PROTECTION.—The Cumberland *Telegraph* says every one is complaining of hard times, the stringency in money matters and the general stagnation of business. How could it be otherwise? We buy almost everything, and make nothing scarcely. We go abroad for our wool, our clothing, our iron, steel, luxuries, and a thousand other things. This system will impoverish any nation that attempt it. We must make them at home. Home industry must have adequate protection. As a nation we can never thrive without it. It takes all we can accumulate in one year to pay foreign manufacturers for articles we can make ourselves if properly protected against the ruinous competition offered by the pauper labor of Europe.

The only panacea for hard times, scarcity of money and business stagnation is to protect home industry and foster American manufactories. It is conceded, that since 1846 we have imported *twelve hundred millions of dollars worth* of foreign goods, all of which could have been manufactured at home it the tariff of 1842 had not been repealed. This would have enabled us to retain this enormous sum of money, and make us the envy, in point of real prosperity, of all the world. But for party subserviency this would have been done—and we would not now behold the prostration that afflicts business. The great battle-shout of the people particularly of the industrial classes, in the next campaign should be ample protection to American labor and American manufacturers."

In addition to the above, see what little confidence President Buchanan has in his own mechanics, when he has given out the contract for the manufacture of pipes to supply the city of Washington with water to another country,—Scotland. If it be true it is a disgrace upon the country, caused by its chief commander, especially when we bear in mind that the furnaces along the Lehigh Valley are idle for want of employment. Encourage the foreigner, and let the native wither and die appears to be the motto of the Administration party.—Let all who are opposed to such an Administration keep this fresh upon their minds, against the next great conflict.

ELIDE ISLAND GUANO.—Among other fertilizers lately discovered, we notice the Elide Guano, which has only been introduced into the market within the last six months, is already standing, according to the best analyzers, among the best fertilizers known. All parties that have used it pronounce it equal to any Guano ever discovered. It is said to be much easier applied than Peruvian, as it contains no hard lumps, consequently needs no preparation before using. Below is an extract from a letter from a gentleman in Virginia, which speaks highly of the Elide as a fertilizer:

RICHMOND, VA., July 19, 1858.

"We have tried the Elide guano, to some extent, on our own corn, this season, and find it acts as finely as any Peruvian we have ever used. It is beyond any question a fine fertilizer, is very quick, and seems to contain ammonia and phosphate of lime in *better proportions* than the Peruvian, and consequently worth just as much to the farmers *pound* for *pound*, as the Peruvian. Our opinion is, that the excess of ammonia in Peruvian, beyond what the Elide contains, is not taken up by the crops, and the only way to make it available, is to add a guano containing phosphate, and use it on a proportionably greater surface of land.

THE editor of the Star thinks that wonders will never cease. You are right sir, for Messrs. Morse & Field have been spoken of as the next President and Vice President of this great Republic, on account of their wonderful Telegraph operations. Well as none ought to be slighted it has been suggested that the editor of the Star must have a conspicuous place in their Cabinet (although he may resemble a pig in a parlor, in filling such a position,) and he so indebted to the Cable for his elevation, and so overcome by his feelings as to give vent to something like this:

"The Atlantic cable
Ain't a fable.
Bring forth several bottles of champagne and place them on the table.
We intend to be slewed like Cain slew Abel.
Till we can't stand, but must sit on our gable."

STEAM MILL BLOWN UP.—We learn that on Thursday last the boiler of the steam mill at Cambridge, Dorchester county, exploded, completely demolishing the building and killing a horse. We have heard of no further damage done by the accident.

☞ Fires have lately occurred in Philadelphia, Rochester, New York and Cincinnati, destroying over $182,000 worth of property.

☞ An effort is making in Arkansas to induce the Legislature to compel the whole colored population to leave the State.

Local Items.

