HIGH SCHOOL NOTES.

There is much competition among the seventh, eighth and ninth grades in the First Assistant's studies to see which can obtain the highest class average at the end of the month The reward is a privilege, not divulged until the struggle has ended. All three of the classes are working hard to win the laurels.

The body of John Johnstone, which was found in Marsh Hope creek, near Hickman, a few days ago, was exhumed at the instance of a Delaware State detective Wednesday. Two physicians were present. It is impossible to please all, some want this paper to open its columns to the publishing of personal matter in which the public is not interested, and threaten foreclosure on their subscription if the same is not done. Others declare if it is done, both a foreclosure and total annihilation of other business matters will follow. Verily the editor of a paper in a small community should have an extra allotment of wings and a mile or two extra of golden streets some where in the future.

Fire which broke out in the center of Greensboro, Wednesday, alarmed the entire neighborbood and consumed the barn of Mr William Simpson. At one time a shed on C. B. Jarman's property and several other small structures were on fire. Bucket brigades bid effective work.

EVERY truck farmer knows (or ought to know) that POTASH is indispensable for producing good-paying truck crops.

A liberal quantity of POTASH, along with ample amounts of phosphoric acid and nitrogen, is vital to successful truck growing.

"Truck Farming," an interesting book dealing with practical truck raising and valuable to every truck farmer, will be sent to farmers on request, free of any cost or obligation.
