The Easton Gazette.

Next door to Campbell's Drug Store,
EASTON, MD.

SATURDAY MORNING . . . . . APRIL 14, 1860

The Meeting on Tuesday.

According to public notice a meeting was held in the Court House on Tuesday last, in Easton, by the friends of the National Union party. Notwithstanding the unfavorable weather and considering that it was nothing more than a business meeting, it was one of very respectable size. Indeed those from the country deserved great credit and showed an earnestness of purpose by stemming the stormy and rainy weather to put their shoulders to the wheel. Had the weather been favorable no doubt there would have been a grand turn out. The proceedings had a charming effect. They were of such a nature as to draw some of the most rabid democrats in the county, and they looked as though they were very much impressed with the general appearance of matters, or that they thought something might be in the wind about the ending of the campaign. We are in hopes that their motives were good, but if they went to see the elephant they missed it, but may, see him before the races are over.

Anderson's Gas Burner.

Our enterprising and ingenious fellow townsman, Edward H. Anderson, deserves more than a passing notice for his perseverance and energy in bringing to perfection inventions which are useful to the present and will be, to the rising generation. We refer especially at this time to his late invention, which was patented on the 3d instant—his gas burner.

It is something that has ever been needed throughout the country. He has accomplished that which many have attempted, but invariably failed, viz: in producing not only a brilliant and cheap, but what is better than all, a reliable and perfectly safe light. But let it be ever so perfect it is almost useless to expect the masses of the people to eagerly take hold of this (when properly appreciated) great luxury, as humbug has long been the order of the day, but when they are brought forward and fairly tested, it is our impression that all who give them a fair trial and take into consideration their cleanliness and neatness in appearance, that the fluid which they manufacture into gas is nothing more than the ordinary fluid used in every family, and their safety, will give in that it is an indispensable necessity, in the way of a nice light.

In towns where there are no gas this burner will undoubtedly meet with ready sale. They are adapted to church or store, the spacious hall or the humble cottage—in it all may find a convenience.

We have tried the large burner, the sole invention of Mr. Anderson, and the Liliputian burner, invented by E. H. Anderson and S. B. Hopkins, for some time past, and find either of them a very agreeable companion. The Liliputian gives most an excellent light for ordinary house use, as the light can be made large or drawn to quite a small taper. The larger are better fitted for stores, &c. A number of these burners have been sent to Charleston, S. C., to fill an order, and wherever fairly tested they appear to give satisfaction. Messrs. Anderson & Hopkins are making preparations to send out agents through different sections of country to dispose of rights.

They have moved their shop from opposite the Gazette Office to Washington Hall, on the same street but at the southern end of the town, where they expect in a few days to put on a large number of hands in manufacturing these burners, when they will be enabled to supply all sections of country. For further particulars see advertisement in another column.

AN EXTRA SESSION.—An effort has been on foot in Washington and Alleghany counties to induce Governor Hicks to call an extra session of the Legislature.

The ostensible purpose set forth in the petition is the importance which attaches to the Chesapeake and Ohio Canal bill and the Baltimore and Ohio Railroad bill, both of which failed at the last session of the Legislature. We see by our exchanges that the proposition meets with no favor from the Governor and that he cannot be induced, in view of existing circumstances, to comply with a request to convene the Legislature, come from whomsoever or what quarter soever it may.

THE UNION BALL CONTINUES TO MOVE.—We see by a notice in the Baltimore Clipper signed by the executive committee of the State, that those favorable to the organization of a Union party in Baltimore were requested to meet in Carrol Hall, in that city, on Thursday last, for that purpose. Several of the most distinguished citizens of the Union, members of Congress, and others, expressed a wish to attend on this occasion, and were expected to address the meeting.

MAD DOGS.—Some sections of our county have been infested by mad dogs during a month past. Several persons have had dogs, hogs and calves bitten by them.—Persons should keep an eye to their dogs and stock while this plague is raging.