FIRE—FIVE OR SIX HOUSES DESTROYED.—A fire broke out on Thursday last, between four and five o'clock in the afternoon, on Goldsborough street, in a stable belonging to Mr. A. B. Pritchett. From thence it spread to the stabling of the Union Hotel, which belonged to T. K. Robson, Esq., and in the occupancy of Mr. T. B. Merlett. Owing to the close proximity of the residence of Dr. Sam'l Harper, but owned by Mrs. Mary Hughlett, the flames, with almost the speed of an electric flash, enveloped the whole building. The Doctor saved nearly all of his furniture from the flames, but it got very much broken.—There was no insurance on any thing that was burnt. There are various opinions in regard to the origin of the fire, but it is generally supposed that it must have caught from a spark. They were old frame buildings, except the dwelling and kitchen; and the whole of them—dwelling, kitchen, smoke-house, carriage-house and two or three stables were all jammed into a space of not more than two-thirds of an acre of ground,—some of the stabling adjoining the dwelling. In fact a misfortune has occurred which has been feared would occur for a number of years. Dr. Harper's loss by the fire will fall upon him very heavy indeed, having to depend solely upon his practice for a livelihood—and a large family depending upon him for support, and his locks are well whitened by the frosts of time.

Several other houses took fire but were speedily extinguished with the use of buckets (we having no fire apparatus.) We have two apologies for fire engines, but both together would hardly save a chicken coop from being destroyed by fire.

FIRES AND FIRE APARATUSSES.—We suppose our citizens will get into an awful Fire Company fever, as they generally do after a big fire, but what is every body's business is no ones business, and of course the fever soon passes off, and then it await another fire before it returns. Now it appears to us that there may be all the fire engines brought here that ever were manufactured, and there would not be one fit for use in a year, it left standing out in the weather, or kept in a house filled with dirt and filth of every kind, and no more care taken of it than if it was a hog pen—and equally as offensive, and the engine never overhauled or cleansed unless it gets entirely out of working order.

Now we think the only way fire aparatusses can be kept in order here is, by paying a man a small salary to attend to them, and the engine house put in proper order, and kept free from the deposit of rubbish and filth of every sort. Indeed it is a wonder to us that the different fire insurance Companies do not hesitate to insure property in a town of this size, where there is no means of extinguishing fires. There are two important things which Easton is deficient in, viz:—fire, engines and water.—West street, we believe has but three public pumps on it, and there are others, we presume, equally as bad off. Do not let the fever pass off so quickly, but let some means be adopted immediately to extinguish fires, even if they seldom occur.

TOMB-STONES DESTROYED.—We are sorry to be compelled to say that we have among us hearts black enough and spirits of so debased a character as to invade one of our graveyards and throw to the ground and break into pieces several tomb-stones. Some may say it was done by boys; if it was, they must have been well grown boys, and it is a great pity that such offenders cannot be found out and severely dealt with

CONVICT SOLD.—Sidney Hinson, convicted of stealing money, was sold on the green on Tuesday last for $150. I. C. W. Powell, purchaser.

A MARYLANDER IN NEBRASKA.—Chas. C. Norwood, a young lawyer, formerly of Baltimore, has just been elected a member of the territorial legislature of Nebraska, from Sarpy county.

THE SUBLIMATION OF DEMOCRATIC ESPOINAGE—TAX ON OFFICIALS.

We were almost persuaded to discredit our own senses on reading an article from the Washington Union—Mr. Buchanan's organ—which will be found below. Charity, in the performance of her benign office, would suggest, in extenuation of so bold an exposition of wanton cruelty and advocacy of imposition, that the author may have been momentarily hallucinated, or controlled by some evil *spirit*. Children and fools, it is said, are apt to tell the truth, when wise men would have suppressed it. The demented writer of the *Union*, therefore, in his unguarded moment, or in an hour of extreme simplicity, has made a terrible exposition, confirming and acknowledging all and more than was charged against the present Administration.—He has, we fear, betrayed his masters, by assuming independence more genuine than virtuous. We are now, without stint or reserve, told by the Administration's official organ at Washington, that a tax should be—is to be— must be—levied upon every office-holder, to support the Democratic party. The *Union* goes so far as to fix its schedule or rate of per centage at "two dollars and a half a year on each thousand dollars" of an official's "salary," to *support*; in its own language, "*the cause of Democracy*, and the penalty of refusal, under any circumstances—*dismissal instanter*." "We believe," remarks this honest journal, "the *cause to justify the means*." And again, persons (office-holders) "who refuse to aid in so *patriotic a work*, should be the last to complain if they are deprived of the special favors of those in power."

