To be raised by a tax of 60 cents on the $1 00 on $5,632,912 property, giving a surplus of $193-75, to meet insolvents and errors.

A State tax of 10 cents on the $100 is also levied.

The Code of Public Local Laws having omitted to provide for supplying the Public schools of this county with fuel, books, and stationery, by the County Commissioners, and it having been represented to the Board that the parents of a large number of children in the county are unable to purchase them the necessary books and stationery, to attend the schools, with profit, and the desire being general, that the commissioners should provide for this expense, as usual, notwithstanding the absence of authority in law to do so, the Board, to afford every facility in their power to keep the schools in effective operation, have levied a special tax of 7 cents on the $100 for this purpose, making $3,943,01, which the tax payers can pay, if they desire the Commissioners to provide books, &c., for the schools.

If this voluntery tax is promptly paid, the books and fuel will be purchased by the Commissioners as heretofore, and the Board will feel justified in levying a similar tax for 1861, both to buy books and pay the teachers; and thus by voluntary taxation, the public schools may be continued in operation, notwithstanding the omission in the Code, until the Legislature can repair the defects of the present laws. The matter is now left in the hands of the people, in such a form as there can be no mistaking their action and wishes.

By order of the Commissioners for Talbot county. THOS. K ROBSON, Clerk.

AGENTS FOR THE American GUANO CO., OF NEW YORK.

OFFER FOR SALE THIS SUPERIOR FERTILIZER

OF DIRECT IMPORTATION

FROM JARVIS AND BAKER ISLANDS,

IN THE PACIFIC OCEAN.

☞ A. H. A. & Co. would call the attention of farmers, and all other purchasers, to the fact that they are the *only authorized* agents of the AMERICAN GUANO COMPANY for the State of Maryland—and all Guano received from them will be WARRANTED PURE AND UNADULTERATED, and every package will bear upon it their name in full, with the trade-mark of the Company, same as the above cut.

A perusal of the following Certificates, giving the *practical* results of the use of this Guano, will show to the farmer its true value, as proved by actual trial upon various crops in this State:

DAVIDSONVILLE, Anne Arundel Co., Md., July 28, 1860.

Messrs. A. H. Angell & Co:

GENTLEMEN: Your letter of enquiry relative to the American Guano, came duly to hand.—Absence from home prevented an earlier reply. I used your Guano on wheat, and at the time I ordered it, intended to give it a full and fair trial beside of Reese's Manipulated. Inclement weather in part disappointed me, preventing the sowing of the wheat upon which it was used till the 23d of October, while that upon which Reese's was used was put in before the 15th. Notwithstanding this disadvantage, the American Guano made its mark, and the wheat that escaped the fly and frost had a better head and finer grain than that produced by the Manipulated, and I believe, had it been put in as early as the 15th of October, the yield would have been greater.

I do not, however, consider the grain producing qualities of the American Guano its greatest recommendation. In its adaption to grass lies its highest value; the clover on the land upon which it was used is far superior to any portion of the field, standing the drought much better and growing more kindly. Yours respectfully,

EDWIN A. DITTY.

TOBACCOSTICK, Dorchester Co., Md., July 11th, 1860.

DEAR SIRS: I used your American Guano on wheat. It answered very well—I shall use more this fall—I think it very good. Yours, &c.,

P. & J. E. HARRINGTON.

FRUITLAND, near Annapolis, July 12th, 1860.

Messrs. A. H. Angell & Co:

GENTLEMEN: Yours of the 9th was received. As to the result of the Guano on my wheat, I can say nothing definite, because of its destruction by the fly and other causes. Early in the spring it looked better than my neighbor's and gave promise of a first rate crop. I think under ordinary circumstances the Guano would have paid well. It was used at the rate of 250 lbs. to the acre—the land was poor. I also tried your Guano on corn this spring (the last time this land was in corn it was hardly worth gathering)—I used the Guano in three ways: first, ploughed in about 300 lbs. to the acre; next, put half a small handfull in each hill; next, mixed the Guano with three times its bulk of marsh mud, and applied a handful to the hill. One of these methods is as good as the other, so far as I see.—Without one of them I don't think I will be, till my land gets rich. The corn where this was applied has a fine color and is eighteen inches or two feet higher than where no manure was put.

Respectfully yours, ED. A. WELCH.

WOODLAWN, Harford Co., August 1st, 1860.

Messrs. A. H. Angell & Co:

GENTLEMEN: We have tried your American Guano, both on wheat and corn, in comparison with the California Guano, applied at the same rates, and see no difference between them—both seem to act alike. A. T. LEVERING & BRO.

PROPRIETORS OF THE

BOOTH & PARMENTER

SEWING MACHINE,

59 South Howard Steet, (near Pratt,)

BALTIMORE, MD.