Proceedings of the County Meeting.

Pursuant to public notice a meeting of the friends of the Constitutional Union Party was held at the Court house in the town of Easton to-day, the 10th inst, at 2 o'clock P. M.

On motion, Dr. C. C. Cox was called to the Chair and Thomas J. Warren appointed Secretary.

The President having stated the object of the meeting, on motion of Col. R. Thomas, a committee of five was appointed to nominate delegates to the State Convention to meet in Baltimore on the 18th inst. Which said committee after a short absence reported the following:

Easton District—Howes Goldsborough, Jr., Leonidas Dodson and Saml. T. Hopkins.

St. Michaels District—Henry F. Byrne, John Harper and John R. McQuay.

Trappe District—John Donovan, John F. Mullikin and Isaac W. Jump.

Chapel District—Henry P. Hopkins, Thomas Arringdale, Jr., and James H. Ridgway.

Bay Hundred—William Bruff of Jos., Thos. P. B. Seth and Wm. K. Landin.

Which said nominations were unanimously ratified by the meeting.

On motion, the delegates were authorized to act with the other delegates from this district in electing a delegate to the National Convention.

S. T. Hopkins, Esq., then offered the following resolutions which were unanimously adopted:

Whereas, The present condition of the country demands that the patriotic and union loving men of all parties should unite in a common effort to avert the dangers of sectionalism and to promote a sound and thorough reformation in national affairs.—And

Whereas, It is the sense of this meeting that the democratic party by its abuses of the public trust and its persistent agitation of the Slavery question is responsible for the present deplorable condition of the country, therefore

Resolved. That we, as conservative citizens, refusing to identify ourselves with either of the sectional parties, acknowledging no allegiance but to the Constitution and the Union, pledge ourselves to the support of the Constitutional Union party, believing it to be the only party which can allay the present dangerous excitement and succeed in restoring peace and quiet to the country.

Resolved, That while we are determined to maintain our rights in slave property, we are opposed to all agitation whatever upon the slavery question, believing that our interests can be more effectually secured by consolidating and strengthening the Union than destroying it.

On motion, it was ordered that the proceedings be published in the Easton Gazette. After which the meeting adjourned.

C. C. COX, Chairman.
THOS. J. WARREN, Secretary.

MORE NEW GOODS.—Mr. John Goldsborough has opened his new stock of goods and invites the citizens of the county to call and give them an inspection.

Messrs. Patchett & Wright have also just returned with their usual variety of goods which they consider second to none in the market. Independent of the dry goods, groceries, &c., they keep on hand a large assortment of ready made clothing, which they are determined to sell bargains in.

Wm. P. Mackey has also returned from the city with a large stock of goods, to which he invites an examination by the public.

NEW MILLINERY GOODS.—Mrs. E. A. Mason is opening her Summer stock of goods. They have been selected with care, and she asks the ladies of Easton and the county to come and see for themselves.

We are indebted to Mr. Thos, C. Nicols, Jr., for a copy of his book, lately gotten up by himself, giving the patterns and styles of the great variety of hardware which he keeps. It also contains a catalogue of the various field and garden seeds kept by him, and the time for planting. In fact it is a very nicely arranged affair, and is useful to any one that has a garden or farm to cultivate. Mr. Nicols is constantly receiving hardware, fertilizers and other things kept by him.

OWING to our columns being over run by advertisements, this morning, we are compelled to omit a quantity of reading matter, which we had prepared for to-day's paper.

ABSTRACTS OF NEWS.

THE MOUNTAIN MEADOW MASSACRE—HORRBILE CONFESSION.—The Salt Lake Valley Tan, of February 29th, contains a statement from Wm. H. Rogers, in regard to the massacre at Mountain Meadows, in September, 1857, when 120 men, women and children, emigrants from Arkansas, were murdered by Mormons.