We have never, in the whole history of political warfare, seen so bold a stand taken in a bad cause. That which was once done covertly—of which respectable people were ashamed—is now openly proclaimed as a cardinal principle of democracy. Further comment, however, is unnecessary. The article in question speaks for itself We, therefore, direct attention to it as follows, with the remark that if Mr. Buchanan is sagacious; he will require another "organ grinder."

The Tax on Officials.—We see it reported, we do not care upon what authority, that a tax is levied upon the persons employed in the Government service, and the payment thereof exacted. We are quite ignorant of the authority upon which this payment is demanded, or the purposes to which it is applied when received. We trust, however: that whatever may be thus collected may be wisely and economically applied to advance the interests of the democratic party in its struggle with the opposition. It is said that from one-quarter to one-half of one per cent. on the salary of officials is thus exacted. Now, without knowing anything of the alleged tax, and with no belief in its existence; as a general thing, we have just this to say on the subject: If there is a person in the public service who does not voluntarily contribute the amount, at least, of two dollars and a half a year on each thousand dollars of his salary to support the cause of the democracy, he should be dismissed at once, and his place filled by one who is patriotic and liberal enough to double the contribution. We believe the cause to justify its support, and those who refuse to aid in that patriotic work should be the last to complain if they are deprived of the special favors of those in power. We would recommend no system of espoinage, no mean efforts to hunt out the miserable scavengers who devote four or five hours of indolence at their desks, and the balance of their time to assaults upon the democracy; but that forbearance which keeps them in office a moment after their treachery is known, is sadly misplaced. It is a notorious fact that more than half the patronage of this government is bestowed upon such unworthy and untrustworthy men. We hold it to be certain that a traitor in politics only needs an opportunity to betray his trust and sacrifice the interests and character of the government. Political immorality and personal morality are impossible elements in the same individual.

From the Cecil Whig.

☞ From Delaware, the indications are that the new "People's Party" will sweep the State at the Fall election. The opposition there are fighting the locofocos upon the old Whig issues of "the Tariff" and "an equal Distribution of the Public Lands," but the main question with the people is the extravagance of the Administration. The State is being thoroughly canvassed by distinguished speakers, and the signs of the times indicate an utter rout of locofocoism.

☞ The locofocos of Delaware have nominated Dr. William Burton, of Kent county, for Governor. and Hon. William G. Whiteley, Congress.

The convention of the People's Party, to nominate candidates for the same offices, will be held at Dover, on the 2d of September.

☞ The People's Party of Wilmington have nominated Thomas Young for the same office.

ESCAPE OF PRISONERS.—Six prisoners escaped from the Jail of Cecil county on Friday night week.

SEVERAL articles have been crowded out of to-day's paper, owing to a great run of Advertisements. Among the articles crowded out is, Mr. Preston's letter, speaking of Col. Hambleton, and the Willson trial.

HOLLOWAY'S PILLS AND OINTMENT—VILLANY AT WORK.—As a prevention against being poisoned by vile counterfeits of these renowned preparations, see that on every leaf of the books of directions enclosing the boxes and pots, the words, "Holloway, New York and London," are impressed in the form of a water-mark, distinguishable when the paper is held up to the light. The aggregate of cures of indigestion, bowel complaint, fever and ague, remittent fever, eruptions, ulcers, contusions, rheumatism, etc., achieved by these preparations during 1857, exceeds by one hundred per cent. that of any former year. The demand in this country has increased enormously during the same period.

