TO ALL MY FRIENDS.

NOTICE.

THE subscriber wishes to go to the city early in the Fall, but cannot go without that account of yours. You know how it is with one when he has money to raise, and has to collect out of his friends. *You* are one of them, so don't wait for me to touch your elbow, but come and settle up so that I may be prepared to sell you another bill, as I *know* you will want A NEW COAT, PANTS OR VEST, or all of them, and as I am an accommodating man, I want to be ready for you; but it requires *your bill* to do it. I must have it, so I shall expect it before I go. I can tell you when that will be when you call, or I call on you, so look out for me as I am in a tight place, and must get out, and can, if you "face the music."

A lecture on the nature, treatment, and radical cure of Spermatorhœa, or Seminal Weakness, Sexual Debility, Nervousness and Involuntary Emissions, producing Impotency, Consumption and Mental and Physical Debility.—By Robert J. Culverwell, M. D.

The important fact that the awful consequences of self-abuse may be effectually removed without internal medicines or the dangerous applications of caustics, instruments, medicated bougies, and other empirical devises, is here clearly demonstrated, and the entirely new and highly successful treatment, as adopted by the celebrated author, fully explained, by means of which every one is enabled to cure himself perfectly, and at the least possible cost, thereby avoiding all the advertised nostrums of the day.—This Lecture will prove a boon to thousands and thousands.

Sent under seal to any address, *post paid*, on the receipt of two postage stamps, by addressing Dr. Chas. J. C. Kline, 480 First Avenue, New York, Post Box 4,586.

CARO, *Illinois, July 20th*, 1860.

Messrs. John Wilcox & Co.: Your "Inpectine," or "Persian Fever Charm," has done wonders. I was wholly despondent and wretched when I applied it, and in five hours the chills were removed and no fever has ensued. It is the simplest cure imaginable, and a wonder in nature or art. I would not be without this "Inpectine" a single hour. By constantly wearing it I seem to be "ague proof."

Yours Very Truly,

PLASTERING.

THE undersigned having had considerable experience in the Plastering business, respectfully informs the citizens of Talbot and adjacent counties, that he would be thankful for any work in his line. He can put on from one to three coats and will warrant it to be done in a workmanlike manner. His charges will be very moderate and his work warranted to stand.

Orders left at the store of Messrs. Cheezum & Emory will be promptly attended to.

The Schooner Bucephalus.

THE subscribers most respectfully inform their friends and the whole public that the fast and safe schooner Bucephalus is now in complete order and continues to make her regular trips in the freighting business—leaving Easton Point every Wednesday morning, and Baltimore every Saturday morning. The usual freight will be charged for grain, and charges for back freights will be moderate. We earnestly solicit the patronage of as many as may feel disposed to encourage us.—By devoting ourselves strictly to business, we hope to merit public patronage. All orders for goods must be accompanied with the cash: and orders in Easton may be left at the Drug Store of Dawson & Bro., and orders in Baltimore may be left at the commission house of Wm. S. Pawson, No. 95 Smith's wharf. Goods in Baltimore may be directed to State Tobacco Ware House No 2. Captain Chambers will attend regularly to the business at Easton Point, and Captain Bland will sail the vessel, and attend to the business in Baltimore.

REGULAR LINE BETWEEN Philadelphia and Easton.

THE Schooner "ELIZABETH JANE," having been completely overhauled, and being in every respect reliable and seaworthy, has been placed as a regular packet between Philadelphia and Easton, and will sail as regularly as wind and tide will permit. Proposed sailing days from each port, alternate Thursdays. Farmers can now rely on regular communication with Philadelphia, and at the lowest freights that can possibly be afforded.

Freights of grain respectfully solicited, and, when desired, advances will be made on receipt of grain of two thirds the market quotations.

All orders left at my store, or with the agents in Philadelphia, will receive prompt attention.

