To be raised by a tax of 60 cents on the $1 00 on $5,632,912 property, giving a surplus of $193-75, to meet insolvents and errors.

A State tax of 10 cents on the $100 is also levied.

The Code of Public Local Laws having omitted to provide for supplying the Public schools of this county with fuel, books, and stationery, by the County Commissioners, and it having been represented to the Board that the parents of a large number of children in the county are unable to purchase them the necessary books and stationery, to attend the schools, with profit, and the desire being general, that the commissioners should provide for this expense, as usual, notwithstanding the absence of authority in law to do so, the Board, to afford every facility in their power to keep the schools in effective operation, have levied a special tax of 7 cents on the $100 for this purpose, making $3,913,04, which the tax payers can pay, if they desire the Commissioners to provide books, &c., for the schools.

If this voluntary tax is promptly paid, the books and fuel will be purchased by the Commissioners as heretofore, and the Board will feel justified in levying a similar tax for 1861, both to buy books and pay the teachers; and thus by voluntary taxation, the public schools may be continued in operation, notwithstanding the omission in the Code, until the Legislature can repair the defects of the present laws. The matter is now left in the hands of the people, in such a form as there can be no mistaking their action and wishes.

By order of the Commissioners for Talbot county. THOS. K ROBSON,
Clerk.

AGENTS FOR THE
American
GUANO CO.,
OF NEW YORK.

OFFER FOR SALE THIS
SUPERIOR FERTILIZER
OF DIRECT IMPORTATION
FROM JARVIS AND BAKER ISLANDS,
IN THE PACIFIC OCEAN.

☞ A. H. A. & Co. would call the attention of farmers, and all other purchasers, to the fact that they are the *only authorized* agents of the AMERICAN GUANO COMPANY for the State of Maryland—and all Guano received from them will be WARRANTED PURE AND UNADULTERATED, and every package will bear upon it their name in full, with the trade mark of the Company, same as the above cut.

A perusal of the following Certificates, giving the *practical* results of the use of this Guano, will show to the farmer its true value, as proved by actual trial upon various crops in this State:

DAVIDSONVILLE, Anne Arundel Co., Md., }
July 28, 1860. }

Messrs. A. H. Angell & Co:

GENTLEMEN: Your letter of enquiry relative to the American Guano, came duly to hand.—Absence from home prevented an earlier reply. I used your Guano on wheat, and at the time I ordered it, intended to give it a full and fair trial beside of Reese's Manipulated. Inclement weather in part disappointed me, preventing the sowing of the wheat upon which it was used till the 23d of October, while that upon which Reese's was used was put in before the 15th. Notwithstanding this disadvantage, the American Guano made its mark, and the wheat that escaped the fly and frost had a better head and finer grain than that produced by the Manipulated, and I believe, had it been put in as early as the 15th of October, the yield would have been greater.

I do not, however, consider the grain producing qualities of the American Guano its greatest recommendation. In its adaption to grass lies its highest value; the clover on the land upon which it was used is far superior to any portion of the field, standing the drought much better and growing more kindly. Yours respectfully,
EDWIN A. DITTY.

TOBACCOSTICK, Dorchester Co., Md., }
July 11th, 1860. }

DEAR SIRS: I used your American Guano on wheat. It answered very well—I shall use more this fall—I think it very good. Yours, &c.,
P. & J. E. HARRINGTON.

FRUITLAND, near Annapolis, July 12th, 1860.
Messrs. A. H. Angell & Co:

GENTLEMEN: Yours of the 9th was received. As to the result of the Guano on my wheat, I can say nothing definite, because of its destruction by the fly and other causes. Early in the spring it looked better than my neighbor's and gave promise of a first rate crop. I think under ordinary circumstances the Guano would have paid well. It was used at the rate of 250 lbs. to the acre—the land was poor. I also tried your Guano on corn this spring (the last time this land was in corn it was hardly worth gathering)—I used the Guano in three ways: first, ploughed in about 300 lbs. to the acre; next, put half a small handfull in each hill; next, mixed the Guano with three times its bulk of marsh mud, and applied a handful to the hill. One of these methods is as good as the other, so far as I see.—Without one of them I don't think I will be, till my land gets rich. The corn where this was applied has a fine color and is eighteen inches or two feet higher than where no manure was put.

Respectfully yours, ED. A. WELCH.

WOODLAWN, Harford Co., August 1st, 1860.
Messrs. A. H. Angell & Co:

GENTLEMEN: We have tried your American Guano, both on wheat and corn, in comparison with the California Guano, applied at the same rates, and see no difference between them—both seem to act alike. A. T. LEVERING & BRO.
