No satisfactory proposals having been made for the above, the contract is still open for bidders. [oct 13

NEW BOOT AND SHOE ESTABLISHMENT IN TOWN.

THE subscriber begs leave to inform his many friends and patrons and the public generally that he has just returned from the city with a stock of *BOOTS AND SHOES* that for quality and cheapness cannot be surpassed, if equalled, in this market. He deems it unnecessary to speak of the variety in his store, as he has in his purchases, embraced all.

He can always be found at the old stand of Elliott & Hughes, ready as formerly, to serve with pleasure, all who may favor him with a call.

His stock of material is of the best quality and finish and will be worked up according to order, by the best and most experienced workmen on the shore.

He proposes to do business on his former easy and accommodating terms, adding, however, that for all bills paid in cash at the time of purchase, he will allow a discount of five per cent.

GAS LAMPS.
IT IS OBTAINED!
Light! Light! Light!

A PERFECT
GAS LIGHT
FOR THE MILLION.
Edwa·d H. Anderson's
PORTABLE, AIR-PRESSURE, FAMILY
GAS LAMPS.
PATENTED APRIL 3, 1860.
WARRANTED NON-EXPLOSIVE.

BY this valuable invention, every family both of Town or Country, can enjoy the luxury of a first quality Gas Light. This light is equal in brilliancy to the Coal Gas Light, and is at the sametime softer and more agreeable to the eyes, which for safety in its use, brilliancy and economy, cannot be surpassed, at a cost of less than one cent per hour. It produces a light equal to four ordinary two tube fluid lamps, and is perfectly free from *smoke or smell,* and less trouble in its management than the ordinary fluid or Coal oil lamps. They are so constructed that the flame can be reduced to one half size, when the full force is not required, thereby only consuming one half the quantity of oil.

The great desideratum that has so long been felt for a portable Gas-light, simple in construction, one that is easily managed, and not requiring too much outlay in the first cost of apparatus, has now been obtained, and is fully realized in this truely valuable invention, and must be seen to be fully appreciated.

This Generator is easily applied, and fully adapted to all descriptions of Lamps known, viz: such as ordinary fluid Lamps, every description of Coal Oil Lamps, Lard Oil Lamps, Chandeliers, Brackets, Hall pendants and easily applied to every description of Gas fixtures.

The Lamp can be put up from the cheapest ordinary one dollar hand-Lamp to the most costly and ornamented eighteen and twenty-four burner Chandalier; thereby bringing it within the reach of the poor as well as the wealthy. The light remains the same. The prices alone vary in proportion to the style and finish of the fixtures. The poor individual enjoying as good a light at a cost of one dollar, as his more fortunate neighbor will, in many instances at a cost of fifty dollars.

FACTS FOR THE PEOPLE.

1st. This Generator produces a more steady, clear and brilliant flame than any other known Generator.

2d. The Lamp is rendered entirely *non-explosive* from the principle upon which it is arranged, and the adaptation of the *air-tube* passing through the screw-top.

3rd. The flame is entirely free from *smoke* and *smell,* for the reason that the *flame* does not come in contact with *metal* or *wire-heaters* of any description.

4th. It consumes *less oil* than any other Generator (producing the same size flame) for the reason that the Gas produced is more *perfect combustion* when it issues from the burner, and the ascent of the oil is regulated by the variation in the chambers

5th. We do not assert that *one pint of oil* will burn a given *number of hours,* knowing at the same time that it will only last one half of the time stated.

6. We know that one pint of the ordinary fluid burns in this Lamp 10 hours, producing the full size flame, being less than one cent per hour.

7. The flame has more the appearance of a regular Gas light from large works, for the reason that the flame is not obstructed either above or on the sides by heaters, &c.

8th. It is the best generator for lighting churches, dwellings, halls, cars, steamboats, &c.

Every individual purchasing a Right, will realize a larger return on the investment made than he possibly could on any one thing else, as light is something that interests every individual throughout the world. A good light is a luxury and a blessing, it increases business, and adds cheerfulness to the household.

The proprietors, Hopkins & Anderson, have made extensive arrangements for manufacturing the Generators in any desired quanity and for furnishing those purchasing Rights with everything necessary to go into business.

LIGHT! LIGHT!!
HOPKINS & ANDERSON'S
CELEBRATED
Liliputian Gas Burner.
Patented April 5, 1860.
The great Desideratum attained by the Inventors.

IN producing this simple yet ingenious little Gas Burner, whereby double the amount of Light is actually obtained from one half the quantity of il ordinarily consumed. It has proved itself to be the best and cheapest little Lamp in existence where only a medium size light is required.

One pint of Oil burns twenty hours with the full size flame.

It gives more Light than any ordinary *two-tube Lamp.*

It is perfectly free from smoke.

The light can be reduced to the smallest taper—thereby making it an excellent chamber light

Passing about with the lamp does not effect its burning.

It can be put in operation by simply using a match.

It is certainly the cheapest Light known for ordinary household purposes.

Every individual purchasing these Lamps exercises true economy.

The price of one gallon of oil pays for the entire apparatus, which amount it saves in a very short time, alone in the consumption of the oil.

