A voiceiess hush in parlour and in half-And through the house on tip too I am treading, Like one approaching some funercal pall;-I sit me down in silence strangely musing, But through my spirit darts a throb of pain; Une voice is hush'd I fain would hear again.

Twas a sweet echo, silvery, clear and Heavenward, That filled these rooms from morn till dewy night, Like the rich glory of the sunset light; Twas the first note that broke my morning slumbers, The last that bless'd my ear at close of day; When I was glad it filled me to o'erflowing, When sadness came it stole my griefs away.

Plying my needle in some quiet corner Cheer'd by that voice time passed too swiftly Or o'er the page of some romantic story Sitting with busy thought and pensiva ere, Those thrilling cadences came floating ever Like waves of licavenly music o'er my soul, Till my charged bosom throb'd a wilder pleasure, And tears gush'd forth without the will's control

How oft my work and book lay all unheeded, When woke that voice to some sweet forest strain! Now Lark-like singing at the gates of Heaven, Now scattering melody like showers of rain! How have I backward fled to years departed, To some old tangled wood-path green and wild, Where birds from leafy bowers were chanting o'er me The same wild songs that thrill'd me when a child.

But it is o'er-that echo wakes no longer-And on my heart a deeper gloom is cast Than dwells within these halls, where, oh! how lately Those sounds were heard the sweetest and the last Nor let the world unfeelingly upbraid me, That I recall that voice with bitter tears, USEPH RASIN has just returned from the Twas the dear counterpart of each emotion,

Oh! I did hope that from thy swelling bosom That song might gush above my quiet grave, But thou within thy own calm nook art sleeping, Where lillies bloom and roses gently wave; Beside that little mound I oft will linger, And with these hands bright flowers above thee

Thinking of thee and hours of sunny gladness, Ere death had taught the widow'd heart to grieve.

Is there not some green world beyond the present, Some heavenly solitude for off where throng In plumage brilliant as the bues of sunset The birds that thrilled us by their earthly song? Where under echoing trees, o'er lakes unruffled, And thou dear Bird, amid that countless choir
