be sufficient in such a case, to give effect to our military operations, and thus save the army from disaster. This is all that has transpired on the subject. After the meeting of the Council to day, large transfers were ordered to be made from the New York banks to New Orleans."

At Catskill, N. Y., last week, Patrick Flynn was found guilty of murdering Robert James, in the town of Durham, on the 14th of August. James was a drover and Flynn was in his employment. James had sold some cattle in New York, and was on his way home with the money, between $300 and $400, when he was shot and robbed by Flynn. Flynn is to be executed on the 19th of November.

Mr. Elisha R. Gaither, of Cracklin, has announced himself as a "Key-hole candidate" for Commissioner, in Montgomery county. What is a Key-hole candidate"? Is it an "artful dodger"?—*Balt. Patriot.*

[Communication.]

Mr. EDITOR—The author of the case of absence of mind, which appeared in your paper of the 19th ult., either was not at Cambridge on the day spoken of, or else he must have been in a *clairvoyant* state, arising probably from his frequent manipulation of draughts of distilled corn juice; for he has proved himself as much abstracted as his "one of the Easton Cadets." The only man in the company capable of using himself in the capacity our author speaks of, is the pioneer; and he, not being entitled to the use of a musket, is exempt from the charge. Another proof of the abstraction of our author, is, that there was not an order to ram cartridge given by any of the Easton officers during the entire day, although it was the anniversary of an occasion on which powder was burned.

PHLAT PHOOT.

☞If you are ailing with a mild Cough, a slight pain the side, or occasional darting pains through the chest or in the region of the shoulder blade & wish some *excuse* for lounging—I say if that be your wish, doctor yourself with candies, syrups, and mixtures, prepared by quacks and recommended by forged certificates, and you will soon be gratified; but after you become tired of this *pastime*, use Dr. Wistar's Balsam of Wild Cherry, and the bloom of health will again tinge your hitherto pallid cheek.

This Balsam is devoid of all quackery—being prepared by a skilful chemist; and its efficacy is proved by the numerous testimonials of cures in cases deemed incurable. We publish no statements of cures that are not strictly true. R. Dunlap & Son, merchants, Cherry Valley, N. Y., relate a cure of Asthma that had withstood medical treatment for years. Dr. Frelight of Sangerties, N. Y., says he cured Liver Complaint, of four years standing, that would not yield to the usual remedies.—Abraham Skillman, M. D., of Boundbrook, N. J., says it is the best medicine for Consumption, *in every stage*, that he has ever known. We might refer you to hundreds of cases, had we room, that would convince all of its great virtue.

THIS Pen received the highest premium at the last Fair of the American Institute, and has been pronounced by the first teachers of Penmanship in the country, to be infinitely superior to any Gold Pen ever before introduced to the American public. These Pens are indistructible except by actual violence—no ink will injure them—retain their elasticity, and the peculiar shape of the nibs, (which was first introduced by Bagley) makes it more pleasant to use, renders it less liable to damage, more easy to repair, and prevents the necessity of the great care that other articles of the kind require.
