HEAD-TO-FOOT OUTFITTER.

LETTER TO JAMES C. GODWIN,
Easton, Md.

Dear Sir: The easiest business in this world is dry-goods; the reason is: your customers want your stuff as much as you want to sell it; they come-in; you show it and sell it. That's the whole business, except your buying the goods.

Devoe comes next. It saves money, and people like money. They like somebody else's more than their own; they like to make it more than to save it; they like to keep it perhaps as well as to make it.

Buildings run-down fast, without paint; poor paint is the same. Devoe is the means of stopping that leak; a big one. All we've got to do, to sell Devoe, is to show that a man saves money by using it.

E. D. Jewell, Corry, Pa., painted his house 5 years ago with a mixed paint; 14 gallons. Last spring he painted Devoe; 10 gallons. Saved $15 to $20.

Yours truly,
F. W. Devoe & CO.

There are ranges and ranges—but the cooking range, advertised as having been on exhibition at Hartnett's, on Dover St., this week, and continuing today, is a range that almost goes beyond the range of human credulity. To see the severe sledge hammer tests put upon its top and the strength of the hinges of the drop doors, together with its wonderful and scientific conservation and concentration of heat in the oven, with less fire in the fire box, and the various other improvements and devices not only for economy but for convenience, make this range shoot at once beyond reasonable competition. See it today and get a free lunch from its service. Don't fail, the sight is worth the effort, even if you are not in the range of purchasers.

Philosophical Research.

"Of all sad words of tongue or pen the saddest are these, 'It might have been.'"

The poet made a hit when he wrote that which has been so freely quoted, but there are other sad things in the market, just as much entitled to pre-eminence.

Of all sad things to be most dreaded, the saddest is to be light-headed.

People with upper stories "to let," and too color blind to see their own "head lights" are the most pitiable sort of light-headed persons.

Drivelling idiots are commisserated but not blamed, crazy persons are dreaded and kept from annoying as much as possible, but Lord pity the light-headed victim who has full scope to sail at will, but no ballast.

Society should be more tolerant with such, and thankful at the same time that they are self-labeled, without requiring a jury to pronounce them "non compos."

There is a differencce between head lights and search lights. The Poe Amendment is a head light which is under the scrutiny of the strongest search light that can be thrown upon it.

This Amendment is curious; it is a kind of two-edged-sword-cutting-crow-bar, made to cut but one way when so needed, and that way to bar the "crow."

But it also puts the bar upon the "goose" that lays the needed ballot—the goose that cannot interpret the constitution of the State to the satisfaction of other geese.

So this time the contest will be purely along the lines of goose versus crow, but since both have good quills, when the feathers begin to fly, there will be some plumes worth the saving.

And which side will scoop the most remains to be seen.

New Cure for Cancer.

All surface cancers are now known to be curable, by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it, and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at Smithers' Moreland Pharmacy.
