B. F. RAY. JOSEPH FARROW

B. F. RAY & CO.'S
NATIONAL HARVESTER.
RAY'S
PATENT REAPER & MOWER.

I CALL the attention of Farmers to my simple Reaper and Mower. It possesses the following advantages:

1st. As a complete Reaper it only weighs 700 lbs.—as a Mower only 400.

2d. There are none of those cog-wheels about it, which render all other machines so unsatisfactory—but it works entirely with a roller—consequently there is but little friction. All the important parts of the machine is made of the best of wrought Iron.

3d. The machine can be raised or lowered by the driver, while in motion.

4th. I connect the knife directly to the main driving wheel, by the means of a rocker-shaft.

5th. I have malleable iron guards, arranged so that it is impossible for the machine to *choke*—the knife passing through two guards at each vibration.

6th. There is no weight on the horse's neck, from the fact that the tongue is hitched to the main frame.

7th. The machine can be changed from a Reaper to a Mower, by the means of removing two bolts.

8th. There is no side draft in this machine—this has been thoroughly tested—two horses can work this machine with perfect ease on rough or smooth ground; you will see by certificates, that it has been said by Farmers to be the best machine in use, for simplicity, strength and durability, and for all other advantages I have here mentioned. It also received the first premium at the Maryland Institute Fair of 1859.

Price of Combined Machine $120.