Having a granary at the Point, shippers can take their own time for hauling the grain down. Grain also taken on board at any place on the river. T. C. NICOLS, JR.,

BALT. ADVERTISEMENTS.

A. P. SHARP & CO.,

PROPRIETORS OF THE
BOOTH & PARMENTER
SEWING MACHINE,
59 South Howard Steet, (near Pratt,)
BALTIMORE, MD.
DOCTOR SAMUEL HARPER,

AGENT FOR TALBOT COUNTY, will exhibit the machine, at his residence, in Easton, to any person wishing to examine it, and will give all necessary instruction in their use when purchased.

We take the liberty of calling your attention to our superior Sewing Machines, expressly adapted for family use.

It is now a fixed fact, that Sewing Machines must take the place of the old needle. It is no longer an experiment. After ten years' experience of the difficulties of Sewing Machines, from the fact of their complication rendering them almost impossible to be used in the country, success has become complete. In offering to the public the BOOTH & PARMENTER MACHINE, we can say with great confidence that the difficulty is now removed, for this Machine is so simple in all its parts, that any ordinary child can learn to work it, and it will sew with equal facility either way you turn it. In other words, there is no wrong way of turning the treadle, nor is there any danger of inexperienced persons putting it out of order.

As those who have them in use are the ones to speak, we insert a few cards of the hundreds who can testify of its simplicity, easy management, &c.:

From Rev. E. Yeates Reese, Editor "Methodist Protestand.".

MESSRS. A. P. SHARP & Co.

The *Sewing Machine* of *Booth & Parmenter* is a household fixture in my family. It answers all my expectations concerning it—is simple, rapid in operation, does coarse and fine work, and has given no trouble to those who operate it. I can recommend it with great confidence.
E. Y. REESE, 105 Conway Street.

From "Barnum's City Hotel."
Baltimore, January 14th, 1860.

MESSRS. A. P. SHARP & Co.

Gentlemen:—The *Booth & Parmenter Sewing Machine* works well, and to say it is doing the principal work of this *Hotel*, using up spool after spool of thread, and sewing from the finest to the coarest fabrics, without the *least trouble*, is saying very much in its favor. It is extremely simple, and not liable to get out of order; and being easily understood and worked, makes it a *very superior* Family Machine. Yours truly,
BARNUM & CO.

EASTON, 20th September, 1860.

About two months since I purchased, for my daughter, one of Booth & Parmenter's Sewing Machines, which she has since been using in my family with much satisfaction and success. It is simple in its construction; can be easily worked by any one after a little experience, and does not seem likely to get out of order; or if it does, is easily adjusted—we think it a most valuable acquisition in a family and will soon repay its cost. My family prefer it to any they have knowledge of. Very Respectfully yours,
WM. H. GROOME.

During last year I purchased a Booth & Parmenter Sewing Machine, which has been used in my family with great success and profit.—This is the best, most convenient and simple machine in use. It can be worked by any one, after a little experience in using it—not likely to get out of order, and readily repaired. In a family it will very soon repay the costs. Very respectfully yours,
JAS. L. MARTIN.
Easton, 19th September, 1860.

EASTON, September 20, 1860.

Messrs. A. P. Sharp & Co.

Gentlemen:—Booth & Parmenter's Sewing Machine has been constantly used, in my family, for some time past, and gives, I am happy to state, entire satisfaction. Its mechanical arrangement is exceedingly simple and intelligible, is not liable to become disordered, and is admirably adapted for the various objects it proposes to accomplish. It ranks already among the indespensible of my household.
CHRIS. C. COX, M. D.

ROYAL OAK, Sept. 15, 1860.

I have had one of Booth & Parmentsr's Sewing Machine, in my family for several months, it is simple and rapid in operation, does fine and coarse work well, and has given little or no trouble. The work is strong. I consider it the best machine in use, and can recommend it to those who wish to purchase. I would not be without it for $100, unless I could get another, its worth is not known until used. R. H. ADAMS.