DOCTOR SAMUEL HARPER,

AGENT FOR TALBOT COUNTY, will exhibit the machine, at his residence, in Easion, to any person wishing to examine it, and will give all necessary instruction in their use when purchased.

We take the liberty of calling your attention to our superior Sewing Machines, expressly adapted for family use.

It is now a fixed fact, that Sewing Machines must take the place of the old needle. It is no longer an experiment. After ten years' experience of the difficulties of Sewing Machines, from the fact of their complication rendering them almost impossible to be used in the country, success has become complete. In offering to the public the BOOTH & PARMENTER MACHINE, we can say with great confidence that the difficulty is now removed, for this Machine is so simple in all its parts, that any ordinary child can learn to work it, and it will sew with equal facility either way you turn it. In other words, there is no wrong way of turning the treadle, nor is there any danger of inexperienced persons putting it out of order.

As those who have them in use are the ones to speak, we insert a few cards of the hundreds who can testify of its simplicity, easy management, &c.:

From Rev. E. Yeates Reese, Editor "Methodist Protestant."

MESSRS. A. P. SHARP & CO.

The *Sewing Machine* of *Booth & Parmenter* is a household fixture in my family. It answers all my expectations concerning it—is simple, rapid in operation, does coarse and fine work, and has given no trouble to those who operate it. I can recommend it with great confidence.

E. Y. REESE, 105 Conway Street.

From "Barnum's City Hotel."

Baltimore, January 14th, 1860.

MESSRS. A. P. SHARP & CO.

Gentlemen:—The *Booth & Parmenter Sewing Machine* works well, and to say it is doing the principal work of this *Hotel*, using up spool after spool of thread, and sewing from the finest to the coarest fabrics, without the *least trouble*, is saying very much in its favor. It is extremely simple, and not liable to get out of order; and being easily understood and worked, makes it a *very superior* Family Machine. Yours truly,

BARNUM & CO.

EASTON, 20th September, 1860.

About two months since I purchased, for my daughter, one of Booth & Parmenter's Sewing Machines, which she has since been using in my family with much satisfaction and success. It is simple in its construction; can be easily worked by any one after a little experience, and does not seem likely to get out of order; or if it does, is easily adjusted—we think it a most valuable acquisition in a family and will soon repay its cost. My family prefer it to any they have knowledge of. Very Respectfully yours,

WM. H. GROOME.

During last year I purchased a Booth & Parmenter Sewing Machine, which has been used in my family with great success and profit.—This is the best, most convenient and simple machine in use. It can be worked by any one, after a little experience in using it—not likely to get out of order, and readily repaired. In a family it will very soon repay the costs. Very respectfully yours,

JAS. LL. MARTIN.

Gentlemen:—Booth & Parmelter's Sewing Machine has been constantly used, in my family, for some time past, and gives, I am happy to state, entire satisfaction. Its mechanical arrangement is exceedingly simple and intelligibie, is not liable to become disordered, and is admirably adapted for the various objects it proposes to accomplish. It ranks already among the indespensible of my household.

CHRIS, C. COX, M. D.

ROYAL OAK, Sept. 15, 1860.

I have had one of Booth & Parmentsr's Sewing Machine, in my family for several months; it is simple and rapid in operation, does fine and coarse work well, and has given little or no trouble The work is strong. I consider it the best machine in use, snd can recommend it to those who wish to purchase. I would not be without it for $100, unless I could get another, its worth is not known until used.

R. H. ADAMS.

This is to certify that we, the undersigned, have had in use in our family, and thoroughly tested *Booth & Parmenter Sewing Machine*, on various kinds of Goods, both heavy and light, and do hereby concur in pronouncing it the most simple and perfect working Machine, that has ever come under our notice. It is so very strong and simple in all its parts, that it cannot get out of order, except from carelessness. It sews with perfect ease by turning either way, and makes a very neat, strong elastic seam, which will not rip, though every third or fourth stitch be cut.

From the "Methodist Protestant," edited by the Rev. E. Yates Reese.

A First-rate Sewing Machine.—BOOTH & PARMENTER'S SEWING MACHINE, is really a first rate instrument. It is rapidly going into domestic use. One was placed some time ago in our domicil on trial, to be returned if we did not like it. But, like the Yankee clock, the experiment was a capital *hit*. Once worked there, it would require more fortitude than a peacefully-disposed husband could summon to allow it to be removed. The danger is that, to find work for it, more money may be spent for dry-goods than is desirable; for it disposes of material so rapidly, and so fascinates the femanines who operate it, that it is likely to be used more than is agreeable to a linky-lanky editorial purse. We commend it to our readers.
