WAR NEWS.

The Austrian forces in Lombardy were in full retreat, and were leaving the line of the River Oglio, to take up, as was supposed, a position behind the Mincio. The French and Sardinian troops were in rapid pursuit, and were being concentrated for a decisive attack. Another great battle was anticipated within a week, and it was also thought probable that a naval demonstration would be made in the Adriatic by the French fleet. The mobilization of the Prussian army and the more hostile attitude of Germany had caused uneasiness both at London and Paris, and depressed the funds.

THE following is the dicision of Judge Carmichael, in the event that a free negro commits a crime and is sold for it:

The appeal from the order of the Orphans Court of this county extending the term of service of John Myers negro, and authorizing his sale either within or beyond the limits of the State was argued before Judge Carmichael on Friday last by John M. Robinson Esq. for the appellant and Lloyd Tilghman and Thos. J. Keating Esqs. for Mr. John T. Thomas, the appellee.—The main point in this case was whether a free negro convicted of crime and sold under the provisions of the act of 1858 becomes a slave. Judge Carmichael affirmed the order of the Orphans Court and by his decision sustained that construction of the act which attaches to the negro sold under it all the incidents of slavery.

A friend suggested the other day that the reason why Gen. Cass wrote that letter, which is likely to become famous, to Le Clerc, was that he wanted to frighten foreign citizens into staying at home, as the Democracy would want every vote they can rake and scrape in 1860.

There is such a slaughter going on among their allies across the water, at this time, as to make the chances of recruits from that quarter rather slim, and it is therefore necessary for them to keep strong hold of all they have.

IOWA.—The Republican State Convention of Iowa, which met at Des Moines on the 22d inst., nominated the following ticket for State officers:

For Governor—S. J. Kirkwood. For Lieutenant Governer—N. S. Rush. For the Supreme Bench—L. P. Lowe, L. D. Stockton, and Caleb Baldwin.

Resolutions were passed condemning Gen. Cass' naturalization letter, the slave trade, and the Massachusetts constitutional amendment providing for two years' residence after naturalization before voting.

A TOMAHAWK FOUND IN A SAW LOG.—The Messrs. Gibson, who own a saw mill in the neighborhood of Caledonia, were engaged a few days ago in sawing a pine log about two feet and a half in diameter, when an unusual screeching of the saw attracted their attention. They examined the cause of the noise, and found in the center of the log an Indian tomahawk, in the eye of which was a piece of rotten wood, a part of its former handle. The log was otherwise perfectly sound.—*Hamilton (Canada) Spectator.*

In Vermont the factions of the democracy are engaged in a fierce contest. The administration party are facetiously dubbed "cow-boys," and the Douglasites rejoice in the euphonious appellation of "stump-tails."

WISTAR'S BALSAM OF WILD CHERY.—This medicine is "a combination and a form indeed," for healing and curing all the ills which afflict us in the shape of coughs, colds, and inflamation of the throat, lungs, and chest.

There's a vile counterfeit of this Balsam, therefore be sure and buy only that prepared by S. W. FOWLE & Co., Boston, which has the *written* signature of I. BUTTS on the outside wrapper

HOLLOWAY'S PILLS.—Coughs, particularly those of a hard, dry character, frequently proceed, primarily, from a diseased condition of the stomach and the liver, and may often be removed by a single dose of these extraordinary Pills. Dyspepsia is sometimes accompanied with a hacking cough is also a symptom of consumption of the liver. In such cases, physicians generally give mercury, a practice as unnecessary as it is dangerous, since a few doses, or at any rate a full course of the Pills, never fails to remove both the cause of the difficulty and the difficulty itself. The invigorating influence of the remedy upon the weak and debilitated is truly marvelous.

Trustee's Sale.

