AFFECTION.

'Tis much in this cold world of ours To know there beats a heart, To which our own is closely bound By links that none may part; Some Heaven-born feeling that will last, When youth with all its bloom has past.

To know that tender thoughts awake For us when far away, And gentle eyes are beaming still, With softer, purer, ray, Than kindly stars whose guiding light Cheers the lone traveller through the night.

Tis much in life's sad path to feel That tears will oft be shed, When friendly hands have laid us low In silence with the dead; And rustling footsteps linger near, Of those we beld in life to dear.

To know that on night's starry paths Some mealier friend will gaze On scenes of other days, Wonder if in those worlds so fair He e'er shall meet the lost one there!

O. what were hope? O, what were life? If in this valley dark No friendly light before us shone, The wanderer's path to mark; No star of love whose heavenly ray Might lead us to a brighter day !
