I make the price, I sell the goods, and make all of these bold representations relating to my vehicles. That I have made the price **right** and have made good every representation is evidenced by the fact that I have grown in fifteen years from a comparatively small dealer to my present proud position, at the head of the list of the retail vehicle dealers of the peninsula. When I tell you what you are to get in a vehicle, you can expect to get all that is promised and more. Vehicle dealers may make many bombastic verbal claims about their output and they are allowed to pass as just "talk", but when I make a claim it is put in black and white, backed by all resources at my command and is beyond denial. When I first entered the field as a vehicle dealer, I found myself beset on every hand by fierce and determined competition. I announced my policy, "Honest Goods at Honest Prices", with every cent of unnecessary expense eliminated from the cost of selling my product, strict adherence to every promise made to my friends and customers, and a line of vehicles in which my trade could place every confidence. Time has proven that we "builded upon a rock", and the reputation of my buggies stands today like Gibraltar—secure and unassailable and defying attack from every quarter. Below I will give you some figures, which will positively be withdrawn when this car is sold.

I want to make the assertion. these prices are no **fake** as you may be told by some **narrow minded** hobnob, **but the goods are on the floor** for your inspection, if not as **represented** don't buy. I carry in stock repairs of all kinds. A full line of **Poles**, full weight Duck "not drill" **Sprague Umbrellas,** Drill and Full Rubber Top, all at prices which defy competition. **Act Quick.** Goods will not stay here at prices quoted above. **REPAIRING AND PAINTING A SPECIALTY.**

A TERRIBLE AFFLICTION.

Large Family Almost Wiped Out by Typhoid Fever.

The family of James Tribbett, who resides on a small farm about two miles from Henderson, Caroline county, is almost wiped out by typhoid fever. The family consisted of 11 members—father, mother and nine children.

The Tribbetts were poor, yet very energetic people, and when the dreaded fever entered the little farm house the father, not realizing the danger ahead of him and believing that his little ones would soon get well, did not send for a physician until he lost one of his children. Then it was too late, and one by one have passed away until four of the entire family remain.

On August 5 Mary, the oldest daughter, was the first to die with the malady. Then the 11-year-old daughter died on August 11. The mother, who was also stricken with the disease at the time of her children, died on August 15. On September 5 the 13-year-old daughter died, and on September 9 William, aged 20, died. Monday morning the father, James Tribbett, whose heart had almost been broken by the loss of his wife and children, died. Mr. Tribbett had only been sick a few days with the fever. Three small children, the youngest of whom is only six years old, are critically ill with fever, and the attending physician has little hopes of their recovery. The oldest son, a resident of Wilmington, also has typhoid fever and is in the Delaware Hospital of that city for treatment.

Piano Strength and Delicacy.

Old time strength and durability are coupled with all the delicacy in tone and touch that the most modern science of piano making is capable of in the Weaver Piano. It is as near perfect as any piano made at this time.
