MEETING OF THE FRIENDS OF EDUCATION.

Pursuant to the general notice given in reference to the improvement of our Public Schools, a meeting of the Teachers, Trustees and other friends of general education, was held in the Court House at Easton, on Saturday afternoon, the 5th inst.

Among the teachers of the different districts in our County the following gentlemen were present, and evidenced their earnestness in the proposed movement for the advancement of public instruction:

Messrs. Lyman Griswold, J. W. T. Porter, George R. Rice, J. S. Willis, Henry F. Byrn, Francis S. Chaplain, William Merrill, Jos. Henry Martin, A. C. Mullikin, William Jones.

On motion of Mr. Lyman Griswold, seconded by Mr. Jos. H. Martin, J. Bozman Kerr, Esq., was called to the chair, and William B. Clark appointed secretary.

The object of the meeting having been stated by the chair, the secretary by request of one of the teachers present, read a letter from Gen. Tench Tilghman in reply to an invitation to be present, expressing his regret that business of a public nature which required his presence at Frederick city, would prevent his attendance; but as an evidence of his desire to co-operate with the meeting, his letter contained some suggestions for the formation of an Educational Society.

On motion of Mr. Lyman Griswold, seconded by Mr. Francis S. Chaplain, the chair was requested to appoint a committee of five to draught a constitution for the proposed association.

In pursuance thereof,

Messrs. Lyman Griswold, Francis S. Chaplain, Henry H. Goldsborough, Dr. Jas. Dawson, and William B. Clark were appointed to act as that committee.

The committee then withdrew and after consultation, presented the following articles of association.

Plan of an Association for the advancement of Public Instruction in our County Schools.

ARTICLE 1st.

This association shall be known as the Talbot County Educational Society.

ARTICLE 2d.

The officers of this Society shall consist of a President, three Vice Presidents, a Secretary and a Treasurer.

ARTICLE 3d.

The object of this association shall be to improve particularly the Primary Schools of our County.

ARTICLE 4th.

Any person shall be eligible and become a member of this association by application to the Secretary, and a vote of a majority of the members present.

On motion of Henry H. Goldsborough, her instructions to the committee to report the same with amendments and By-Laws thereto.

On motion of Dr. James Dawson, it was recommended that a committee of three, including the chair, be appointed, in view of securing a uniformity of School Books best adapted for practical instruction; and in accordance with this motion, the chairman, J. Bozman Kerr, Esq., together with Messrs. George G. Rice and William Merrill, were requested to act as that committee. It was then moved by Mr. Lyman Griswold, that this committee be increased by the addition of Messrs. James Ll. Martin and H F. Byrn. The latter having declined, Mr. Francis S. Chaplain was appointed to act in his place.

Much discussion ensued touching the immediate object of the meeting, which on motion of Henry H. Goldsborough, Esq., was adjourned to meet in the same place on the first Saturday in July, at 2 o'clock P. M. By order,

J. BOZMAN KERR, Chairman.
WILLIAM B. CLARK, Secretary.

☞ The Washington correspondent of the Baltimore Sun, writing under date of the 2d inst, says—

"The prospect of peace is a distant one. That of famine prices very near. The demand for provisions for our armies in Mexico,—the supply of food for the vast number of immigrants daily arriving in our ports, and the apprehended short crops abroad and at home, altogether, will combine to keep up the present high prices of provisions. I have never known marketing so high as it now is in this city. The hotel-keepers and boarding house people will have to live, during this long recess, upon their *accumulated capital*. The members of Congress must, at the next session, be content with more sparing and less luxurious diet, or abandon their present policy of living seven days upon one per diem,—fuel and light included.

Our horses have eaten their heads off within the last three months. We have had to feed them with golden oats. The government came into the market and bought up the oats at forty cents a bushel, and now the price is from sixty to seventy-five, and likely soon to be a dollar.

The clergy of Mexico will not consent to a peace. That is certain. The interest of the church is hostile to peace, and for a plain reason. Under a liberal and settled government, such as Mexico may have after the power of her military tyrants shall be destroyed, the hierarchy cannot hope to maintain its present advantages.—Gen. Scott has exhibited the most marked respect for the religion of Mexico, and has given the strongest assurances that the property of the church shall be respected. This would be sufficient to conciliate the clergy, if that body was not apprehensive of the Anti-Church party, which is also the peace party.