As soon as it became known that Judge Cradlebaugh intended holding a court, and investigating the circumstances of the massacre, and that he would have troops to insure protection, and enforce his writs if necessary, severel persons visited him at his rooms at late hours of the night, and informed him of different facts connected with the massacre. All those that called thus, stated that it would be at the risk of their lives if it became known that they had communicated anything to him; and they requested Judge Cradlebaugh, if he met them in public in the day time, not to recognize them as persons that he had before seen.

It will be reccollected that after the Mormons, who were painted, &c., like Indians, had fired upon the emigrants for two or three days, and finding it impossible to destroy them by that means, appeared in their natural dress and resorted to stratagem.

After this, Bishop Lee, a bloodthirsty villain, with a party of men, returned to the camp of the emigrants, bearing a white flag as a signal of truce. From the position of the corral, the emigrants were able to see them some time before they reached it. As soon as they discerned it, they dressed a litlie girl in white, and placed her at the entrance of the corral, to indicate their friendly feelings to the persons bearing the flag. Lee and his party on arriving, were invited into the corral, where they staid about an hour, talking with them about the attack that had been made upon them. Lee told the emigrants that the Indians had gone off over the hills, and that if they would lay down their arms and give up their property, he and his party would conduct them back to Cedar City; but if they went out with their arms, the Indians would look upon it as an unfriendly act, and would again attack them.

The emigrants, trusting to Lee's honor and to the sincerity of his statement, consented to the terms which he proposed, and left their property and all their arms at the corral, and under the escort of Lee and his party, started towards the North in the direction of Cedar City. After they had proceeded about a mile on their way, at a signal given by Bishop Higby, who was one of the party that went to the corral with Lee, the slaughter began.

The men were mostly killed or shot down at the first fire, and the women and children, who immediately fled in different directions, were quickly pursued and dispatched.

Such was the substance, if not the exact words, of a statement made by a man to Judge Cradlebaugh, who at the same time confessed that he participated in the horrible events which he related. He gave as a reason for divulging these facts, that they had tormented his mind and conscience since they occurred, and he expressed a willingness to stand a trial for his crime.

The Presidential Chances.

WASHINGTON, April 6.—There are many speculations and rumors afloat here as regards Presidential candidates. The Connecticut election is regarded as most unfavorable to the prospects of Mr. Douglas.—Indeed, he is spoken of by Democratic managers as already laid upon the shelf.—Jo. Lane is said to stand high in the affections of the Administration, but Hunter, Seymour, Breckinridge, Dickinson, *et id omne genus* have their ardent supporters. Among the Republicans it is thought that Mr. Seward's prospects have in no wise been improved by the recent election at the North. Judge McLean, Mr. Fessenden, and Judge Read, of your city, are talked of as prominent candidates. The recent elections certainly demonstrate that to carry the doubtful Northern States some one is needed who can command the confidence of the conservative voters of those States.

THE POLICE BILL.—The Court of Appeals, contrary to general expectation, did not render yesterday their decision upon the Police Bill, says the Baltimore Clipper of Thursday, and if the scores of rumors brought up from Annapolis by the evening train of yesterday, are to be believed in any respect, there is little probability of the agreement of the court. Should the division be equal, the effect would be a practical confirmation of the decision given by Judge Martin, a majority of the judges being required to reverse the judgment of the lower court. The "Helper Proviso" is said to be the hanging point with the court.

THE COVODE INVESTIGATION.

Collector Schell, of New York wanted.

WASAINGTON, April 6.—Mr. Covode made this morning, a minority report, directing the Speaker of the House to issue a warrant to the Sergeant-at-Arms. for the arrest of Augustus Schell, Collector of the Port of New York, to bring him before the House to answer to the charge of contempt. in refusing to furnish a list of the subscribers to the New York Hotel fund—$30,000 or $40,000—which was expended in New York and Pennsylvania during the Presidential canvass The report will be considered on Monday next.