BY virtue of competent authority the undersigned, as Trustee, will offer at public sale, on

Tuesday, the 12th of July next,

in front of the Court House, in the town of Easton, between the hours of 2 and 4 o'clock P. M., the farm known as the "Glebe" Farm, whereof Andrew Sullivan late of Talbot county, died, seized and possessed, situate on the public road leading from Easton to Landing Neck, and near the public road leading from Easton to Trappe, containing the quantity of

143 Acres of Land.

The buildings comprise a two story Dwelling House out of repair, with ample Kitchen; commodious Smoke-house, Stables, Carriage house. Cart house and Granary—all in good repair, and an excellent well of water. The Farm is divided into three fields, each having a fine stream of water and meadow running through it. Soil very good and susceptible of a high state of improvement. There is also a fine Apple and Peach Orchard upon the farm. The farm is located within 3 miles of Lloyd's Landing, on the Choptank, a mile of Churches and Schools, and two miles distant from "Lloyd's Springs," a place of great resort on account of the excellent and healthy mineral properties of the water. In a beautiful neighborhood, it has all the advantages of an inland situation necessary to commend it to the notice of purchasers Persons desiring to view the premises will be shewn them by the Trustee, residing thereon.

TERMS.—One third of the purchase money in cash; balance in 12 and 18 months, with interest from day of sale, secured by bond and security, approved by the Trustee.

JOHNSON'S
PHILOSOPHICAL CHARTS;
A SERIES OF
Ten Large Charts, (each 34 by 52 inches,) accompanied by an Explanatory Key.

The plan of these Charts is entirely new; they embrace

Three Hundred Diagrams,

many of which are original illustrations, adapted to all of the popular and commonly used text-books relating to this branch of education. The use of apparatus is entirely superseded by these Charts. From the Hon. Theo. Frelinghuysen, Pres. Rutger's College, New Jersey.

Dr. Johnson's 'Philosophical Charts,' designed for the use of Schools and Academies, furnish an admirable substitute for the far more expensive apparatus. These charts hung on the walls of the school-room, in all which I hope to see them, will spread before the scholar a palpable illustration of the great laws in Natural Philosophy.

THEO FRELINGHUYSEN.

From Benjamin Silliman, LL. D., Prof. Emiritus in Yale College.

Dr. Johnson's 'Philosophical Charts,' are well worthy of the attention of all teachers and learners of the different branches of Natural Philosophy, to which they relate.

To teachers without apparatus, they must be an intaluable acquisition, and a very useful one to those who have the instruments.

Commissioners' Sale.

THE Commissioners for Talbot County will offer at public sale, to the lowest bidder, in front of the Court-House in Easton, on

Tuesday, the 12th day of July next,

At 2 o'clock, P. M., the contract for altering the public road and making three new bridges, over the streams near Cowgill's (formerly Stevens') Mill, on the road leading from Easton to Hillsborough; the said job to be done according to the specifications contained in the following Report, made by the Examiners appointed to lay down the said road.

REPORT.

We the undersigned Examiners, appointed by the County Commissioners to alter and amend the public road at and below the Mill owned by Daniel Cowgill, Jr., make the following report:

We find that the public convenience requires the road at this point to be straightened, widened, and bridged in three places—over the grist mill race, over the floodgate stream, and over the saw-mill race—the road to be (including ditches from which to raise the causeway) forty-six feet wide, and twenty-four perches long, commencing on the north side of the main road, near the race of said D. Cowgill's saw mill, and passing thence in a straight line to a large poplar tree on the south side of the grist-mill race—through the lands of said D. Cowgill.

The bridges, causeway &c., to be made after the following specifications: The bridge over the saw-mill race to be a single span, ten feet long and sixteen feet wide, in the clear, having three piles of eight inches diameter at the small end, on each side of the race, to be driven in the ground at least four feet and to be even with the surface of the ground at the top, upon which there is to be a cap-sill, eight by ten inches, morticed on each side with five sleepers from one to the other, four by six inches—between the bank and the piles to be plank sixteen feet long and two inches thick—the bridge to be covered with plank of same thickness, to be spiked down with wrought iron spikes—also frame banister, to be put up on each side of said bridge, to come off on the fast land with a flare—the whole to be made of the best white-oak timber. The bridge over grist mill race to be made by above specifications.

