So you that have an account on my books come along and help me out, as you know I never refuse to let you have what you want, and as all my means are in the hands of my friends, I must look to them to *pay up.*—So when you see me, come up to the *scratch* and you will be entitled to the first choice this Spring. The subscriber has experienced much vexation from the sale of over one hundred tons "Allen & Needles' New Fertilizer" the past season, from the fact that although *some* persons have their expectations realized all unite that it has merits of a high order and nine tenths of the purchasers expressed themselves satisfied with it, but for the severe drouth of last summer, would have paid them handsomely. This concentrated manure is highly ammoniated being composed mainly of BONES, HAIR, ANIMAL MATTER AND SULPHURIC ACID. It is put up in new and sound seamless bags, which when emptied may be used for grain bags on the farm purposes.

The terms on which this manure is sold are such as to place it within the reach of all farmers, enabling them as it does to pay for it out of the crop it assists in producing.

The subscriber has been furnished with numerous verbal and written replies to his circulars concerning it, some of which are very encouraging.

One verbal one is from a farmer of high standing in Trappe district who states that his wheat crop was greatly benefitted by it and that his crop of corn was matured he put a part on the same land in Lucerne and at the time of his report December 10th his Lucerne *was one or twelve inches high,* something he never knew before at the same season.

Another report is, that a trial was made on the same field with Guano, Stable Manure, Plaster and Marl and where the "Fertilizer" was used, *though the poorest land in the field,* it was the best.

Annexed is a written report.

EASTON, MD., Oct., 13, 1860.

Thos. C. Nicols, Jr., Esq.

Dear Sir:—In reply to your inquiry in regard to the success of "ALLEN & NEEDLES' FERTILIZER" purchased of you last spring, I will say that owing to the drought the wheat crop generally was cut short, but where the fertilizer was applied the corn grew off fine and so continued until the drought stopped the progress. I applied it also to both Sweet and Irish Potatoes *with great success* making the *best I ever made.* I applied it also to Garden vegetables, and notwithstanding the dry season produced more vegetables than I have for the last *seven years all together.* My confidence in it is so strong that I wish you to retain for me four tons to go on my wheat.

Yours Truly,
CHARLES M. JOHNSON.

Numerous testimonials could be added to the above but it is deemed unnecessary. The premium, numbers applaud it.

Orders are respectfully solicited and the sooner they are given the better as the supply is limited. It can be hauled any time and paid for at the date of the falling due of the note, which can be taken before or after March 15th the notes all bear same date.

I repeat send in your orders early—I have a supply on hand to begin with.

Delivered without extra expense on the Tuckahoe or Choptank Rivers. Or on any navigable water on the shore where the orders reach 100 tons or more. [jan
