To The Citizens of Easton.

As a candidate for a member of the Council of Easton, to represent the First Ward, I desire to state that I was an earnest and out-spoken advocate of the new charter for the town; a contributor to the expenses of the Commission that created it, and a signer of the petition to the Maryland Legislature advocating its adoption as drafted by the Commission and as ratified at the Citizens' meeting held in the Court House.

If elected I shall devote my best energies to advancing the interests of the town along the lines contemplated by the new charter, and I shall cooperate with the Mayor and other members of the Council to secure these ends.

JOHN S. McDANIEL.

For President Council:
WILLIAM E. STEWART.

For Council:
1st Ward,
JOHN S. McDANIEL,
JOHN T. RATHELL,

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale at Harry Robert's Drug Store.

James H. Covington and wife who has been spending several weeks on the Pacific coast, are now in Salt Lake City. They were in Los Angeles at the time of the San Francisco disaster.

Some Uses for Salt.

Now that housecleaning is in order it may be well to remember that salt has many uses not thought of by the average person. Try some of these suggestions, which have appeared before in print:

If you want to cool a dish quickly try putting some salt in the cold water.

A pinch of salt in the whites of eggs will make them froth much quicker.

Place salt in the oven under baking tins to prevent the scorching of their contents.

Rub salt on prints before they are washed to set their color.

Put salt in whitewash to make it stick.

Use salt to remove ink stains from carpet. It should be put on, however, before the ink dries.

To make a small piece of candle last a long time try putting finely powdered salt on it until the salt reaches the black part of the wick. A mild and steady light may be kept in this way.

Salt dissolved in alcohol will remove grease stains from clothing.

For cleaning piano keys and knife handles salt is invaluable.

The man who went out to milk and sat down on a boulder in the middle of the pasture and waited for the cow to back up, was a brother to the man who kept a store and wouldn't advertise because he reasoned that the purchasing public would back up to his place of business when it wanted something.

If you are superstitious about the number 13 you had better give the Gazette your quarter dollars, for each one are 13 stars, 13 letters in the scroll of the eagles beak, 13 leaves on the olive branch, 13 arrow heads, and 13 letters in the words "quarter dollar." Now it's not safe to keep them so just bring them in and get credit on your subscription for the full amount.

If, perchance, a copy of this paper should fall into the hands of any who are in search of a new location—a place where church, school, and social advantages are given emphasis, and where you can live out your allotted number of years without fear of pestilence or famine, we say, like one of old, "Come thou with us and we will do thee good," without emphasis on the "do."

The poultry yarns and egg stories that are floating around have all been eclipsed by the latest one from the neighborhood of Felton. A farmer who resides near Manship Church set a hen with thirty eggs and where no more could possibly reach her nest. She came off with thirty-one chickens, and the question is weather the twin chickens came from a double yolk egg.—Baltimore Herald.

Look at the condition of the working man of today: where is he? The tinners are continually going up the spout; the plumbers are always in the gutter; the paper hangers are up againat the wall; Bankers are always compelled to raise the dough; the policeman has to be on his beat to live; the shoemakers have to work on their uppers and get waxed in end; the clockmaker runs on tick and is never on time; the washwomon is always in the soak and she is the only oue you see hanging on the line.

Now is a good time to pay the bill for snbscription that has so far escaped your attention. To mail bills several times takes postage, and postage costs money, and when a paper is sent out for really less money than it costs to produce it, a subscriber ought not require us to mail him bills. The date on the slip shows the time to which the paper has been paid. One dollar in advance pays for it whole year.

Asked to define the word "gentleman" a wise old guy replied as follows; A man who is clean both outside and inside; who neither looks up to rich nor down to poor; who can lose without squealing and win without bragging; who is considerate of women, children and old people; who is too brave to lie, to generous to cheat and who takes his share of the world and lets other people have theirs.

There seems to be a great scarcity of competent labor in this vicinity. All tradesmen are busy with their tools and the cry is heard on all sides for additional help. Carpenters are delayed in their building contracts because of the impossibility to get brick layers. It would seem that the rush to the cities that are having their labor troubles may account for much of the former available trade labor in this section having disappeared.
