AMERICAN GUANO,
Price $40 per Ton of 2240 lbs., or 35 per Cent. less than Peruvian
A. H. ANGELL & CO.,
55 West Pratt-St., BALTIMORE, MARYLAND.

AGENTS FOR THE American GUANO CO., OF NEW YORK.
OFFER FOR SALE THIS
SUPERIOR FERTILIZER
OF DIRECT IMPORTATION
FROM JARVIS AND BAKER ISLANDS,
IN THE PACIFIC OCEAN.
☞ A. H. A. & Co. would call the attention of farmers, and all other purchasers, to the fact that they are the *only authorized* agents of the AMERICAN GUANO COMPANY for the State of Maryland—and all Guano received from them will be WARRANTED PURE AND UNADULTERATED, and every package will bear upon it their name in full, with the trade-mark of the Company, same as the above cut.
A perusal of the following Certificates, giving the *practical* results of the use of this Guano, will show to the farmer its true value, as proved by actual trial upon various crops in this State:

DAVIDSONVILLE, Anne Arundel Co., Md., July 28, 1860.
Messrs. A. H. Angell & Co:
GENTLEMEN: Your letter of enquiry relative to the American Guano, came duly to hand.—Absence from home prevented an earlier reply. I used your Guano on wheat, and at the time I ordered it, intended to give it a full and fair trial beside of Reese's Manipulated. Inclement weather in part disappointed me, preventing the sowing of the wheat upon which it was used till the 23d of October, while that upon which Reese's was used was put in before the 15th. Notwithstanding this disadvantage, the American Guano made its mark, and the wheat that escaped the fly and frost had a better head and finer grain than that produced by the Manipulated, and I believe, had it been put in as early as the 15th of October, the yield would have been greater.
I do not, however, consider the grain producing qualities of the American Guano its greatest recommendation. In its adaption to grass lies its highest value; the clover on the land upon which it was used is far superior to any portion of the field, standing the drought much better and growing more kindly. Yours respectfully,
EDWIN A. DITTY.

TOBACCOSTICK, Dorchester Co., Md., July 11th, 1860.
DEAR SIRS: I used your American Guano on wheat. It answered very well—I shall use more this fall—I think it very good. Yours, &c.,
P. & J. E. HARRINGTON.

FRUITLAND, near Annapolis, July 12th, 1860.
Messrs. A. H. Angell & Co:
GENTLEMEN: Yours of the 9th was received. As to the result of the Guano on my wheat, I can say nothing definite, because of its destruction by the fly and other causes. Early in the spring it looked better than my neighbor's and gave promise of a first rate crop. I think under ordinary circumstances the Guano would have paid well. It was used at the rate of 250 lbs. to the acre—the land was poor. I also tried your Guano on corn this spring (the last time this land was in corn it was hardly worth gathering)—I used the Guano in three ways: first, ploughed in about 300 lbs. to the acre; next, put half a small handfull in each hill; next, mixed the Guano with three times its bulk of marsh mud, and applied a handful to the hill. One of these methods is as good as the other, so far as I see.—Without one of them I don't think I will be, till my land gets rich. The corn where this was applied has a fine color and is eighteen inches or two feet higher than where no manure was put.
Respectfully yours, ED. A. WELCH.
