EASTON GAZETTE.

EASTON, Md.

SATURDAY MORNING, MARCH 18

THE LEGISLATURE.—The Whigs of the Legislature held a meeting on Thursday night, 9th inst. at which the following resolutions were adopted:

Resolved, That the Whigs of the Legislature recommend the Whigs of the State to assemble in primary meetings, at such time and place in each county, and the city of Baltimore, as may suit their convenience, and appoint delegates to meet in State Convention, in the city of Baltimore, on the second Thursday of May next, to select delegates to represent the State in the Whig National Convention, to be held in Philadelphia on the 7th day of June following, to nominate candidates for President and Vice President; and to nominate Electoral candidates for the next Presidential election.

Resolved, That each county, and the city of Baltimore, be represented in said State Convention as they are in the Legislature of the State.

Resolved, That this meeting intend that the Representatives from each Congressional District shall have the right, at the State Convention, to propose their own Elector.

THE TREATY.

The Treaty was confirmed by the Senate on Fridry, 10th inst., by a vote of 37 ayes to 14 nays. Of the 14 who voted against the Treaty, 7 were Whigs, and 7 Locos. It is not to be supposed that those who voted in the negative were opposed to *peace*,—it was opposition to the *Treaty*, its terms, the manner of its negotiation, &c. All, undoubtedly, are rejoiced that there is a prospect of a settlement of our difficulties with Mexico, and an end to the expensive and deadly strife which has been carried on with that country for two years and a half. But who is *proud* of the Treaty that is to terminate hostilities between the two countries? Will it secure us a permanent peace? The present Government of Mexico is so weak that it can scarcely be dignified with the name. The members of the Congress of Queretaro have been denounced as "traitors" and enemies to their country, by the anti-peace faction. There is serious cause to fear that there will be ou-breaks and murders innumerable, from a portion of the people who deny any authority to the Congress, and, in fact, recognize no Government. The latest intelligence from Mexico, however, looks a little more cheering. One more powerful state has recognized Pena y Pena as President, and the authority of Congress.

But there is another light in which to view this document. In the following sketch of the remarks of Mr. Benton, a friend to the Administration, which we find in the N. Y. Herald, his views of this "British" Treaty are very pointedly and plainly expressed:

"It was a British treaty—it looked to British interests first, and to American interests last. It was gotten up by the British agent, McIntosh, and Mr. Trist was but his credulous instrument. It looked to British interests in the *empresario* grants in Texas—it looked to British interests in the Macnamara and other foreign grants in California. Inside and outside, article by article, sir, the treaty is a British treaty—made by the British, palmed off upon Trist, who assumed a responsibility as legitimate as that of coining money. And here, sir, this thing comes before us, and is recommended to us as the best we can get, and that we had better take it. I take no such treaty, sir; I wash my hands of the infamous transaction. I scorn to give countenance to such an abortion. Peace may be had, sir—an honorable peace; but this is not such a peace. I scorn such a peace as this, coming to us from a man without authority, and the blind tool in his presumptuous ignorance, of the British agent in Mexico. No, sir, I scorn such a treaty as this, sir."

☞ By reference to our Legislative proceedings, it will be seen that that body adjourned *sine die* on Friday night, or rather on Saturday morning last, having passed a large number of bills, mostly, however of a private or local character.—We have endeavored as far as practicable to keep our readers advised of everything of interest that has been transacted since the commencement of the session.

DROWNED.—We learn from the Centreville Times that during a sudden flaw of wind one day last week, the grain boat of Edward Lloyd, Esq. of this County, having but little grain on board, was capsized in Wye River, and a black woman a passenger on board, was drowned. The Captain and crew, we are informed, made a narrow escape.

☞ Senator Sevier, of Arkansas, was on Tuesday nominated by the President as Commissioner to Mexico, with the rank of Envoy Extraordinary and Minister Plenipotentiary, and full powers to negotiate and conclude the Treaty of peace. The nomination was confirmed by the Senate, and Mr. Sevier was expected to have started for Mexico on Thursday or Friday.