Mr. Schell objects strenuously to the production of the papers, on the ground that to do so he would involve a breach of private confidence, and he would not do so without consulting the subscribers.

WILL THE COAL FIELDS HOLD OUT?—Some of the scientific journals have been discussing at various periods the question whether the coal fields will hold out, considering the enormous quantity consumed. Professor Rogers, after showing the areas and solid contents of the various known coal fields, estimates that at the present rate of consumption, 100,000,000 of tons per annum, the coal fields of Pennsylvania alone would meet the demand for 3,164 years. If the consumption were doubled, viz: 200,000,000 of tons, the great Appalachian field would meet the strain for 6,937½ years. If it were quadrupled; viz: 400,000,000, the productive coal fields of North America would suffice for the world's supply for 10 000 years to come.

THE PRIZE FIGHT.—The prize fight between Heenan and Sayers takes place on Monday, the 16th inst. The fight is for the championship of England, and it is noticeable that on the same day, and in the ring, after the first fight is over, another American, Charley Lynch, of New York, is to fight Young Shaw for the championship of the English "feather weights."—Lynch is the pugilist who killed Kelley in a prize-fight near New York, and who, having fled to England, has conquered in two or three rings there, and obtained the title which he fights to preserve.

UNION STATE CONVENTION.—The Constitutional Union State Convention of Pennsylvania will meet at Lancaster, on the 25th inst., to elect delegates to the National Convention to be held in Baltimore on the 9th of May.

The Mustang Liniment cures Rheumatism; The Mustang Liniment cures Stiff Joints; The Mustang Liniment cures Burns and Wounds; The Mustang Liniment cures Sores, Ulcers, Caked Breasts and Sore Nipples; Neuralgia, Corns and Warts, and is worth

1,000,000 Dollars per Annum

To the United States, as the preserver and restorer of valuable Horses and Cattle. It cures all Sprains, Galls, Wounds, Stiff Joints, &c. Did you ever hear of any ordinary Sore, Swelling, Sprain or Stiffness, either on man or beast, which the Mustang Liniment would not cure? Did you ever visit any respectable Druggist in any part of the world—in Europe, Asia or America—who did not say "it was the greatest discovery of the age?" Sold everywhere. Every family should have it; three sizes. BARNES & PARK, Proprietors, New York.

B. F. RAY & CO.'S
NATIONAL HARVESTER.
RAY'S
PATENT REAPER & MOWER.

I CALL the attention of Farmers to my simple Reaper and Mower. It possesses the following advantages:

1st. As a complete Reaper it only weighs 700 lbs.—as a Mower only 400.

2d. There are none of those cog-wheels about it, which render all other machines so unsatisfactory—but it works entirely with a roller—consequently there is but little friction. All the important parts of the machine is made of the best of wrought Iron.

3d. The machine can be raised or lowered by the driver, while in motion.

4th. I connect the knife directly to the main driving wheel, by the means of a rocker-shaft.

5th. I have malleable iron guards, arranged so that it is impossible for the machine to *choke*—the knife passing through two guards at each vibration.

6th. There is no weight on the horse's neck, from the fact that the tongue is hitched to the main frame.

7th. The machine can be changed from a Reaper to a Mower, by the means of removing two bolts.

8th. There is no side draft in this machine—this has been thoroughly tested—two horses can work this machine with perfect ease on rough or smooth ground; you will see by certificates, that it has been said by Farmers to be the best machine in use, for simplicity, strength and durability, and for all other advantages I have here mentioned. It also received the first premium at the Maryland Institute Fair of 1859.

Price of Combined Machine $120.

Office, No. 181 W. Pratt Street, in the rear of Ward & France's Tin and Stove establishment. Manufactory, corner of Leadenhall and Henrietta streets, Baltimore, Md.

Furniture Repairing AND CLEANING!
SAVE YOUR OLD FURNITURE.