The bridge over the flood gate stream to be made with three spans, each fourteen feet long, making the whole length of the bridge forty-two feet, and sixteen feet wide in the clear; to be built with two mud-sills and abuttments, the abuttments to be made of logs squared on two sides, with logs for wings, sixteen feet long, dove-tailed into them and running from the stream into the fast land of the causeway, slanting outward, the land ends to be pinned together; two mud-sills, to be sixteen feet long squared on the top side, to be burried below the surface of the stream and to be fastened down by three piles at each end, of five inches in diameter and driven at least four feet into the ground—said mud-sills not to be of less diameter than fifteen inches; there shall be two upright posts in each mud-sill, six feet long between joints, twelve inches square and braced up stream; there shall be placed on these posts by morticing, two cap sills, twelve inches square, braced from the posts, said cap-sills to be twenty feet long, so as to allow for traces from them to the banisters; to be five sleepers to each span sixteen feet long, six by eight inches, the whole to be covered with plank two inches thick and spiked down with wrought-iron spikes—frame banister to extend the whole length of the bridge on each side and to run out on the abuttment wings the whole length thereof, the abuttment on each side to be raised six feet: the causeway to be raised to the level of the abuttments, thirty feet wide at the top; the road to be left open for a public watering place at the flood-gate stream. The whole of the lumber and timber to be used in the above bridge to be of white-oak.

JACOB MORGAN.
WM. P. LEAVERTON.
D. COWGILL, Jr.

The contractor will be required by the County Commissioners, to enter into bond with good and sufficient security, to double the amount of the purchase money for the faithful performance of the contract, and for the completion of the work within four months from the day of sale; the terms of payment to be agreed upon between the contractor and the said Commissioners; and the work not to be received by the County and paid for in full, until it has been passed by a committee, to be appointed by the said Commissioners to examine it, and the report of the said committee approved by the Commissioners aforesaid.

By order of the Board.

REPORT

Of the Committee appointed by the Commissioners for Talbot County to revise the list of text-books, recommended by the Teachers' Convention, to be used in the Primary Schools in Talbot County:

The undersigned, appointed by the Commissioners of Talbot county a committee to review the action of the Teachers' Convention in relation to text-books to be used in the Primary School of said county, and recommend a list of books for use in said schools, together with such other recommendations in relation thereto as they may deem proper—beg leave respectfully to submit the following

REPORT:

1. A list of books to be used uniformly in the Primary School.
   1. McGuffy's Primmer.
   2. McGuffy's Eclectic Reader No. 1.
   3. McGuffy's Eclectic Reader No. 2.
   4. McGuffy's Eclectic Reader No. 3.
   5. McGuffy's Eclectic Reader No. 4
   6. Town's Speller and Definer.
   7. Town's Analysis of words by suffixes and prefixes.
   8. Goldsmith's Natural History.
   9. Sargent's *Primary* standard Speaker.
   10. Goodrich's History of the U. States.
   11. Cornell's First Steps in Geography.
   12. Mitchell's Modern Geography and Atlas.
   13. Emmerson's Arithmetic No. 1.
   14. Emmerson's Arithmetic No. 2.
   15. Emmerson's Arithmetic No. 3.
   16. Potter & Hammond's Penmanship *—first six numbers.*
   17. Davies' Mensuration.
   18. Davies' Elementary Algebra.
   19. Parker's Philosophy.
   20. Guy's Astronomy.
   21. Gummere's Surveying.
   22. Crittenden's System of Book-keeping.
   23. Bullion's Grammar for Beginners.
   24. Bullion's Principles of Grammar.
   25. Book of Commerce.
   26. Ruschenberger's Physiology.
   27. Map of Talbot County,
2. —Your committee do not think it advisable that a copy of Webster's unabridged Dictionary, nor a pair of Globes should be provided by the county for each school, as recommended by the Teachers' Convention—but that each District having pupils requiring the use of the Globes, should provide them for itself
3. —Your committee recommend that the county should provide the books named in the foregoing list—but that each District should be supplied with a permanent Blackboard, a copy of Monk's Map of the United States, and such other aids as the condition of the school may require, including Globes, Chemical and Philosophical apparatus, Dictionaries, &c., at the expense of each District respectively requiring them.
4. —Your committee further recommend that the Commissioners purchase the books themselves for the use of the schools, and keep them in the Comm'rs' office to be distributed by the Clerk of the Commissioners to the schools as they may be required, and that an account be opened and kept by the said Clerk with each District, to show what books are obtained by each District, by whom obtained, and their value—the object of this recommendation being two-fold: 1. —That a considerable sum may be annually saved to the county by purchasing the books at first hand, varying from 10 to 50 per cent on the prices now paid.—2—That the books may be uniformly the same, and may be accounted for directly to the Commissioners
5. —Your committee do hot doubt that the mode of levying a half year's salary in advance for the teachers would be of great service in securing good teachers and adding to the efficiency of the Primary School system; but as that is a subject of policy involving the general system of county taxation, your committee do not deem it their duty to urge the subject further than to recommend, that if consistent with the best interests of the county in other respects, the Commissioners should so levy in advance, and also levy a sum say not less than two hundred dollars for the purchase of books—deeming this latter a matter of much importance.