Our billingsgate neighbor of the Gazette accuses us of quackery; because we publish Dr. AYER's advertisements. Now this same editor knows the Pharmacopelia itself is not more free from the suspicions of quackery than his medicines. He knows they are endorsed by the medical Journals of this country, are used and prescribed by our best physicians, and have the commendation of professors and eminent men of character too exalted for his comprehension, and he knows too that they have done and are doing in this community an amount of good which the utmost stretch of his ability can never hope to equal. —Berks Co. MARYLAND:

Talbot County Orphan's Court.

August Term, A. D. 1858.

ON application of Sam'l Emerson, Adm'r of Richard B. Willis, late of Talbot county, deceased—

It is Ordered, that he give the notice required by law for creditors to exhibit their claims against the said deceased's estate, and that he cause the same to be published once in each week for the space of three successive weeks, in one of the newspapers printed in the town of Easton.

In testimony that the foregoing is truly copied from the minutes of proceeding of Talbot County Orphan's Court, I have hereunto set my hand, and the seal of my office affixed, this 31st day of August, in the year of our Lord eighteen hundred and fifty-eight. NICHOLAS RICE,

(L. S.) Register of Wills for Talbot County.

In Compliance with the above Order,

NOTICE IS HEREBY GIVEN;

That the subscriber hath obtained from the Orphans' Court of Talbot county in the State of Maryland, letters of administration on the personal estate of Rich. B. Willis, late of said county, dec'd. All persons having claims against the said deceased's estate, are hereby notified to exhibit the same with the proper vouchers thereof, to the subscriber, on or before the 11th day of Sept. 1859, otherwise they may be excluded by law from all benefit of the said estate.

N. B.—All persons indebted to the said estate are requested to make immediate payment.

Very Superior Talbot Co. FARM FOR SALE.

ON **TUESDAY, the 28th of this month,** (September) I shall offer for sale at the Court House in Easton,

"FAUSLEY WOOD,"

containing **353 3-4 ACRES,**—176¼ being cleard Land, and 177 1-2 fine WHITE OAK Timber Land, 38 Acres of the latter being detached from, but near to the main body, and as it has never been cut upon it is particularly valuable.

FAUSLEY is situated upon a branch of Miles River and possesses a good Landing. It is distant by water about two miles from the Steam boat Wharf at Miles River Ferry, and a public road which passes by the Farm leads to the said wharf in about the same distance. Easton is 1¼ mile and Easton Point Wharf 2¼ miles distant by a public road which passes along the whole front of the farm. It is also within 1¼ mile of the Steamboat Wharf on the Choptank at Dover Ferry.—Besides the very excellent Schools in Easton, there is a Primary School on either side of the Farm, each being about ½ mile distant. There is a Steam Grist and Saw Mill in Easton and another, driven by water power, distant about 3miles.

The location of this Farm in respect to the county Town, Churches, Schools, Steamboat landings and Mills cannot be excelled;—and for extensive fruit growing it has peculiar advantages in respect to soil,—the protection from storms by surrounding forests, and its proximity to the projected Rail Road from Easton, and to Steamboat Landings,—to one of which fruit from the Farm can be carried by water.

This farm has produced some of the heaviest crops of wheat and corn that have been grown in this county, and as it has been cultivated for many years in the most approved manner by Jas. N. Goldsborough, Esq., and been Limed,—the fences, drains and low grounds being clean and in prime order, the whole condition of this farm is not excelled if equalled by that of any farm in this county.

The Dwelling is of Brick and suited for an overseer or tenant, the negro quarter which is of brick can be put in good order at small expense, and a first rate barn and corn house were erected on it last year.

THE TERMS of sale are 1-4 of the purchase money cash, the purchaser giving notes secured by mortgage on the property for the remainder of the purchase money payable in three equal instalments with interest from the day of sale, in 12, 18 & 24 months.