RIOT AND LOSS OF LIFE.—From the Baltimore Clipper we learn that on Sunday afternoon last, at an alarm of fire, a collision took place between a large number of firemen, in which bricks and stones were thrown in showers, and pistols fired. A young man named Anthony Hughes, about 18 years of age, received a wound in the head from a pistol, and died in three hours. Several others were severely wounded. A number of arrests were immediately made, the police being promptly upon the spot. The man who fired the pistol that killed Hughes, has since been arrested and committed, to answer to the charge of murder.

☞ There is a call for a Taylor convention, to be held in the city of Baltimore on the 20th inst., signed by over twelve hundred and fifty names.

☞ We understand that James Tilghman Esq., of Queen Anne's, has been appointed to the command of the Steamer Cambridge.

PUBLIC DOCUMENTS.—We are indebted to the Hon. J. A. Pearce, U. S Senator, for a copy of the report of the committee on Military Affairs on the California Claims—and to the Hon. R. C. Carter, State Senator, for the report of the committee of Ways and Means on the Finances of the State.

☞ At a meeting of the Locofoco members of the Legislature, Col. William D. Bowie, of the Western Shore, and Col. Edward Lloyd, of the Eastern Shore, were chosen as delegates at large to the National convention, to be held in Baltimore, in May.

☞ We have received the first number of M'Makin's great "Model American Courier," which is, in fact, what its name purports. It is the largest family paper now published, and the typographical execution is beautiful. It is issued every Saturday, in Philadelphia, at $2 per annum; four copies $5, eight copies $10, twenty copies $20, and one to the agent.

☞ What has become of "Graham" and the "Union" Magazines? We see them acknowledged by our exchanges, and as we published a long prospectus for each, we think we are fairly entitled to them. What say you, gentlemen, is it an unintentional omission? if so, we trust you will place us upon your list, and forward the March number.

CHLOROFORM.—Our exchanges record numerous cases of death by the use of chloroform. It appears that its action upon the system is like lightning, and one drop too much causes instant death. It is stated by medical men that it is impossible to regulate the quantity to be administered in safety. The following testimony of a physician, we clip from the N. Y. Tribune:

ANOTHER DEATH BY CHLOROFORM.

To the Editor of the N. Y. Tribune.

With your leave I should be pleased to submit to your readers some plain practical remarks on the inquest in the case of Murphy, who died after a trifling operation, preparatory to which chloroform was used. It is pretended by some of the witnesses that there is uncertainty as to the cause of this man's death; that he had a disease of the lungs, &c.; and accordingly the jury find he died of the disease. Now, do any of the readers of *The Tribune* imagine that this man had any disease that was at all likely thus to destroy his life?—That when death results from the disease of the lungs, which this man is said to have had, it occurs at all in the way or with the symptoms noted here? If so, they are egregiously deceived. No medical man, having any character to lose, will assert it. So far as his disease of the lungs was concerned, this man would have lived months probably, possibly years. He *died by chloroform and by it only*, and when a physician says there is any doubt of this, he means, and can as a sane man only mean, that, medicine not being an exact science, a possibility of doubt always attaches to medical conclusions. Rely on it, no medical man will aver swear that he has any reasonable doubt that this man died by the chloroform. This should be distinctly stated and widely known. The temptations to use this agent are great—the facility, the apparent simplicity, and the frequent impunity, all plead strongly for it; under these circumstances, no attempts to smother up facts should be made, when those facts, as in the present case, present clear proof that this agent may destroy life. This is no solitary case.—Other lives have been lost, lives of those who, but the hour before, had as strong a hold on existence as any amongst us. And us should be widely known. Publish it, then, to the world that the chloroform will in almost all cases destroy the sensibility to pain, but that this immunity to suffering is *bought at the hazard of life*. It has destroyed life, and of course may do it again.

A PHYSICIAN.

Wednesday Morning.

MURDER OF A BALTIMOREAN.—We have been favored with the perusal of a letter from a member of Captain Tilghman's company, dated Jalapa, February 6, from which we make the following extract:

"One of our company, named Joseph Paris, who was also a private in Ringgold's company five years, was, on Wednesday night last, by some means or other, enticed by some Mexicans into the suburbs of the town and most brutally murdered. I never witnessed such a sight in my life, although I have seen many share the same fate—his head and body were literally chopped to pieces. There has been several arrests made, some of whom were in company with Paris during the evening, and no doubt but they had a hand in the matter, and will have to produce the murderer or suffer themselves, for such debts *must* be paid."

