What the Union Men are in favor of, And the Peace Men Opposed to.

First—The Union men are for maintaining the Government of the Union and Constutution, so long as there is a loyal citizen North or South to battle against rebellion. The Peace party are opposed to it.

Second—The Union party in Maryland are opposed to the war, and would therefore crush, by the whole power of the nation, its authors, who commenced it by robbery and treason and by cannonading Fort Sumter. The peace party oppose all these acts.

Third—The Union party are in favor of peace, and therefore seek it in the only direction which will give honorable and enduring peace by putting down armed rebellion, so that the Union loving citizens of the South can support the Constitution and the Union of their fathers, without a revolver to their ears, or a bowie knife to their throats, to drive them into rebellion. The peace party oppose all this.

Fourth—The Union party are opposed to taxation, and would therefore make the war as short as possible, by exerting the whole energy of the nation's influence and power, so that at the earliest moment the rebellion may be quelled effectually.

Fifth—The Union party are opposed to all palliations and propositions for peace or compromise until rebellion is silenced, piracy, arson rebellion and murder, is torn down and destroyed, and the Stars and Stripes again float over every State Capitol and Fort in the Union. The so-called peace party in Maryland oppose all this. —*Baltimore co. American.*

THE LONDON TIMES ON A SUPPLY OF COTTON.—A writer in the London Times maintains that the supply of cotton is likely to be sufficient to meet the greatly diminished demand that exists until October, 1862. The production of the factories for two years has been so great that the continental markets are now glutted with cotton goods, and he believes that it would not have been possible to continue manufacturing for a year longer had the supply of raw cotton been ever so abundant.

The stock on hand, he alleges, is now 950,000 bales, to which will be added during this year 300,000 bales now at sea from East Indies and 200,000 more to follow, with 100,000 from Egypt, Brazil, &c. This would make a total of 1,550,000 at the 21st of December, minus 200,000 bales to be exported. With additions to be made during the winter and spring, he believes there will be cotion enough to last till the month of October, 1862, independent of America altogether.

☞ A British officer writing from Teheran, Persia, to the "London Times;" remarks:—"A Cathartic Pill, manufactured by "an American Chemist," (Dr. J. C. Ayer, of Lowell, Mass.,) has cured the Shah, of a Liver Complaint that threatened his life. This simple fact, as might be expected, renders the Americans immensely popular here, while we English are overlooked. Doubtless our own scholars made the discoveries which he employs, and thus it is in everything; we do the labor, then the mousing Americans put their mark on it and take the rewardi Doctor Ayer is idolized by the Court and its retainers here, which will doubtless be reflected to him on a gold snuff-box, or diamond-hilted sword, while not the name even of Davy, Christison or Brodie—the great lights by which he shines, is known."—New York Sunday Paper.

MARYLANDERS, RALLY!

VOLUNTEERS WANTED

FOR THE

1st Eastern Shore Regiment

OF

HOME GUARD.

I HAVE been authorized by the War Department at Washington to have enrolled and mustered into the service of the United States a Regiment of Infantry to act as a

HOME GUARD,

AND TO BE STATIONED ON THE
Eastern Shore of Maryland.

The purpose of the movement is to repel invasion, to preserve the peace and good order in our midst and to protect the rights of all, and aid in the enforcement of the laws.

As it has been asserted, with a view of defeating the movement, that the Administration intend ordering the troops away from home as soon as they are mustered in, I would remark that the Secretary of War expressly pledges that they "shall be stationed on the Eastern Shore of Maryland" and used only for "Home Protection." I state this fact for the benefit of those who are willing to do all they can for their country in its present peril, but whose circumstances are such as prevents their going abroad. The necessity of this movement at must be apparent to every candid and considerate mind. We are already threatened by the enemies of the country. At any moment we are liable to have civil war in our midst. In times of Revolution no one can tell into what peril a single day may place us. It behooves us to prepare, and be ready for any emergency, ere it be too late. It is high time that Marylanders were armed and prepared to protect themselves against adventuring Rebels.

The time of Enlistment will be three years, or until the end of the War.

A COMPANY

consists, when full, of one Captain, Two Lieutenants, One First Sergeant, Four Sergeants, Eight Corporals, Two Musicians, One Waggoner, and Eighty-two Privates.

Each Company will select its own officers, subject to the approval of the War Department.

The Company will be mustered into service as soon as it numbers Eighty-six men. But must afterwards be raised to One Hundred.

THE PAY

allowed for a Captain is Sixty dollars, four rations (or $30,00) per month and one servant.—Of First Lieutenant is Fifty dollars, four rations, per month and one servant. Of Second Lieutenant is Forty-five dollars, four rations per month, and one servant. Cadet, Twenty-four dollars per month. First Sergeant, Twenty dollars per month. Sergeant, Seventeen dollars per month. Corporal, Fifteen dollars per month.—Those officers who have no rations mentioned above in their pay, are allowed one ration, or nine dollars per month for board, and three dollars per month for clothing. The same allowances are also made to Privates.

Each soldier is entitled to a bounty of One Hundred dollars when discharged from service.

THE DISPOSITION OF THE TROOPS.

As many inquiries have been made concerning the disposition of the companies, I would remark that the Government pays each man for his full time, and assumes that he will give the whole of his time to the service. But it is the evident and written intention of the Government to afford security to the homes of us all. To accomplish this it would appear to be necessary to keep each company stationed in the neighborhood in which it was organized, as much as possible. Each company must be on muster every day. The whole force, it is contemplated, will be brought together at stated periods—say once in a month or oftener, as the exigency of the times and the public service may require. It is designated, I presume to let each company protect its own homes and neighborhood, in the main.

Such is the outline of the plan and its object. It will be modified as events and welfare of our people may demand. The details of the movement will be left to the commanding officer of the forces upon the Shore. For further particulars address, JAMES WALLACE,