This is to certify that we, the undersigned, have had in use in our family, and thoroughly tested *Booth & Parmenter Sewing Machine*, on various kinds of Goods, both heavy and light, and do hereby concur in pronouncing it the most simple and perfect working Machine, that has ever come under our notice. It is so very strong and simple in all its parts, that it cannot get out of order, except from carelessness. It sews with perfect ease by turning either way, and makes a very neat, strong elastic seam, which will not rip, though every third or fourth stitch be cut.

From the "Methodist Protestant," edited by the Rev. E. Yates Reese.

A First-rate Sewing Machine.—BOOTH & PARMENTER'S SEWING MACHINE, is really a first rate instrument. It is rapidly going into domestic use. One was placed some time ago in our domicil on trial, to be returned if we did not like it. But, like the Yankee clock, the experiment was a capital *hit*. Once worked there, it would require more fortitude than a peacefully-disposed husband could summon to allow it to be removed. The danger is that, to find work for it, more money may be spent for dry-goods than is desirable; for it disposes of material so rapidly, and so fascinates the femanines who operate it, that it is likely to be used more than is agreeable to a linky-lanky editorial purse. We commend it to our readers.

ju 14 S. T. KENNARD.

GAS LAMPS.

IT IS OBTAINED!

Light! Light! Light!

A PERFECT
GAS LIGHT
FOR THE MILLION.
Edward H. Anderson's
PORTABLE, AIR-PRESSURE, FAMILY
GAS LAMPS.
PATENTED APRIL 3, 1860.
WARRANTED NON-EXPLOSIVE.

BY this valuable invention, every family both of Town or Country, can enjoy the luxury of a first quality Gas Light. This light is equal in brilliancy to the Coal Gas Light, and is at the sametime softer and more agreeable to the eyes, which for safety in its use, brilliancy and economy, cannot be surpassed, at a cost of less than one cent per hour. It produces a light equal to four ordinary two tube fluid lamps, and is perfectly free from *smoke or smell*, and less trouble in its management than the ordinary fluid or Coal oil lamps. They are so constructed that the flame can be reduced to one half size, when the full force is not required, thereby only consuming one half the quantity of oil.

The great desideratum that has so long been felt for a portable Gas-light, simple in construction, one that is easily managed, and not requiring too much outlay in the first cost of apparatus, has now been obtained, and is fully realized in this truely valuable invention, and must be seen to be fully appreciated.

This Generater is easily applied, and fully adapted to all descriptions of Lamps known, viz: such as ordinary fluid Lamps, every description of Coal Oil Lamps, Lard Oil Lamps, Chandaliers, Brackets, Hall-pendants and easily applied to every description of Gas fixtures.

The Lamp can be put up from the cheapest ordinary one dollar hand-Lamp to the most costly and ornamented eighteen and twenty-four burner Chandalier; thereby bringing it within the reach of the poor as well as the wealthy. The light remains the same. The prices alone vary in proportion to the style and finish of the fixtures. The poor individual enjoying as good a light at a cost of one Dollar, as his more fortunate neighbor will, in many instances at a cost of fifty dollars.

FACTS FOR THE PEOPLE.

1st. This Generator produces a more steady, clear and brilliant flame than any other known Generator.

2d. The Lamp is rendered entirely *non-explosive* from the principle upon which it is arranged, and the adaptation of the *air-tube* passing through the screw top.

3rd. The flame is entirely free from *smoke* and *smell*, for the reason that the *flame* does not come in contact with *metal* or *wire-heaters* of any description.

4th. It consumes *less oil* than any other Generator (producing the same size flame) for the reason that the Gas produced is more *perfect combustion* when it issues from the burner, and the ascent of the oil is regulated by the vanfaction in the chambers

5th. We do not assert that *one pint of oil* will burn a given *number of hours*, knowing at the same time that it will only last one half of the time stated.