M. TILGHMAN GOLDSBOROUGH,

Sept 4-ts S-M Agent.

N. B.—The subscriber, or Jas. N. Goldsborough, or Mr. Jon Plummer residing on the farm will exhibit it, and if it should not be sold it will be offered for rent for next year on the above named day. M. T. G.

*** Delaware Journal, Smyrna Times and Phil Ledger publish until the 28th unless otherise ordered.

Wanted to Hire for 1859, a good Cook, Washer and Ironer, for which liberal wages will be given. A slave preferred.

TRUSTEE'S SALE OF VALUABLE PROPERTY IN TALBOT COUNTY.

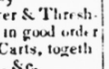

HAVING had the time of payment extended and terms made easier by the recent Court, the undersigned will expose to public sale in the town of Easton, on

Tuesday, the 28th day of September,

at 2 o'clock P. M., all that farm and tract of Land whereon James H. Ridgaway formerly resided, and whereon Solomon T. Love now resides, situate on the public road leading from the Chapel to Three Bridges, in the Chapel District, and containing the quantity of

300 ACRES OF LAND,

more or less. This farm has an excellent red clay soil, abounds in resources, is well adapted to the growth of wheat and corn and is very productive. There is an abundance of Wood upon it for the uses of the farm. Also valuable Meadows, one heavily set in Timothy.

The buildings are in tolerably good repair—within a half mile of this farm are, a church, school house and steam saw mill, which render the property very desirable. The location is an elevated one and quite healthful. Water not surpassed by any in the county. Orchards flourishing.

The line of the Md. and Del. Rail Road runs through one corner of the farm—without any injury thereto. The location of this farm being half way between Easton and Hillsborough, and directly on the public road, the corner of the farm through which this Rail Road runs—will no doubt be selected as a Depot for the Rail Road. Persons desirous of purchasing will be shown the premises by Mr. Love, who resides on the farm. Also all that tract of Land situate on the public road leading from Hillsborough to the Chapel, whereon James Hemsley, free negro, resides, adjoining the lands of Mary Leonard, William Bishop and others—within 1½ miles of navigation, and containing

225 ACRES OF LAND,

more or loss—buildings only ordinary—soil good—resources abundant. Small young peach and apple orchard on the farm. Wood and timber in the greatest abundance. Plats of the above farms will be shown on the day of sale.

TERMS:—One sixth cash, the balance in 6, 12 and 18 months.

N. B.—All persons having claims against said James H. Ridgaway are requested to file the same properly authenticated with the Clerk of the Circuit Court for Talbot County, or they may be excluded from any benefit of said estate.

THE undersigned would respectfully inform his friends and the public generally, that he has so far recovered his health as to be enabled again to resume the business of

HOUSE PAINTING, &c.

Thankful for the very liberal encouragement which he has heretofore received, he hopes by assiduous attention to business, and a determination to do his work in a satisfactory manner, at moderate prices, to merit a continuance of public patronage. R. H. T. COUNCELL.

Easton, Aug 28 2m

Easton Steam Mill.

THE subscribers respectfully inform the public, that they have purchased of Mr. J. H. Tuns, the Steam Mill at Easton, and intend to carry on

The Milling Business,

under the firm of

FOUNTAIN & BUCKMAN.

Mr. Buckman is an experienced Miller, from Pennsylvania, having been engaged in the business all his life, and we flatter ourselves that we can conduct the mill so as to give entire satisfaction to all that may patronise us.

It is our intention to purchase grain in sufficient quantities to supply the Easton Market with Flour and Meal. The mill will run regularly every *TUESDAY, WEDESDAY and THURSDAY*, for custom work, and longer if needed

We respectfully solicit a share of public patronage

The highest prices paid for Corn and Wheat—Flour and Meal can be had at all times at the Mill; and the mill will be opened every morning at sunrise. A. W. FOUNTAIN,