Five Mexicans were hung on the 19th of January, in the public plaza of Saltillo, by order of Col. Hamtramck, of the Virginia regiment, now in command at Buena Vista. They belonged to a small party of guerrillas, who had been found guilty of the murder and robbing of three discharged soldiers of the Mississippi regiment, who were returning on account of ill-health. They were detected and identified by Mexican agents, and subsequently confessed their guilt. Col. H. states that their execution met the entire approbation of the worthier portion of the inhabitants of Saltillo, and will have a fine effect in restraining the lawlessness of the bandits and assassins that infest the road between Camargo and that place.—*Lynchburg Virginian.*

FROM VENEZUELA—*Flight of the White Population.* By late intelligence from Venezuela, the N.Y. Herald learns that the white inhabitants of Laguayra and Carracas are flying in all directions from the vengeance of the black and colored races, who have completely overawed the cities, and have assumed so menacing an attitude towards the whites as to inspire them with a dread of being murdered if they remained.

The party of Monagas, the President, and Fourierite leader of the blacks, himself a creole, were going about the sts. in armed gangs, and impressing all the mixed races or blacks they could find. One colored carman was dragged from his cart and carried off; and the impressment is going on daily.

It was rumored from the interior that the whole of the country was on the eve of a general revolution, and that the celebrated Gen. Paez was making great efforts to rally the whites.

The white population along the seacoast were trying to escape out of the country. Most of them were going to the Island of Curacoa, and taking passage in different U. States vessels. Mr. F. Weissman, lady and family, came passengers in the Orbit, being obliged to abandon their beautiful estate by this dreadful panic.

APPOINTMENTS. The President has appointed, and the Senate confirmed, Nicholas Willis collector of the customs at Oxford, Md., Thomas W. Hoye surveyor at Nottingham, and A. Thompson surveyor at Llewellensburg, Md.

Odd Fellows' Hall. The Odd Fellows at Cambridge, Md., have recently erected a neat and spacious Hall, for their own use, in that town.

PRICES CURRENT.

BALTIMORE, March 16, 1848.

JAMES R. SHORT.

Easton, Feb 26 1848—4w

The Lady's Dollar Newspaper

This work it is the intention of the publisher, who is well known to the American public, to make far superior to any other Family newspaper of the day. It will be published at ONE DOLLAR per annum, payable in advance, which will only be about four cents for each number. He will be assisted by a number of Literary Ladies, who are anxious to see a publication in the shape of a newspaper issued that may be worthy the patronage of their sex. It is the intention of the editor to rescue from oblivion the writings of the most eminent female writers such as Miss Sedgwick, Mrs Sigourney, Miss Gould, Mrs. Embury, Mrs Stephens, Mrs Child. Miss Fuller Mrs. Kirkland, Mrs Osgood, Mrs Fanny Butler, etc etc The best Stories & Essays that are published in the English Magazines will be transferred to its columns, and the public will get through this medium twice a month an opportunity to contrast the Literature of America with England, and will receive for one dollar what is charged by other publications from $3 to $6.

This paper is intended to take the place of the reprints of Blackwood and the London World of Fashion.

One great feature will be the entire Republication of all the most splendid English annuals, giving for four cents, the litterary matter of what here would cost from five to ten dollars An English Annual for four cents.

One thing it is thought important to mention—No article published in Godey's Lady's Book will be published in the Lady's Dollar Paper, and vice versa.

One reason for changing the reprints of the London Magazines to the Ladys Paper, is that we were then bound to give merely a Reprint of what was good and bad, In the Dollar Paper we have it in our power to repel the bad and give only the good and we can communicate more freely with our subscribers—give them every novelty in Dress, Accomplishments, etc

It is in our power to produce—aided by the able assistants we have—a work that may fairly be entitled a Lady's paper, and we will do it. We would prefer that the work should be seen and judged by the mers, which is a better test than a mere prospectus

TERMS.

Single copy, one year payable in advance 1 00. Six copies, $5.00 Thirteen copies 10,00 Address L. A. GODEY.

113 Chestnut street Philada.
