The Schooner Bucephalus.

THE subscribers most respectfully inform their friends and the whole public that the fast and safe schooner Bucephalus is now in complete order and continues to make her regular trips in the freighting business—leaving Easton Point every Wednesday morning, and Baltimore every Saturday morning. To the Inebriate, it is particularly serviceable: a very small quantity used instead of the usual stimulant, will give tone and vigor to the digestive organs, and impart strength to resist the temptation, and therefore be considered an invaluable agent in reclaiming the drunkard.

The traveling public will also find it very efficacious in correcting the bad results arising from a change of water and diet, a few drops of which will give a glow and vigor to the stomach, equal to a wine glass full of brandy or other stimulant, without producing any of the injurious and overrating effects which are sure to result from the use of stimuli of any kind. It is also a superior article for flavoring Jellies, Preserves, Cakes and for other Culinary uses besides making a good beverage in hot weather.
