Imprudence in Life, or Impurity of the Blood.

This valuable Medicine, which has become celebrated for the number of extraordinary cures effeeted through its agency, has induced the proprietors, at the argent request of their friends, to offer it to the public, which they do with the utmost confidence in its virtues and wonderful curative properties. The following certificates, selected from a large number, are, however, stronger testimony than the mere word of the proprietors; and are all from gentlemen well known in their localities, and of the highest respectability, many of them residing in the city of Richmond, Va.

F. BOYDEN, Esq., of the Exchange Hotel, Richmond, known every where, says he has seen the medicine called Carter's Spanish Mixture admin istered in over a hundred cases, in nearly all the diseases for which it is recommended, with the most astonishingly good results. He says it is the most extraordinary medicine he has ever seen. AGUE AND FEVER-GREAT CURE.-I hereby certify, that for three years I had Ague and Fever of the most violent description. I had several Physicians, took large quantities of Quinine, Mercury, and I believe all the Tonics advertised. but all without any permanent relief. At last I tried Carter's Spanish Mixture, two bottles of which effectually cured me, and I am happy to say I have had neither chills or fevers since. consider it the best Tonic in the world, and the only medicine that ever reached my case.

JOHN LONGDEN, Beaver Dam, near Richmond. C. B. Luck, Esq , now in the city of Richmond and for many years in the Post Office, has such confidence in the astonishing efficacy of Carter's Spanish Mixture that he has bought upwards of 50 bottles, which he has given away to the afflicted. Mr. Luck says he has never known it to fail when taken according to directions.

Dr. Misge, a practising Physician, and formerly of the City Hotel, in the city of Richmond, says he has witnessed in a number of instances the effects of Carter's Spanish . Wixture, which were most truly surprising. He says in a case of Consumption, dependent on the Liver, the good effects were wonderful indeed. SAMUEL M. DRINKER, of the firm of Drinker