All of which is respectfully submitted.

WISTAR'S BALSAM. WISTAR'S BALSAM.

And every form, however severe, of PULMONARY COMPLAINT!

Discovered by a distinguished Physician—containing no mineral or deleterious ingredient, but everything agreeable, it has, by the wonderful cures it has effected, been constantly appreciating in public favor, and is now firmly established as the **Great American Remedy**

For the cure of every minor disease of the Throat, Lungs, and Chest, as well as the most fell and fatal of all, **CONSUMPTION!**

The following letter from Rev. Henry Wood, late Consul to Beyroot, Syria, and formerly editor of the *Congregationalist,* Concord, N. H, and now Chaplain U. S Navy, is of like tenor of thousands in our possession:—

CONCORD, N. H., March 2.

Messrs. Seth W. Fowle & Co.—Gentlemen—Two years ago, a sudden and violent attack upon my lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficiency of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of WISTAR'S BALSAM OF WILD CHERRY, without the least confidence in its efficiency, I found the difficulty almost entirely removed before one bottle was used up. Having a mortal aversion to medicine, and seldom using it in any form, sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly, HENRY WOOD.

It has been used with like success by
SAMUEL A. WALKER, Auctioneer.
DR. WM. A. SHAW, Washington, N.C.
Alderman PERKINS.

And by numerous Physicians in their practice, as their Certificates testify.

Be Wise to-day!

Neglect not a Cough—Defer not the use of a Timely Remedy, within the reach all.

CAMPBELL'S *PURE ESSENCE OF JAMAICA GINGER*—Ginger is a grateful stimulant and carminitive, and is often given in *Gout, Rheumatism, Dyspepsia, Cramp, Cholera Morbus, Cholic, Cholera,* &c., &c.

In *Nervous and Sick Headache, Sea Sickness, Nausea, Imperfect Digestion,* or from Nausea induced by riding in a carriage, &c., it will be found most agreeable to the stomach and palatable to the taste, and affording at the same time almost in all cases immediate relief.

To the *Inebriate* it is particularly serviceable; a very small quantity used instead of the usual stimulant, will give tone and vigor to the digestive organs, and impart strength to resist the temptation, and may therefore be considered a valuable agent in reclaiming the drunkard.

The traveling public will also find it very efficacious in correcting the bad results arising from a change of water and diet, a few drops of which will give a glow and vigor to the stomach, equal to a wine glass of brandy or other stimulant, without producing any of the injurious and overrating effects which are sure to result from the use of stimuli of any kind. *It is also a superior article for Flavoring Jellies, Preserves, Cakes, and for other Culinary uses,* besides making a good beverage in hot weather.

DOSE.—An adult may take one spoonful; a child from 8 to 14 years old, half that quantity; and for a child 2 to 5 years old, 10 to 20 drops To be given in syrup or in sugar and water. Prepared and for sale by LEVIN H. CAMPBELL,
