TOLLINGSWORTH'S TWO HUND RED FLOATING BALLS, or KNUC KLE WASHING MACHINE, will wash one dozen pieces of clothes in two minutes without in jury to the most delicate material.

This Washing Machine has taken the premium at all the Fairs where exhibited. It is pronounced by all who have seen it the wonder of the age. I

The Machine is so easy to work that small children can take part in it; any half grown girl of ordinary strength, however little used to labor, can do a regular week's washing, and derive great benefit from the exercise, it being of the very best kind for strengthening the arms, chest and loins.

BANK NOTES .- It will wash bank notes without tearing or injuring them. Therefore not only is great labor saved, but the clothes are not injured as by other machines and rubbing boards. This will be apparent to all who see it in operation as it is not a rubbing machine. No boiling of clothes required. We invite the public to call and see it; also ask the Ladies (who wish to purchase) to send their servants with soiled clothing to No. 240 Baltimore street, (up stairs) where we wash them so quickly as to convince the most sceptical. To meet the circumstances of all we put it at \$12 We give the testimony of a few of the hundreds who are using them.

THIS GENTLEMAN IS Well known throughout our own and other States as a chemist: SYKESVILLE, Md., March 5th, 1856.

MESSRS, MORTINER & MOWBRAY, Gentlemen-In reply to your inquiries in regard t Hollingsworth's Floating Balls Washing Machine, have to say the principle is certainly the best I have ever seen or used for the saving of labor, clothes, time and soap. Those in my family say they can wash six pieces by this machine to one on the ol plan, and not feel the labor; the clothes being better washed. We are perfectly satisfied with the machine, and recommend it to all our friends. Yours, with respect, WM. BAER. BALTIMORE, June 19, 1855.

This is to certify that the undersigned has in use one of the PATENT KNUCKLE WASHING MA CHINES, and finds it to be everything claimed for i The labor is greatly lessened, and the expedition wit which a heavy washing is accomplished is surprising A swash-day is accompanied by many inconveniences by way of speed should be bailed with pleasure; and must be generally adopted, as much time and labo are both saved, and the work better done, while the articles are not injured by the usual friction of rubbing in the old way of washing.

A REVOLUTION IS CERTAIN!

VICTORY IS OURS. CUCH is the progress of Science in this age that nothing seems impossible. That there are new and scientific discoveries being made every day. no one will doubt. After a thorough investigation of the Vegetable Kingdom, with a view to obtain positive or specific remedy for the more common ills of humanity, I have succeeded in bringing to gether such. Three years have elapsed since its gency in Philadelphia, and will furnish any introduction, and it is now esteemed the most pop-
