WHY IS IT?

You can buy horses, mares and mules at King's for less money than elsewhere. One reason is, he sells more horses than all the dealers in Baltimore combined. Another reason is, while our horse and mule business is the largest of any in Baltimore City, (stabling capacity 600 head and continuously receiving consignments from the breeders all over America,) it is only one branch of this immense business. We carry in stock 1000 vehicles of every kind, of which a large selection is suitable for country use, at lowest factory prices. The final reason is, we are THE LARGEST COMBINED HORSE AND MULE DEALERS, LIVERYMEN, WAGON, CARRIAGE AND HARNESS MANUFACTURERS IN THE WORLD

Mr. Foreman's Famous Incubator.

Mr. R. C. Foreman has an incubator what incubates. It will catch as well as hatch. He did not know that until he tried it. It went crazy on the subject of hatching chickens,—any old thing that looked like an egg, that pesky incubator turned into a downy chick. Such hatching you never did see. Talk about imitating the hen to get a hatch, this incubator would never be guilty of wearing its setter out on an empty nest, or trying to turn corn cobs into ducklings. Not a bit of it. This incubator simply took real eggs, and turned them into yelping chicks in twenty days and twenty hours, and in twenty minutes and twenty seconds longer the chicks were dry. Then Mr. Foreman had to throw out the shells. The incubator refused to do that, it was not in the bargain. Now there were made various and sundry bets against this incubator and its ability to hatch. All of these bets Mr. Foreman covered. Some were for five, and some for ten. The bets came in faster than the orders for broilers, until Mr. F. concluded he had caught enough suckers with that incubator. Then he whispered into the ear of the old thing at the end of twenty days and nineteen hours, and she just clucked like a hen, and settled down on those eggs for business. The incubator paid for itself on the first hatch and five times paid for itself on its first catch. Mr. Foreman is the hero of the hour and is looking for new territory.

Sharks in Tred Avon River.

John T. Price, a crabber at Easton Point, is authority for the statement that there are a number of sharks in the Tred Avon river the last few weeks. Several of those which he has seen are from 5 to 15 feet in length. They play havoc with his "trot" lines, biting them in two and devouring the crabs on them. He also reports that there are schools of fish in the river, especially around the shores of Hollyday's Island, at the mouth of Back creek.

MAY MEET HERE AGAIN.

Field Trials Association of Maryland and District of Columbia.

The Maryland and the District of Columbia Field Trials Association's members are busily arranging for the trials of 1905, which are to be held in November.

The organization will hold a meeting early in September to complete arrangements for the contests. At this meeting the time when the trials are to be run, the place and the judges will be selected.

Mr. J. Roger McSherry, of Frederick, Md., who, with Gen. J. B. Seth, of Easton, Md., and Mr. Conrad Dodge, of Washington, gave such satisfaction by their able decisions at last year's trials at Easton, will be requested to occupy the saddle again this year.

Mr. William R. Armstrong, the secretary of the association, has just returned from a trip through Talbot county, and reports that the heavy snows last winter did less damage to the partridges in that section than was feared, and, as the trials held last year in the vicinity of Easton were so successful, it is more than likely that the members will decide to return there this year. The members of the association are much pleased at the interest that has been aroused in Maryland and the District of Columbia, as evidenced by the large number of blue-blooded dogs which have been purchased and brought into the State and the District by Maryland and District sportsmen since the trials of last year.

Peculiar Disappearance.

J. D. Runyan, of Butlerville, O., laid the peculiar disappearance of his painful symptoms of indigestion and biliousness, to Dr. King's New Life Pills.