THE subscriber would most respectfully inform the citizens of Easton and of Talbot county, that, as he has had considerable experience in Cabinet-making and Furniture Repairing he offers his services in the way of Cleaning and repairing Furniture, of all kinds. By having old Furniture repaired in time very often makes it look nearly as well as new besides it is a saving of more than one half. The subscriber will go in the country wherever his sevices may be required. His prices in all cases will be moderate. When not engaged in the country he may be found in Easton.
apr 14-3m WM. H. TURBUTT.

Commissioner's Sale

OF VALUABLE REAL ESTATE within one mile and a half of the town of Easton.

The undersigned, Commissioners, appointed by the Circuit Court for Talbot County, to value and divide the Real Estate of Ennalls Martin, deceased, hereby give notice that under and by virtue of an order of said Court, they will offer at public sale to the highest bidder, on

Tuesday, the 8th day of May next,

in front of the Court House, in the town of Easton, between the hours of 2 and 5 o'clock P. M. of that day, all the real estate whereof the said Ennalls Martin died, seized and possessed, consisting of that valuable farm or plantation called

"THE GLEBE,"

situate within 1½ miles of the town of Easton, and containing

289 ACRES OF LAND,

more or less, in a high state of cultivation. The soil is of excellent quality, is very susceptible of improvement, and lies immediately upon the head waters of Miles River and possesses all the advantages of the Salt Water. The improvements consist of a *NEW TWO STORY FRAME DWELLING* and a *SINGLE STORY DWELLING*, with a large Barn and other Outbuildings.

The Steamers of the Eastern Shore Steam Boat Company land twice a week within a mile and a half of the farm, at Miles River Ferry, and the Schools and Churches of the town of Easton are of easy access by an excellent public road passing through the farm.

The Farm is divided into two allotments containing respectively

163 Acres and 126 Acres

and will be sold in seperate tracts.

Also at the same will be sold

A Lot in the town of Easton,

known by the name of the "Brick Yard," whereon there is a small House and Stable and situated immediately in the rear of the Easton Academy.

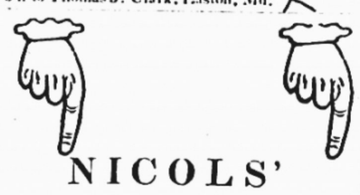

The above described property will be sold subject to the dower interest of the widow of Ennalls Martin, deceased.

The Terms of Sale as prescribed by the order of Court are, one fourth of the purchase money to be paid in cash on the day of sale and the residue in three equal payments of six, twelve and eighteen months from the day of sale, to be secured by bonds of the purchasers with securities approved by the Commissioners, bearing interest from the day of sale. Possession to be given on the 1st January, 1861—with liberty to seed Wheat in the coming autumn.

JOHN H. HARRIS,
THOMAS J. CLARK,
RICHARD ARRINGDALE,
GUSTAVUS A. SKINNER,
JOHN DONOVAN,
Commissioners.

IT IS OBTAINED
Light! Light! Light!
A PERFECT
GAS LIGHT
FOR THE MILLION.
Edward H. Anderson's
PORTABLE, AIR-PRESSURE, FAMILY
GAS LAMPS,
PATENTED APRIL 3, 1860.
WARRANTED NON-EXPLOSIVE.

BY this valuable invention, every family both of Town or Country, can enjoy the luxury of a first quality Gas Light. This light is equal in brilliancy to the Coal Gas Light, and is at the sametime softer and more agreeable to the eyes, which for safety in its use, brilliancy and economy, cannot be surpassed, at a cost of less than one cent per hour. It produces a light equal to four ordinary two-tube fluid lamps, and is perfectly free from *smoke or smell*, and less trouble in its management than the ordinary fluid or Coal oil lamps. They are so constructed that the flame can be reduced to one half size, when the full force is not required, thereby only consuming one half the quantity of oil.

The great desideratum that has so long been felt for a portable Gas-light, simple in construction, one that is easily managed, and not requiring too much outlay in the first cost of apparatus, has now been obtained, and is fully realized in this truely valuable invention, and must be seen to be fully appreciated.