Its merits will win the approval of all who try it.

It is destined to be introduced into every community throughout the country.

Any ordinary Lamp can be altered to use these Burners in a few moments.

Town, County, State and District Rights for sale.

The proprietors, Hopkins & Anderson, have made extensive arrangements for manufacturing these Burners, in any desired quantity, and for furnishing those purchasing Rights with every thing necessary to go into business. For further information address or apply to the proprietors. HOPKINS & ANDERSON,

BOOTS & SHOES.

THE undersigned, having purchased the entire stock of G. C. Mackey, Esq., is prepared to sell all kinds of *Boots, Shoes Gaiters, &c.* as cheap, if not cheaper than they can be had at any establishment of the kind in Easton, or on the Shore. I have also just returned from the city with a large Stock of *Boots, Shoes, &c.,* of every description, to an inspection of which I invite my friends and the public generally. I think I can offer inducements to all who wish to buy. I am also prepared to manufacture work at short notice and in the best manner, having purchased an excellent stock of leather, and desire that a share of patronage may be bestowed upon me by those who have heretofore favored me, as one of the old firm of Elliott & Hughes. I shall also have repairing done in a neat and workman-like manner, and at very short notice. I have on hand a lot of *Hats, Caps, and Harness,* which I wish to close out at a low figure, to make room for other goods.

I feel very thankful for the very liberal patronage bestowed upon me in times past, and beg a continuance of the same, feeling confident I shall be able to please all who may thus favor me.—Also one or two setts of Furs, for sale at cost.

I remain, the public's obedient servant.

AMERICAN GUANO,
Price $40 per Ton of 2240 lbs., or 35 per Cent. less than Peruvian

A. H. ANGELL & CO.,

55 West Pratt-St., BALTIMORE, MARYLAND.

AGENTS FOR THE American GUANO CO., OF NEW YORK.

OFFER FOR SALE THIS
SUPERIOR FERTILIZER
OF DIRECT IMPORTATION
FROM JARVIS AND BAKER ISLANDS,
IN THE PACIFIC OCEAN.

☞ A. H. A. & Co. would call the attention of farmers, and all other purchasers, to the fact that they are the *only authorized* agents of the AMERICAN GUANO COMPANY for the State of Maryland—and all Guano received from them will be WARRANTED PURE AND UNADULTERATED, and every package will bear upon it their name in full, with the trade-mark of the Company, same as the above cut.

A perusal of the following Certificates, giving the *practical* results of the use of this Guano, will show to the farmer its true value, as proved by actual trial upon various crops in this State:

DAVIDSONVILLE, Anne Arundel Co., Md., July 28, 1860.

Messrs. A. H. Angell & Co:

GENTLEMEN: Your letter of enquiry relative to the American Guano, came duly to hand.—Absence from home prevented an earlier reply. I used your Guano on wheat, and at the time I ordered it, intended to give it a full and fair trial beside of Reese's Manipulated. Inclement weather in part disappointed me, preventing the sowing of the wheat upon which it was used till the 23d of October, while that upon which Reese's was used was put in before the 15th. Notwithstanding this disadvantage, the American Guano made its mark, and the wheat that escaped the fly and frost had a better head and finer grain than that produced by the Manipulated, and I believe, had it been put in as early as the 15th of October, the yield would have been greater.

I do not, however, consider the grain producing qualities of the American Guano its greatest recommendation. In its adaption to grass lies its highest value; the clover on the land upon which it was used is far superior to any portion of the field, standing the drought much better and growing more kindly. Yours respectfully,
EDWIN A. DITTY.

TOBACCOSTICK, Dorchester Co., Md., July 11th, 1860.

DEAR SIRS: I used your American Guano on wheat. It answered very well—I shall use more this fall—I think it very good. Yours, &c.,
P. & J. E. HARRINGTON.

FRUITLAND, near Annapolis, July 12th, 1860.

Messrs. A. H. Angell & Co:

GENTLEMEN: Yours of the 9th was received. As to the result of the Guano on my wheat, I can say nothing definite, because of its destruction by the fly and other causes. Early in the spring it looked better than my neighbor's and gave promise of a first rate crop. I think under ordinary circumstances the Guano would have paid well. It was used at the rate of 250 lbs. to the acre—the land was poor. I also tried your Guano on corn this spring (the last time this land was in corn it was hardly worth gathering)—I used the Guano in three ways: first, ploughed in about 300 lbs. to the acre; next, put half a small handfull in each hill; next, mixed the Guano with three times its bulk of marsh mud, and applied a handful to the hill. One of these methods is as good as the other, so far as I see.—Without one of them I don't think I will be, till my land gets rich. The corn where this was applied has a fine color and is eighteen inches or two feet higher than where no manure was put.

Respectfully yours, ED. A. WELCH.

WOODLAWN, Harford Co., August 1st, 1860.

Messrs. A. H. Angell & Co:

GENTLEMEN: We have tried your American Guano, both on wheat and corn, in comparison with the California Guano, applied at the same rates, and see no difference between them—both seem to act alike. A. T. LEVERING & BRO.