6. We know that one pint of the ordinary fluid burns in this Lamp 10 hours, producing the full size flame, being less than one cent per hour.

7. The flame has more the appearance of a regular Gas light from large works, for the reason that the flame is not obstructed either above or on the sides by heaters, &c.

8th. It is the best generator for lighting churches, dwellings, halls, cars, steamboats, &c.

Every individual purchasing a Right, will realize a larger return on the investment made than he possibly could on any one thing else, as light is something that interests every individual throughout the world. A good light is a luxury and a blessing, it increases business, and adds cheerfulness to the household.

The proprietors, Hopkins & Anderson, have made extensive arrangements for manufacturing the Generators in any desired quanity and for furnishing those purchasing Rights with everything necessary to go into business.

LIGHT! LIGHT!! *HOPKINS & ANDERSON'S* CELEBRATED Liliputian Gas Burner.

Patented April 3, 1860.

The great Desideratum attained by the Inventors.

IN producing this simple yet ingenious little Gas Burner, whereby double the amount of Light is actually obtained from one half the quantity of it ordinarily consumed. It has proved itself to be the best and cheapest little Lamp in existence where only a medium size light is required.

One pint of Oil burns twenty hours with the full size flame.

It gives more Light than any ordinary *two-tube Lamp.*

It is perfectly free from smoke.

The light can be reduced to the smallest taper—thereby making it an excellent chamber light

Passing about with the lamp does not effect its burning.

It can be put in operation by simply using a match.

It is certainly the cheapest Light known for ordinary household purposes.

Every individual purchasing these Lamps, exercises true economy.

The price of one gallon of oil pays for the entire apparatus, which amount it saves in a very short time, alone in the consumption of the oil.

Its merits will win the approval of all who try it.

It is destined to be introduced into every community throughout the country.

Any ordinary Lamp can be altered to use these Burners in a few moments.

in the room lately occupied by Messrs. Hopkins & Anderson as a Lamp Store, opposite the Gazette Office. Her variety of goods consist in part as follows: Bonnets, Flats, Boy's Hats, French and American Flowers of the richest color and most delicate hue; Ribbons, Straw Trimmings, Head Dresses, Lace Shawls and Mantillas of various styles, Veils of all kinds and colors, Collars from 37½ up to $2, a general assortment of setts of Collars and Sleeves of linen, cambric and marseilles, linin and lace Handkerchiefs of various prices, Black Mitts, Dress Trimmings, Parasols, Fans, a variety of Embroidery varying in price according to quality, Black and White Laces, and everything that is generally kept in a Millnery and Fancy Store. Should I not have any article that may be called for it may be obtained in a short time by giving me the name, quality, &c., of the article desired, as I have made arrangements with some of the best houses in Baltimore to fill such orders, at short notice.

☞ Repairing done with neatness and on moderate terms. She thinks from a long experience in the above business and the great care used in selecting her stock of goods that she can give entire satisfaction in all her work as well as in the price and quality of her goods. [apr 21-tf

THE "HECKENDORN" PLOUGH—just introduced and recommended as the strongest Plough in use. For flushing it is said to be unequalled.

The "Peacock" Plough, with the Miles improvement. For efficiency, strength and durability this Plough has few equals.

The Patuxent, Minor and Horton, Chenowith, Prouty and Mears, Davis, Wiley and Barshare Ploughs are too well known to require any remark here.

The 'Moore's' Delaware Self-Sharpening Plough is the one that has given most satisfaction the past season. For efficiency and ease of workmanship this plough stands foremost in the ranks—different sizes always on hand. Besides the ploughs, all sizes of Castings may be had at any time.

The "Montgomery" Fan is without doubt the *best* in use either for chaffing or cleaning. All the above and every description of agricultural Implements and Machinery can be had of T. C. Nicols, Jr., at his celebrated store in Easton. Wholesale dealers supplied. [aug 18
