FOR A NEW TOWN CHARTER.

The Movement in Easton Meets with Great Favor.

Cheap Pianos

Are more in demand than good ones because most buyers are not discriminating as to quality. Dealers know this and unless it is demanded may not show you a fine piano, for fear you may not be willing to pay the price. Some dealers are unprincipled and will misrepresent the quality of a cheap piano and ask a high price for it, because perchance they do not have a high grade piano in stock. If you insist upon having the genuine Weaver Piano and refuse to pay any attention to the 'Just as good' kinds you can't make a mistake. Send for a catalogue.