☞ Gen. Taylor was nominated for the Presidency by the Whigs of Washington county, Md., a few days since at their convention.

THE CAPTURE OF AN AMERICAN MERCHANTMAN BY A MEXICAN PRIVATEER.—No little excitement was created in Wall street, New York, on Thursday morning, by the announcement that the barque Carmelita, Captain Littlefield, had been captured by a Mexican privateer, and carried into Barcelona, in Spain. The Carmelita is a new vessel. She was bound from Ponce, P. R., to Trieste, with a cargo of coffee. It will be seen whether the Spanish government will allow the vessel to be condemned or not in one of the Spanish ports. The Carmelita is owned by Hiram Stetson, Bangor, Maine. The vessel left Ponce on the 20th of March, for Trieste, with the following cargo: 350 hogsheads, 31 tierces, 55 barrels aad 888 bags of coffee, which was insured in Wall street.—The vessel, it is supposed, is insured at the eastward.

A letter published in the N. Y Commercial Advertiser, under date of City of York, England, May 17, says—

On the 1st of May, a pirate under the Mexican flag captured an American barque from St. Domingo, for Trieste, and carried her into Barcelona. The *pirate* was condemned and the barque leberated.

An American barque referred to in the above is doubtless the Carmelita of Bangor, Maine, mentioned in the late English papers as having been taken into Barcelona by a Mexican privateer.

☞ Since the above was put in type we have met with a letter in the Plymouth, (Eng.) Herald of May 12th, which gives the following particulars:

"The circumstances created the greatest interest here, for, if such marauding is to be allowed, no vessel would be safe.—The authorities took up the matter with spirit; and, after due examination, they condemned the privateer as a pirate—and, of course, the American vessel will be restored to her captain to pursue his voyage. I learn there are three other craft in this neighborhood, with similar commissions. The United States should station a man of war on the coast, to protect their ships. The Spanish authorities behaved very well in the affair."

The New York Journal of Commerce, referring to the subject, remarks—

The Jamestown sloop of war is nearly ready for sea, bound, it is said, to the coast of Africa. It might be well to alter her destination to the Mediterranean, to look after these Mexican privateers.

We learn that the Carmelita was owned in Newburyport, and not Bangor as first reported, that she was insured in London for $7000; and that her cargo was owned in Bremen by a party whose former partner resides at Barcelona, the port to which the vessel was taken by her captor.

A letter in the N Y. Commercial Advertiser, dated County of Durham, England, May 17, says:—

The general inquiry here is "Have you corn enough in America to keep us from starving?" *Every ear is now turned* to stuffs, with an anxious hope that abundance will come from that quarter. From the Continent hope is cut off, for there are large demands thence to supply the deficiency there."

GEN. TAYLOR.—Concerning General Taylor's politics the New Orleans Bee says:

"That Gen. TAYLOR is a Locofoco we utterly deny, and call for proof. We know that in a recent letter he remarked that his first choice for the Presidency was Mr. CLAY, and after him Mr. CRITTENDEN or JOHN M. CLAYTON, or Mr. McLEAN. If any Locofoco is in favor of either one of these gentlemen for the Presidency, we should like to see him."

Twenty States have now elected all, or nearly all, the members of the next House of Representatives to which they are entitled, and the result so far is:—87 Whigs, 65 Locos, 4 Ind. and 9 vacancies—Whig majority 18. The Locofoco maj. in these States last year was 40.

The Union is composed of twenty nine States, and the House of Representatives of 228 members, of whom 115 constitute a majority. Representatives are still to be chosen in Maine (4), New Hampshire (2), Rhode Island (1), Maryland (6), Virginia (1), Ohio (1), N. Carolina (9), Alabama (7), Mississippi (4) Louisiana (4), Tennessee (11), Kentucky (10), Indiana (10) and Iowa (2); total 72; of whom the Whigs need only 28 to secure a majority. The estimate most unfavorable to the Whigs gives the following as the result in these States: Whigs 29, Locos 43, which added to those already elected, would exhibit the following result:—Whigs 116, Locos 112—Whig maj. 4.