This Generator is easily applied, and fully adapted to all descriptions of Lamps known, viz: such as ordinary fluid Lamps, every description of Coal Oil Lamps, Lard Oil Lamps, Chandeliers, Brackets, Hall-pendants and easily applied to every description of Gas fixtures.

The Lamp can be put up from the cheapest ordinary one dollar hand-Lamp to the most costly and ornamented eighteen and twenty-four burner Chandaliers, thereby bringing it within the reach of the poor as well as the wealthy. The light remains the same. The prices alone vary in proportion to the style and finish of the fixtures. The poor individual enjoying as good a light at a cost of one dollar, as his more fortunate neighbor will, in many instances at a cost of fifty dollars.

FACTS FOR THE PEOPLE.

1st. This Generator produces a more steady, clear and brilliant flame than any other known Generator.

2d. The Lamp is rendered entirely *non-explosive* from the principle upon which it is arranged, and the adaptation of the *air-tube* passing through the screw-top.

3rd. The flame is entirely free from *smoke* and *smell*, for the reason that the *flame* does not come in contact with *metal* or *wire-heaters* of any description.

4th. It consumes *less oil* than any other Generator, (producing the same size flame) for the reason that the Gas produced is *more perfect combustion* when it issues from the burner, and the ascent of the oil is regulated by the varifaction in the chambers.

5th. We do not assert that *one pint of oil* will burn a given *number of hours*, knowing at the same time that it will only last one half of the time stated.

6. We know that one pint of the ordinary fluid burns in this Lamp 10 hours, producing the full size flame, being less than one cent per hour.

7. The flame has more the appearance of a regular Gas light from large works, for the reason that the flame is not obstructed either above or on the sides by heaters, &c.

8th. It is the best generator for lighting churches, dwellings, halls, cars, steamboats, &c.

Every individual purchasing a Right, will realize a larger return on the investment made than he possibly could on any one thing else, as light is something that interests every individual throughout the world. A good light is a luxury and a blessing, it increases business, and adds cheerfulness to the household.

The proprietors, Hopkins & Anderson, have made extensive arrangements for manufacturing the Generators in any desired quantity and for furnishing those purchasing Rights with everything necessary to go into business.

TOWN, COUNTY, STATE AND DISTRICT RIGHTS FOR SALE.

For further information address or apply to the proprietors.

HOPKINS & ANDERSON,
apr 14 Easton, Talbot county, Md.

LIGHT! LIGHT!!
HOPKINS & ANDERSON'S
CELEBRATED
Liliputian Gas Burner.
Patented April 3, 1860.
The great Desideratum attained by the Inventors.

IN producing this simple yet ingenious little Gas Burner, whereby double the amount of Light is actually obtained from one half the quantity of oil ordinarily consumed. It has proved itself to be the best and cheapest little Lamp in existence where only a medium size light is required.

One pint of Oil burns twenty hours with the full size flame.

It gives more Light than any ordinary *two tube Lamp*.

It is perfectly free from smoke.

The light can be reduced to the smallest taper—thereby making it an excellent chamber light.

Passing about with the lamp does not effect its burning.

It can be put in operation by simply using a match.

It is certainly the cheapest Light known for ordinary household purposes.

Every individual purchasing these Lamps, exercises true economy.

The price of one gallon of oil pays for the entire apparatus, which amount it saves in a very short time, alone in the consumption of the oil.

Its merits will win the approval of all who try it.

It is destined to be introduced into every community throughout the country.

Any ordinary Lamp can be altered to use these Burners in a few moments.

Town, County, State and District Rights for sale.

The proprietors, Hopkins & Anderson, have made extensive arrangements for manufacturing these Burners, in any desired quantity, and for furnishing those purchasing Rights with every thing necessary to go into business. For further information address or apply to the proprietors, HOPKINS & ANDERSON,
