CONFISCATION PROPOSED.—The New Orleans Delta is savage at the useless "humanity and moderation" of the rebel leaders. It wants a full stop put to all payment of Northern debts, and calls attention to the large amount of property in Louisiana held by persons or their agents in the North. It mentions three cases:

"Gen. Patterson in command of a large force now advancing on Virginia Capt. Adams, who commands the squadron which is now depredating on the property of Southern citizens; and Dr. Wood, the Surgeon General of the United States Army. These officers all own large properties in the South. Gen. Patterson holds a large amount of the paper of our planters. He is even now, through his attorney, endeavoring to execute a judgment for $30,000 on a plantation owned by a widow lady in the State.—Capt. Henry Adams has a large interest in a plantation and negroes in this State, and Surgeon General Wood has a large force of negroes working on a plantation in Louisiana."

The Confederate Commissioners to Europe.

The Charleston Mercury of the 29th is quite despondent over the results of Secession diplomacy. It says of the refusal of Great Britain to permit privateers to bring their prizes into British ports:

We are only surprised that any of the Commissioners have remained a day in London after this order was issued. This is an act of *quasi* hostility, which, it appears to us, ought to have arrested all conference with British authorities. It was well known that, whilst Great Britain has the greatest interests in the independence of the Confederate States, there is an element of anti-slavery fanaticism which would, in all likelihood, paralyze her counsels in our favor.

It thinks the Emperor of the French free from all "fanaticisms," but ascribes his neutral policy to the stupidity of the Commissioners in staying so long in England as to give the British Ministry the opportunity to commit him to their own course of procedure. It also says that the Commissioners ought to have offered the British and French Governments some tangible advantage in the shape of low duties, to compensate them for running the risk of disagreeable complications with the United States, and asks in conclusion:

"Have our Commissioners been empowered to offer to France and England a treaty guaranteeing for a number of years low duties on their manufactured commodities imported into the Confederate States? We fear not, for if they had been empowered to make such treaties, we are satisfied that they might before this have returned home, with their mission completely successful; and the war on our frontiers, on the part of the United States, reduced to a weak absurdity."

Colonel Sherman's regiment of artillery, now organizing at Harrisburg, Pennsylvania, will contain twelve batteries and nearly one thousand nine hundred men.

CAMPBELL'S PURE ESSENCE OF *JAMAICA GINGER.*

GINGER is a grateful stimulent and carminative, and is often given in *Gout, Rheumatism, Dyspepsia, Cramp, Cholera Morbus, Cholic, Cholera, &c.*

In *Nervous and Sick Headache, Sea Sickness, Nausea, Imperfect Digestion*, or from Nausea induced by riding in a carriage, &c., it will be found most agreeable to the stomach and palatable to the taste, and affording at the same time almost in all cases immediate relief.

To the Inebriate, it is particularly serviceable; a very small quantity used instead of the usual stimulant, will give tone and vigor to the digestive organs, and impart strength to resist the temptation, and therefore be considered an invaluable agent in reclaiming the drunkard.

The traveling public will also find it very efficatious in correcting the bad results arising from a change of water and diet, a few drops of which will give a glow and vigor to the stomach, equal to a wine glass full of brandy or other stimulant, without producing any of the injurious and overraing effects which are sure to result from the use of stimuli of any kind. It is also a superior article for flavoring Jellies, Preserves, Cakes and for other Culinary uses besides making a good beverage in hot weather.

DOSE.—An adult may take one teaspoonful; a child from 8 to 14 years old half that quantity; and for a child 2 to 5 years old, 10 to 20 drops. To be given in syrup or in sugar and water.—For sale by

SOLE AGENT FOR

ALLEN & NEEDLES' SUPER-PHOSPHATE OF LIME.
Price $45 for 2000 lbs., Cash.

ALLEN & NEEDLES' FERTILIZER.
Price $30 for 2000 lbs., for approved *endorsed* note at eight months from March 15th, *without* interest. Note to be given *on or before* the delivery of the article. Or for Cash $28 00 for 2000 lbs.

☞ In all cases the freight is $1½ per ton to be paid in Cash.

The subscriber has experienced much satisfaction from the sale of over one hundred tons of "Allen & Needles' New Fertilizer" the past year, from the fact that although *some* persons did not have their expectations realized all unite that it has merits of a high order and nine tenths of the purchasers expressed themselves satisfied that, but for the severe drouth of last summer, it would have paid them handsomely. This concentrated manure is highly ammoniated being composed mainly of BONES, HAIR, ANIMAL MATTER AND SULPHURIC ACID. It is put up in new and sound seamless bags, which when emptied may be used for grain bags or other farm purposes.

The terms on which this manure is sold are such as to place it within the reach of all farmers, enabling them as it does to pay for it out of the crop it assists in producing.

The subscriber has been furnished with numerous verbal and written replies to his questionings concerning it, some of which are very flattering.

One verbal one is from a farmer of high standing in Trappe district who states that his corn crop was greatly benefitted by it and that after his crop of corn was matured he put a piece of the same land in Lucerne and at the time of his report December 10th his Lucerne *was then ten or twelve inches high*, something he never saw before at the same season.

Another report is, that a trial was made in the same field with Guano, Stable Manure, Lime and Marl and where the "Fertilizer" was applied, *though the poorest land in the field*, his corn was the best.

Annexed is a written report.
EASTON, MD., Oct., 13, 1860.
Thos. C. Nicols, Jr., Esq.

Dear Sir:—In reply to your inquiry in regard to the success of "ALLEN & NEEDLES' FERTILIZER" purchased of you last Spring I will say that owing to the drought the corn crop generally was cut short, but where the Fertilizer was applied the corn grew off finely and so continued until the drought stopped its progress. I applied it also to both Sweet and Irish Potatoes *with great success* making the *best crop I ever made*. I applied it also to Garden Vegetables, and notwithstanding the dry season I raised more vegetables than I have for the last *three years all together*. My confidence in it is so strong that I wish you to retain for me five tons to go on my wheat. Yours Truly,
CHARLES M. JUMP.

Numerous testimonials could be added to the above but it is deemed unnecessary. Few condemn it, numbers applaud it.

Orders are respectfully solicited and the earlier they are given the better as the supply is limited. It can be hauled any time and not affect the date of the falling due of the note, as whether taken before or after March 15th the notes will all bear same date.

I repeat send in your orders early. A small supply on hand to begin with.

Delivered without extra expense on Tred Haven or Choptank Rivers. Or on any other river on the shore where the orders reach 50 tons or more. [jan 19, 1861.