TOM THUMB TO BE MARRIED.—If report speak true, General Tom Thumb has meditated much upon the common lot of humanity, and, following other illustrious examples, has "wooed a little maid," who has agreed to "wed, wed, wed," and in a short time they are to be married. She is in her 16th year, weighs 19 1-2 pounds, and is thirty inches high. The united weight of the couple is fifty pounds!

KILLED BY BAD DENTISTRY.—A short time since we noticed the death of Mr. N. F. Ames, the celebrated manufacturer of cutlery at Springfield, Mass. His death is attributed to poison, imbibed by swallowing, in the night, the material with which an European dentist filled one of his teeth a couple of years since, and which had not been properly secured. He had not seen a well day since.

DELIGHTFUL RAINS.—Our exchanges from all quarters, North, South, East, and to some extent the West, bring gratifying accounts of refreshing rains within the last few days, doing much to accelerate and vivify vegetation. At the North and East particularly we hear of a stronger verdure being given to foliage and the rich grass sprouting most luxuriantly. From different quarters of our own State, we have evidences equally as gladdening to the heart of the farmer.—*Balt. Sun.*

SANTA ANNA STONED IN THE CAPITAL.

From La Patria of the 2d instant, the New Orleans Delta of the 3d instant learns that letters have been received in that city by the way of Tampico, and the city of Mexico, to the 21st ultimo; in which it is stated that Santa Anna arrived in the capital on the 19th May, as was expected; that his reception was very different from what he anticipated. The populace, or rable, principally *leperos*, assembled to receive the President *ad interem*, and showered upon him curses both loud and deep; and from words, proceeded, as the old nursery story runs to try what virtue there was in stones.

His excellency not being ambitious to follow the example of St. Stephen, escaped with great difficulty, and protected by his friends sought an asylym in the palace.—The people, indignant at the frequent defeats of the Mexican armies, and the failure of Santa Anna to redeem his numerous promises, sought to revenge themselves upon his person. Had it not been for the armed force and the police, the unhappy President would have been dragged through the streets, as was once the fate of that poor amputated limb, which has servrd him so long as a most potent reminder of a courage and gallantry which are now sadly in want of new props.

FROM TAMPICO.—A private letter, received by a mercantile house in our city from Tampico, describes the situation of affairs there as gloomy in the extreme.—All business is suspended. Communications with the interior is cut off, as the garrison is sufficient to keep the country clear for twenty miles around. Robberies are committed with impunity, and the new Tariff devised by Mr. Walker has put a stop to all importations.—*Philadelphia American.*

GENERAL SHIELDS.—The numerous friends of General Shields will be gratified to learn that a letter, dated Jalapa, 3d May, has been received in Washington city, stating that he continues to improve. His wounds are doing as well as his surgeons could desire; and he would be (comparatively speaking) comfortable and free from pain, were it not for the inconvenience he labors under in having two of his ribs dislocated. This was not found out until a few days ago, and it satisfactory accounted for much of the distress he was in, and which previously had been erroneously attributed to his wound.—*Union.*

THE PRESIDENT'S RECEPTION IN PETERSBURG.—The President of the United States, accompained by Mrs. Polk and several other ladies, and by the Secretary of the Navy and his Private Secretary, arrived in Petersburg, *en route* for Chapel Hill, o'clock. They were received by the Mayor and welcomed to the hospitalities of the town. After partaking of a repast which had been prepared for them, the President and his suite took their departure the same day for North Carolina.

MYSTERIOUS CASE.—We learn that the body of a beautiful female, apparently from 16 to 18 years of age, entirely divested of clothing, was found on Sunday, in a wood about three miles north-east of Camden, near what is know as the Devils Run.—From the condition of the corpse, it was evidently that of a person who had been dead at least three weeks. It is said that a wound was discovered on the back part of the head; but we have no good authority for stating this. An inquest was held, after which the body was decently buried. It is not known how this girl met her death; and the whole affair, with the exception of what we have here given, is shrouded in mystery. We presume efforts have been, or will be made by the proper authorities in New Jersey, to sift the matter to the bottom. Can it be that this is another Mary Roger's case?—*Phila. Bulletin.*
